

Welcome

Saint Kentigern College prides itself on strong academic programmes, and the impressive results our students gain in both qualifications. We offer a diverse range of academic learning areas, and a choice of qualifications to prepare our young men and women for their future pathways.

his College Course book outlines the subjects that are available to study in 2024. The careful selection of an appropriate course of study is very important and should be made in discussion between students, parents, tutors, teachers and the Student Futures Department. Ultimately, your choice of subjects will determine next year's timetable, and enable us to plan for staffing and resources.

Both the Middle and Senior school years are a time for exploring avenues of interest. It is important to keep your courses varied for as long as possible. Work on your strengths and genuine interests — this will help you choose courses that you will both enjoy, and know that you can properly manage alongside your co-curricular activities. Your choice of subjects requires careful thought to ensure you do not restrict opportunities in later years of study.

Student Futures, led by Ms Justine O'Dwyer, is able to help students source information about the vast range of university courses, both in New Zealand, and overseas, as well as apprenticeships and careers.

A deadline will be set for selection of subjects. You should consider your choice of subjects with care, as alterations are more difficult to make at a later stage.

We hope that the information in this Course book will help you in the ongoing process of planning for your future. If you need more information, or help in making your decisions, be sure to talk to your Tutor, Head of House, teachers and Ms O'Dwyer.

Mrs Angee Robertson, B.A., Dip.Tchg. Deputy Principal, Curriculum

Ms JoAnn Wordsworth, BA, BPE, Post Grad Ed., Teaching Diploma (Sec), Cert. Gifted Ed.
Assistant Principal, Curriculum (Acting)

Please Note:

All courses offered in this booklet will only run if the minimum number of students selecting the subject is reached.

While the information given is accurate at the time of publication, ongoing review of NCEA courses by NZQA may results in some changes to the Achievement Standards that are listed.

Navigating this Book

Contents

Click the Contents button, located at the top left of every page, to access links that allow you to jump between sections of this book.

Page Navigation Buttons

Each page has buttons to navigate you to the next or previous page or subject description.

Subject Buttons

All subjects within a year level are listed on the left side of the Subject description pages. Click on these buttons to jump between subjects within a year level.

Related Content Buttons

These buttons are scattered throughout the book and give you easy access to related content.

Key Staff

To make good decisions about subject choices and career pathways, you need to have the right information. There are many teachers who can assist you in making an informed choice about whether a particular subject is right for you. In addition, the Student Futures team and area has a wealth of information about careers and tertiary study options.

Glossary

NCEA National Certificate of Educational Achievement AS Achievement Standards HLHigher Level SL Standard Level e-asTTle Assessment Tools for Teaching and Learning An online formative tool for assessing literacy and numeracy developed for the Ministry of Education by the University of Auckland. e-asTTle provides teachers, students, and parents with information about a student's progress towards curriculum achievement outcomes. EOTC Education Outside the Classroom This takes the form of camps and other subject related field trips. A two year course of study, offered as an alternative qualification to NCEA to students in Years 12 and 13.

Student Futures

The illiterate of the 21st century will not be those who cannot read and write, but those who cannot learn, unlearn and relearn – *Alvin Toffler*

his Alvin Toffler insight is increasing in significance every day for our young people, as the World Economic Forum in 2016 stated that '65% of future jobs have not yet even been invented'. The ability to acquire new skills is what will keep employees relevant and organisations thriving.

Therefore, we need to shift our focus from jobs to skills which prepare students for the future of work. By understanding the competencies and capabilities that will be most transferable, and in demand in the new economy, young people can work to equip themselves for the future of work more effectively. The 'Future of Jobs' Report released in 2020 by the World Economic Forum identified the top 10 skills required of employees in 2025. These competencies can be divided into four categories: problem solving, self-management, collaboration and technology use and development.

Our perspective needs to shift to reflect a more dynamic future of work where linear careers will be less common, and young people need a portfolio of skills and capabilities, including career management to navigate a more complex world.

Students will need to traverse a rapidly shifting landscape of organisational forms, and skill requirements. They will be increasingly called upon to reassess the skills they need, and quickly identify the right resources to develop and update these. Workers in the future will need to be adaptable lifelong learners.

TOP 10 SKILLS OF 2025

1 Analytical thinking and innovation

2 Active learning and learning strategies

3 Complex problem-solving

4 Critical thinking and analysis

5 Creativity, originality and initiative

Leadership and social influence

Technology use, monitoring and control

Technology design and programming

9 Resilience, stress tolerance and flexibility

10 Reasoning, problem-solving and ideation

Type of skill

Problem-solving Self-management

Working with people Technology use and development

PLANNING YOUR FUTURE PATHWAY

There is no right, or wrong, way to make your subject choices. However, it is recommended to keep your subject choices as broad as possible, for as long as possible.

