Donation Opportunities

There are a range of options available
enabling you to leave a lasting legacy.

Roselle House

Tree of Knowledge

Purchase a leaf on the Tree of Knowledge that will grace the main staircase in Roselle House. A bronze leaf is \$2,000, silver \$3,000 and gold \$5,000.

With a nod to our iconic Big Tree that represents the Saint Kentigern Values, the new Tree of Knowledge symbolises the growth, learning and exploration that the Roselle House Learning Commons will inspire. The tree will be a crafted work of art – its branches spreading wide across the walls of the main staircase. You now have the opportunity to purchase a leaf on these branches as a lasting contribution to the redevelopment of Roselle House. Your gift will be acknowledged on a donor board beside the Tree.

Inspirational Quotes

Inspirational quotes prominently displayed in the Learning Commons, will be available for purchase for \$10,000. You can submit one for approval or select from our list.

Thought-provoking, wise or witty – you choose! Inspirational quotes, displayed in olde worlde style as befitting the history of Roselle House. Clever sayings stay with us for a life-time.

Equipment packages

Fit out of the Media Room/Editing Suite with film, recording and mixing equipment - \$25,000.

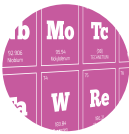

The provision of high-end media studies equipment will allow the boys to experiment and create with the latest technology.

The fit-out of this area in the Learning Commons is an exciting part of the project with endless possibilities.

Science Centre

Table of Elements

Each element of the periodic table is available to purchase for \$5,000. An interactive periodic table of elements will be a feature in the foyer

of the Science Centre, with a touch screen that will provide students with full information on the elements.

Dmitri Mendeleev, generally credited with the publication of the first widely recognised periodic table would never have envisaged his creation looking like this. An interactive screen displaying the element name, properties, information and graphics will be on the wall of the foyer of the new Science Centre.

Science Timeline

A timeline will be created highlighting major scientific events.

A pathway celebrating innovative thinking and experimentation

beyond the known. Starting way back in 1965, our scientific timeline will stretch through the entrance and hall of the Science Centre, highlighting the major events from then until now.

Choose from our carefully compiled list; events are available for purchase for \$5,000.

Inspirational Quotes

Inspirational quotes prominently displayed in the Science Centre, will be available for purchase for \$10,000. You can submit one for

approval or select from our list.

Words to inspire and challenge will be displayed in the Science Centre as a tangible source of motivation for our budding scientists.

Skeleton

A display skeleton for each of the laboratories will be purchased – a donation of \$15,000 will give you naming rights.

“The knee bone’s connected to the thigh bone”

Your anatomically correct human skeleton will be an invaluable teaching tool which will fascinate boys for generations.

Equipment packages

Fit out of the Media Presentation Room with sound and visual equipment - \$25,000.

High-end audio visual technology will

complete our presentation room and enhance the teaching and learning in the Science Centre. Inquiry learning, media knowledge and scientific exploration will combine to make this area an innovative, exciting work space.

Living Wall

A living wall will be installed in the Science Centre foyer as both an educational resource and green feature for the School.

Purchase this for \$50,000.

As an environmentally conscious school, we support the trend to increase the amount of vegetation in our living spaces, so this installation is an important feature of the new Centre. A system that allows plants to be removed for research and then replaced, provides us with a fantastic learning resource.

Naming Opportunities for key spaces are available as shown in the black panels below

If you are interested in these naming opportunities, please contact the Principal, Peter Cassie. (peter.cassie@saintkentigern.com)