If you have no idea what you want to do when you leave school – it's fine, don't worry! Many people are in the same position. There are some online quizzes that can be used to help you to match subjects that you are taking, your interests, or your skills to help provide some ideas for career fields you may be interested in.

Careers Quest (based on your interests) – https://www.careers.govt.nz/tools/careerquest/

Skills Matcher -

https://www.careers.govt.nz/tools/skill-matcher/

Subject Matcher -

https://www.careers.govt.nz/tools/subject-matcher/

If you already have an idea of what career field you might like to work in in the future, another method of planning is to reverse plan with the end in mind. The Future Pathways Tables (at the back of this booklet) will give you some direction as to which subjects will support that pathway at tertiary level. Some areas may also have an apprenticeship pathway available too, operated by registered Industry Training Organisations (ITO).

A Saint Kentigern College Education

With a reputation for excellence in our academic, sporting and cultural programmes, Saint Kentigern College opens 'a world of opportunity' for the young people who take their educational journey with us.

enerally at Year 7 or Year 9, our new students quickly settle into 'The Saint Kentigern Way,' a philosophy founded on Christian values which, together with a traditional emphasis on personal responsibility and high expectations, lays the foundation for a quality education.

MIDDLE SCHOOL

In recognition that boys and girls learn differently in their early teens, and often achieve better outcomes in single-gender classrooms, Saint Kentigern College operates a successful 'parallel education model'. In the Middle School (Years 7–10), our boys and girls are taught separately for compulsory learning areas. This model allows these younger students to learn in an environment best suited to their different developmental needs during these crucial, early teenage years, yet within a coeducational environment.

SENIOR SCHOOL

Following their Middle School years, students enter the Senior School (Years 11–13) where our young men and women work together in a coeducational setting, developing teamwork and collaborative skills that prepare them for tertiary education and the world beyond.

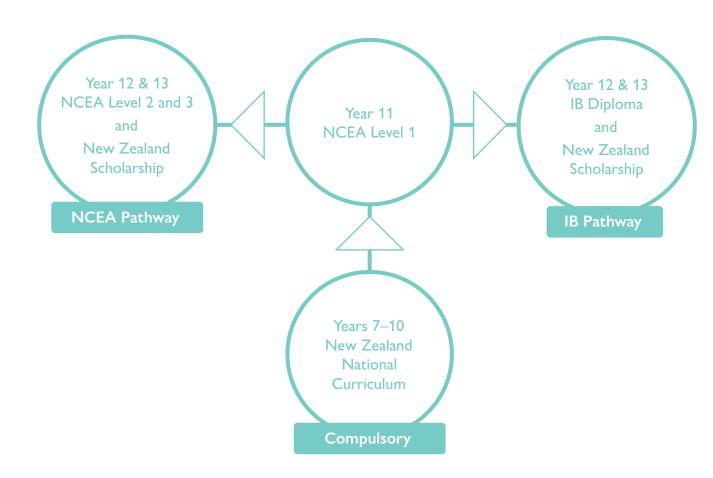

The Senior School is a time when students are giving thought to not only the courses they take in their Senior School years, but also future study and career options.

ACADEMIC PATHWAYS

In Year 12, Saint Kentigern students choose between continuing with the NCEA pathway, or changing to the International Baccalaureate Diploma pathway. The following pages provide information to help make this decision.

Understanding NCEA

NCEA (National Certificate of Educational Achievement) is the national qualification for senior secondary school students in New Zealand. At each Level of the qualification (Level 1, Level 2 and Level 3), students are assessed on the learning attained in their selected subject areas.

since the introduction of NCEA, the College has been pleased with the performance of our students at all three NCEA Levels; their results have consistently placed Saint Kentigern College as one of the top performing schools in the country. NCEA is the qualification pathway that the majority of our students will select.

ACHIEVEMENT STANDARDS

Individual NCEA subjects are divided into Achievement Standards, some of which are assessed internally (and moderated externally) during the course of the academic year, and some which are assessed externally through the NZQA (New Zealand Qualifications Authority) national examinations at the end of the year. Each successful assessment earns credits that contribute to a certificate at Level 1, Level 2 or Level 3. Most subjects offer between 16–20 credits.

There are four different levels of assessed results for Achievement Standards:

Not Achieved (N) – The student has not met the required standard

Achieved (A) – The student has met the required standard

Merit (M) – The student has achieved the standard with Merit

Excellence (E) - The student has achieved the standard with Excellence

How many Credits do I need to achieve a Level?

Each subject has a number of Achievement Standards. Each Achievement Standard is worth a number of credits that count towards NCEA. This diagram shows how many credits are required to be awarded a certificate at each level.

LEVEL 1

60 credits at any level (Levels 1, 2 or 3), including the:

- 10 credits in Literacy, and
- 10 credits in Numeracy co-requisites which sit outside these qualifications

LEVEL 2

80 credits at Level 2

OR..

60 credits at Level 2 or above

PLUS

20 credits at any level

LEVEL 3

80 credits at Level 3

OR.

60 credits at Level 3 or above

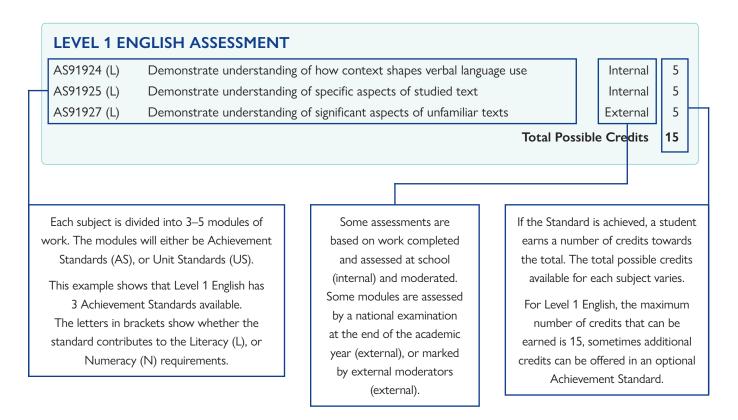

PLUS

20 credits at Level 2 or above

NCEA ASSESSMENT TABLES

All Year 11, 12 and 13 NCEA students will be assessed against NQF Achievement Standards, or Unit Standards. Each Achievement/ Unit Standard is worth a specific number of credits, generally between 2 and 6 credits. Most subjects consist of courses which offer between 16–20 credits.

Our Level 1 courses are designed with the decision of IB, or NCEA Level 2 in mind.

ENDORSEMENT OF CERTIFICATES

Students who have been successful receive NCEA certificates at the end of each year of study (Level 1, Level 2 and Level 3). These certificates show that a student has achieved the required number of credits at a particular level. To encourage students to do their best, those who gain sufficient credits at Merit (50 credits at Merit or above), or Excellence (50 credits at Excellence level), will have this recognised on their certificates.

ENDORSEMENT OF COURSES

Course endorsement provides recognition for students who perform exceptionally well in individual courses. To attain a course endorsement, a student will need to achieve:

- 14 or more credits at Merit and Excellence
- At least 3 credits from externally assessed standards and
 3 credits from internally assessed standards

The course must be completed within one school year. Further information can be found on the NZQA website: www.nzqa.govt.nz

Understanding the International Baccalaureate (IB) Diploma

Students entering Year 12 have a choice of academic qualifications. They can choose to continue with NCEA, or opt for the International Baccalaureate (IB) Diploma; a two year course that leads to a qualification that is widely recognised by universities around the world.

OVERVIEW

Students who select the IB Diploma at Year 12 should regard this as a two-year commitment, however, those whose attainment at the end of Year 12 appears insufficient to meet the IB Diploma requirements may be advised to reassess their qualification pathway for Year 13.

Please note: Students who elect to study the IB Diploma are also eligible to sit the NZQA Scholarship examinations where examination timetabling permits.

The IB Diploma programme emphasises high academic standards in the mandatory areas of Literature, a second Language, Mathematics, Humanities and Science. Academic excellence is coupled with an emphasis on personal development through the IB Learner Profile, in areas such as international-mindedness, social awareness and tolerance, self-regulation and research skills.

The IB Diploma programme is aimed at average to well self-motivated students with a strong work ethic; it is not an elitist qualification, but its rigorous standards and in-depth study of subjects do require commitment, organisation and initiative.

IB Diploma students take six subjects of which three subjects are studied in depth at Higher Level (HL), and three at Standard Level (SL). In addition, the programme has three compulsory course requirements that are included to broaden the educational experience, and challenge students to apply their knowledge and understanding. This requires students to complete a course in the Theory of Knowledge (TOK), write a 4000 word Extended Essay (EE) and participate in Creativity, Activity and Service (CAS).

For more information about the International Baccalaureate Organisation Worldwide, visit: https://www.ibo.org

ENTRY GUIDELINESS

The IB Diploma is available to all Saint Kentigern College students entering Year 12 providing they have met the relevant individual subject entry criteria (see individual subjects for details).

Students are not required to be top academics to undertake the IB Diploma Programme. However, students do need to be motivated, prepared to look at issues from different perspectives and willing to learn.

ASSESSMENT

IB Diploma subjects are assessed by a combination of continuous course work, and external examinations at the end of the two year programme.

In each subject, candidates are awarded Levels of Achievement with Level 7 being the highest.

Level 7 – Excellent

In addition to this, up to 3 points are awarded for performance in the Extended Essay, and the Theory of Knowledge. The Diploma is awarded to students who gain at least 24 points, subject to certain minimum levels of performance across the whole programme, and to satisfactory participation in the Creativity, Activity and Service (CAS) component. The highest total that a Diploma student can be awarded is 45 points.

The average international IB Diploma score is 29 points out of the maximum 45. 24 points is the minimum requirement for university entry, however, more demanding university courses will require a higher score.

For more detailed information about the International Baccalaureate Organisation worldwide, visit their website: https://www.ibo.org

For more specific and detailed information about the IB Diploma programme at Saint Kentigern College, please contact IB Coordinator, Ms S Tornquist, suzie.tornquist@saintkentigern.com

HOW DOES THE DIPLOMA PROGRAMME WORK?

The International Baccalaureate Diploma curriculum contains six subject groups. These subjects work together with a core, made up of three separate parts, that are compulsory to all students. These are illustrated below with the compulsory requirements at the core.

IB Diploma students study six subjects. Three of these subjects will be studied at Higher Level, and three at Standard Level (see explanation below).

The core: The Extended Essay, Theory of Knowledge and Creativity, Activity and Service are compulsory, and are central to the philosophy of the International Baccalaureate.

The requirement to select a subject from each group ensures that the science-orientated student is challenged to learn a foreign language, and the natural linguist becomes familiar with scientific process. Whilst balance is maintained, flexibility is catered for with a student choosing Higher Level subjects to pursue areas of personal interest and to meet special requirements for university entrance.

HIGHER LEVEL & STANDARD LEVEL

At Saint Kentigern College, **three** subjects are studied at Higher Level (HL) and **three** at Standard Level (SL).

- Higher Level courses represent 240 teaching hours
- Standard Level courses represent 150 teaching hours

For further information about the differences between SL and HL in subject areas, please refer to the following pages.

Please note all subjects are offered subject to satisfactory numbers of interested students.

NZQA Scholarship Examinations

Scholarship is a national external assessment for top scholars. Scholarship examines course material related to, and an extension of NCEA Level 3. Where course work is similar, IB Diploma students are encouraged to sit NZQA Scholarship examinations.

students to demonstrate high-level critical thinking and analytical skills, a comprehensive understanding of key content, as well as advanced written language skills. NZQA's intention is that 3% of the total number of Year 13 students in the country sitting Level 3 in each of the available subjects will be awarded a Scholarship, provided Scholarship standards are met. Of the top 3% nationwide who gain a Scholarship pass, a small number, equating to approximately 0.5% nationwide, will be accorded an Outstanding Scholarship.

Each year between 5 to 10 students nationwide are selected for a Premier Scholars Award.

Successful scholarship students gain substantial monetary awards. A scholarship in just one subject receives \$500, as a single payment. Other scholarship awards result in payments spanning three years of successful tertiary study. These awards are outlined in the table.

Saint Kentigern College has had great success preparing our students for these rigorous examinations.

Scholarship examinations offered at Saint Kentigern College are:

- Drama
- Chemistry
- Calculus
- Statistics
- English
- Media Studies
- Classical Studies
- French
- History
- Economics

- Biology
- Spanish
- Japanese
- Geography
- Physics
- Chinese
- Accounting
- Te Reo
- Music

In conjunction with the above, there are other scholarship subjects offered that do not have an end of year exam, but are portfolio or writing/essay based. These are: Art, Physical Education and Health, Technology and Dance.

Students can also sit, but do not necessarily have to be studying, the following subjects; Earth and Space Science, Agriculture and Horticulture Science, Media Studies, Geography and Physical Education and Health.

PREMIER AWARD

Awarded to the top five to ten candidates in New Zealand. The minimum eligibility requirement to be considered for this award is five, or more, Scholarships with at least three at 'Outstanding' level.

Award: \$10,000 each year for up to three years as long as candidates maintain at least a 'B' grade average in tertiary study.

OUTSTANDING SCHOLAR AWARD

Either:

- At least two Scholarships at 'Outstanding' level, plus at least one at 'Scholarship' level; or
- One Scholarship at 'Outstanding' level plus five or more at Scholarship level

Award: \$5,000 each year for three years as long as candidates maintain a 'B' grade average in tertiary study.

SCHOLARSHIP AWARD

For candidates who get Scholarship in three or more subjects.

Award: \$2,000 each year for up to three years as long as candidates maintain a 'B' grade average in tertiary study.

TOP SUBJECT SCHOLAR AWARD

For the top candidate in each one of the Scholarship subjects.

Award: \$2,000 each year for up to three years as long as candidates maintain a 'B' grade average in tertiary study.

SINGLE SUBJECT AWARDS

For candidates who get Scholarship in one or two subjects.

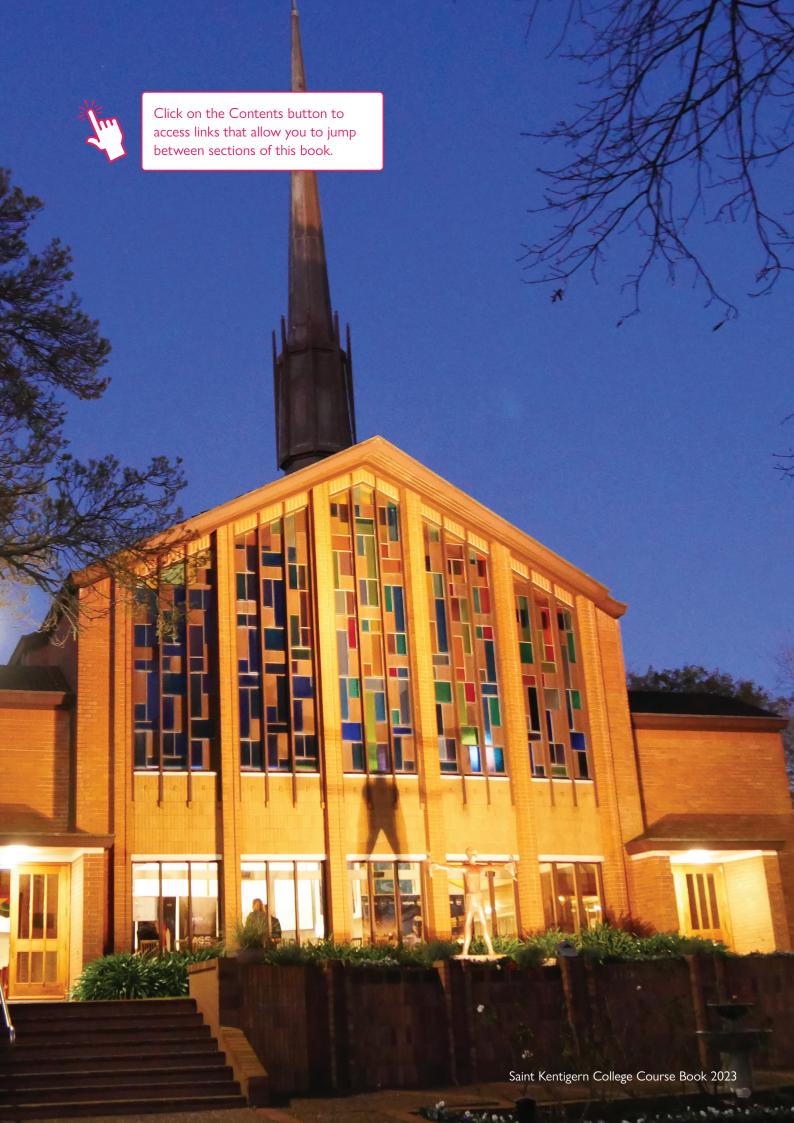

Award: A 'one-off' award of \$500 per subject (maximum payment \$1000).

Entry Guideliness for Scholarship examinations

While nationally, most students are Year 13 when they choose to sit a NZQA Scholarship examination, students at Saint Kentigern College are able to sit the examination at any level when deemed ready by the teacher responsible for the Scholarship programme in that subject.

Information about Scholarship tutorials can be discussed with Head of Department, Teacher in Charge of the Subject, or Head of Faculty. Details for who to contact can be found on the OLE.

Gateway	Electrical Engineering, Plumbing, Construction, Mechanic, Hairdressing and Beauty, Hospitality, Early Childhood

Curriculum Overview

Our boys and girls in Year 7 come together from a wide variety of schools, and consequently a key focus at the start of this year is the successful integration of our new students into College life. We focus on ensuring they feel welcome – settling quickly into routines together, and establishing friendship groups.

ur Year 7 students are taught in a homeroom with a dedicated classroom teacher. Specialist teachers work with the classroom teacher and contribute to the programme in the areas where timetable allocations make this possible.

During Year 7, students will experience 'taster' blocks in Languages, Arts and Technology. These courses provide student insight into possible subject options in later years.

Christian values are an intrinsic part of the special character of Saint Kentigern College. The Year 7 course provides students with a foundational understanding of the Christian faith.

In addition to common assessment activities, students may participate in ICAS (University of NSW) assessments in English, Spelling, Writing, Science, Mathematics and Computer Skills. Selected students may also compete in the Otago University Mathematics Problem Challenge. The College also enters teams for the regional Mathex competition. The students participate in and represent the College in a wide range of sports. Our students are also encouraged to be involved in cultural, musical and service programmes. These include orchestra, choirs, productions, Wearable Arts, Environmental Group, Robotics, Theatre Sports and World Vision, to name a few.

YEAR 7 LEARNING AREAS

All learning areas in Year 7 are compulsory. However, students will choose which languages to study as 'block courses'.

Christian Education

The Creative Arts

All students take **four** 'block' courses:

- Art
- Dance
- Drama
- Music

English

Languages*

All students take four 'block' courses of language including:

Te Reo Māori (compulsory)

Plus students select three of the following:

- Chinese
- French
- Japanese
- Spanish

Mathematics

Physical Education & Health

Science

Social Studies

Technology

* Please note our Language courses are for beginners only. Students who have a prior knowledge of a language, should not choose that language.

Click on the Subject Name to go to the Subject description page.

Christian Education

Contact: Dr | Sievers

As an intrinsic part of the special character of Saint Kentigern College, Christian Education is mandatory for all Year 7 students. The focus in Year 7 is on the Old Testament including the Creation story, with particular emphasis on a study of Moses.

Course Aims

- To present the Old Testament Bible narrative to students in an exciting and relevant manner
- To challenge and encourage students to gain a better concept of the Christian understanding of God and thus be able to make a conscious decision concerning the spiritual aspect of their lives
- To provide an environment in which students feel the freedom to express their viewpoint on a variety of issues
- To provide evidence to support the historical and geographical accuracy of the Bible
- To present the Bible as a user-friendly resource

Objectives

By the end of the course students will:

- Be familiar with large parts of the Bible, particularly the Old Testament
- Have an elementary understanding of God as described in the Bible
- Have discussed the Biblical account of Creation, the Fall of Man and the origins of Sin
- Have an elementary knowledge of Jewish History from Abraham to Moses
- Have a detailed knowledge of at least one Old
 Testament character and be able to apply the lessons
 learned from that character to their own lives

ACADEMIC PATHWAY

The Year 7 English programme provides students with a strong platform of skills to build on. The programme will cover the following curriculum strands: Reading, Writing, Listening, Presenting, Speaking and Viewing.

The Year 7 English programme covers the following aspects:

- Reading
- Writing
- Speaking
- Listening
- Viewing
- Presenting

The course is underpinned by the two key strands of the English Curriculum:

Making Meaning—How texts are constructed for different purposes and audiences, and how language features are used for effect.

Creating Meaning – How to construct texts for different purposes and audiences; how to select, form, communicate and organise ideas and how to use language features appropriately for effect.

Course Outline

Key genres covered are Recount, Narrative and Play Writing. Reading is another significant element of the course. Students are guided in their reading based on their current level of reading comprehension and are also expected to read widely for personal reading. Writing and technical writing skills are embedded within weekly tasks. Speaking and listening are incorporated through regular class and group discussion and more formal oral presentations linked with other parts of the curriculum.

ACADEMIC PATHWAY

Year 7 Learning Areas

All learning areas in Year 7 are compulsory. However, Students will choose which **three** languages to study as 'block courses'.

The Creative Arts

Contact: See below

In Year 7, in accordance with the New Zealand Curriculum, all students participate in a block course in each of The Arts – Dance, Drama, Music and Art. These short courses will give students a 'taster' that will assist them in selecting future course options.

Art Contact: Mr R Stratton

Year 7 students have the opportunity to be taught by an Art specialist teacher, and this block course is designed to foster and encourage students regardless of their previous experience, or current skill level.

Course Outline

In this Year 7 Visual Art course, students will be introduced to a range of techniques. They will learn how to acknowledge the work of established artists and allow their own work to be informed by their techniques and concepts. Students will complete a range of experiments and a developed art work. They will learn to work individually and collaboratively. Students will develop their ability to visually communicate their own personal, social and cultural experiences through Art.

Dance Contact: Mr G Wilcox

Students will be introduced to to the Elements of Dance and dance as a creative, social and physical aspect in their lives.

Course Outline

- Group choreography: exploring the elements of dance
- Perform a choreographed dance
- Introduction to Dance terminology

Drama

Discover the exciting world of theatre and performance. This course offers a range of innovative learning opportunities as well as a thought-provoking unit on a range of human experiences during NZ wartime.

Contact: Mr D Sheehan

Course Outline

Girls: Women's role in war – we focus on Lottie Le Gallaisa, a nurse travelling on the Maheno hospital ship during WW1.

Boys: The humanity within war – thinking on your feet, we journey through the perils and importance of friendship during difficult times.

Music Contact: Miss Lin

A practical course focused on the basics of music literacy and accessible band instruments' learning.

Course Outline

Students will be taught beginner pipe, drum, keyboard and guitar with a specialist, and be able to integrate these in an ensemble performance at the end of the course. Students will also learn to create a short piece of music on Garageband using loops and MIDI.

ACADEMIC PATHWAY

Year 10 - Art Year 7 - The Creative Arts Year 8 - The Creative Arts Year 9 - The Creative Arts All students take block courses All students select **two** courses All students select two courses Year 10 – Dance in: from: from: Art Art Art Year 10 – Drama **Dance** Dance Dance Drama Drama Drama Year 10 – Music Music Music Music (Contemporary and Advanced)

Year 7 Learning Areas

All learning areas in Year 7 are compulsory. However, Students will choose which **three** languages to study as 'block courses'.

Languages Contact: Head of Languages

The Year 7 Languages "Experiences Programme" is designed to expose students to a range of languages and cultures in their first year of second language study. They will study two languages in each semester.

Students will study Te Reo Māori and can choose **three** other languages to complete their programme from the following:

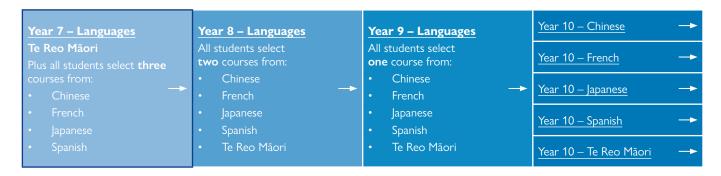

- Chinese
- French
- Japanese
- Spanish

Course Outline

In each of the language courses, students will be introduced to themes around personal introductions, and will develop an understanding of the country of origin, using simple language activities based on the New Zealand Curriculum Levels 1 and 2.

This programme is designed as an introductory course for beginners and is not intended for native speakers. Students are NOT to select a language that is used at home.

ACADEMIC PATHWAY

Mathematics Contact: Mr C Deadmarsh

Students are assessed at the beginning of the year and are cross-class grouped in ability groups so they are working with peers of a similar ability.

Appropriate aspects of the Numeracy Project are adapted to student needs and taught within the New Zealand Curriculum and in line with National Standards recommendations.

Course Outline

Topics covered are:

- Number (divided into two separate units)
- Measurement
- Statistics
- Geometry
- Algebra

Emphasis is placed on learning tables, basic mental and written calculation skills and problem solving strategies.

ACADEMIC PATHWAY

^{*}Early Entry Mathematics courses available by invitation from the Head of Faculty.

Year 7 Learning Areas

All learning areas in Year 7 are compulsory. However, Students will choose which **three** languages to study as 'block courses'.

Physical Education

Contact: Mr R Hamon

The Physical Education course is designed to foster and enhance positive attitudes towards participating in physical activity, encourage engagement and promote the development of physical and social skills.

Course Outline

Year 7 Physical Education covers:

- Aquatics To develop students technique in freestyle to ensure safety in the water and improve movement patterns
- Small Ball Skills students develop throwing and catching technique and their application in various game situations
- SKC Attitudes and Values raise awareness of what good sportsmanship is while highlighting the value of positive team members
- **Jump Rope for Heart** students develop various skipping skills whilst experiencing the benefit of exercise, culminating in the Jump Rope for Heart event
- Holiday Games students participate in a range of easily accessible Physical Activities and reflect on how they can maintain physical activity level

Health Contact: Mr R Hamon

In Year 7 Health is taught to foster attitudes and values that endorse health-enhancing practices.

Course Outline

In this curriculum area contexts and topics covered include:

- Secret Me getting to know each other activities.
 Learning the skills involved in developing friendships and working with others
- Smoking and Vaping students will gain information to understand the dangers of legal substance use, and develop assertiveness skills in social situations
- Managing Health gain knowledge and tools to manage their well being
- Volleyball students develop motor skills and an understanding of attacking and defending space in net / wall games

ACADEMIC PATHWAY

Year 7 - Physical Education & Health Year 8 - Physical Education & Health Feducation & Health

Science Contact: Ms C May

Science aims to develop students' knowledge and understanding of scientific concepts. Students are given learning experiences that stimulate curiosity and excitement, and develop scientific and investigative skills that are necessary for them to understand their everyday world.

Course Outline

Students explore the following contexts for learning:

- The Living World
- Forces and Energy
- Nature of Science
- Earth Sciences

Each student completes a Science Fair investigation to be submitted to the Saint Kentigern College Science Fair. Winning entries are then submitted to the regional Science Fair.

ACADEMIC PATHWAY

Year 7 - Science → Year 8 - Science → Year 9 - Science → Year 10 - Science →

Year 7 Learning Areas

All learning areas in Year 7 are compulsory. However, Students will choose which **three** languages to study as 'block courses'.

Social Studies Contact: Ms M Williams

The Social Studies programme aims to develop students' knowledge and understanding of different cultures, societies and environments. It seeks to build students' basic knowledge of the world around them and how to successfully interact with it and each other. A component of the course is developing students' awareness of current events and issues locally, nationally and globally. They are encouraged to think about the impact and consequences of these events on people and environments.

Course Outline

Current events are integrated throughout the year and students are encouraged to respond to community issues.

The main units to be covered:

- This is Us
- Ancient Egypt
- Peace not Pieces
- The Economic World

ACADEMIC PATHWAY

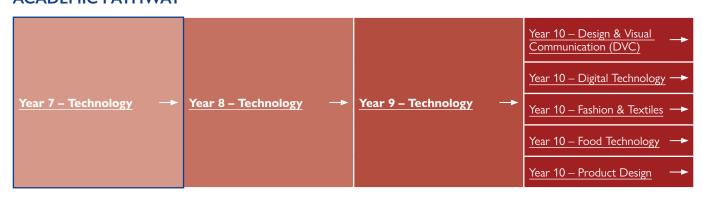

Technology Contact: Ms J Horgan

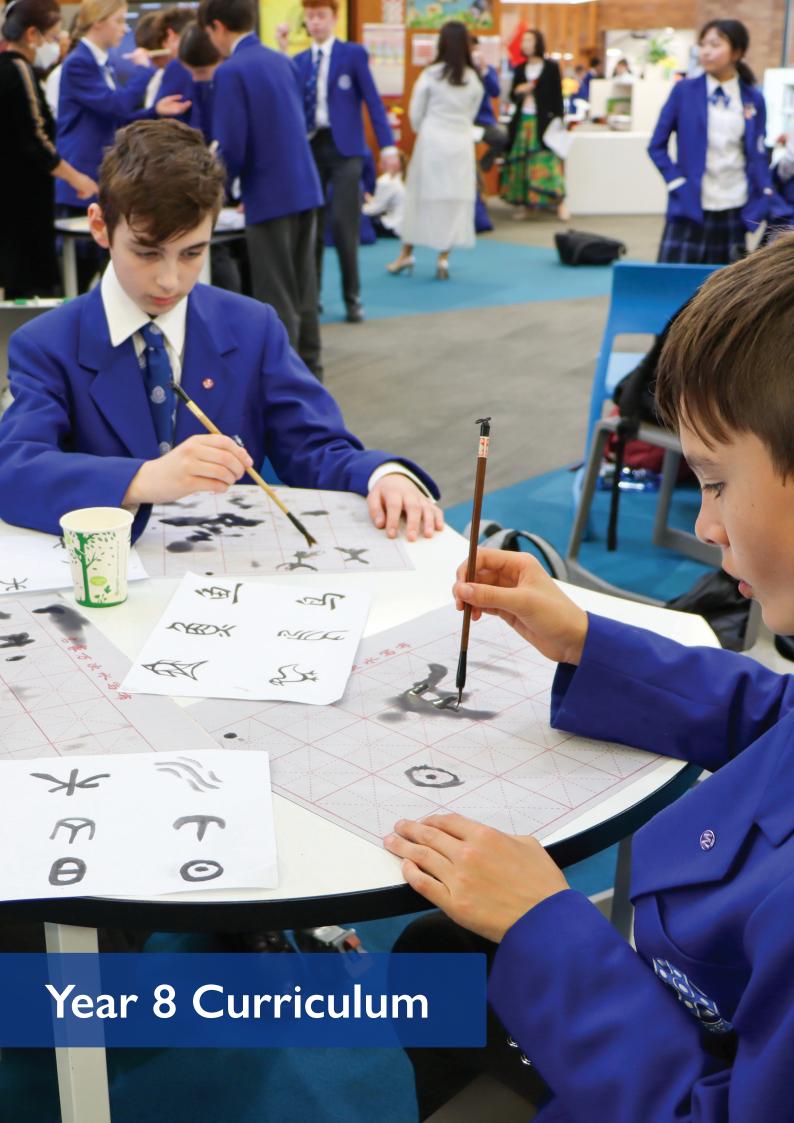

Technology aims to foster design thinking and encourages the synthesis of cross curricular subject knowledge in order for students to create outcomes that respond to authentic needs or opportunities.

Course Outline

The aim of this course is to introduce students to the nature of technological and design practice whilst building the foundations of specific subject procedural and literacy capabilities. Within given authentic project contexts, students will develop their thinking using planning and modelling to make decisions in their design journeys. Students will refine practical skills whilst they explore how the manipulation and use of materials affects the quality of a technological product. During these units students will apply computational thinking as part of the problem-solving process, as well as utilising and presenting evidence across the varied digital platforms.

ACADEMIC PATHWAY

Curriculum Overview

In Year 8, students continue to access all of the learning areas of the New Zealand curriculum. Students are taught by specialist learning area teachers to support a seamless transition into Year 9.

he focus continues to be on developing an excellent grounding in areas such as English, Mathematics, Social Studies and Science. To achieve this, the time allocation to these learning areas is greater than for other learning areas.

Students may participate in external ICAS (University of NSW) assessments in English, Spelling, Science, Mathematics and Computer Skills. Selected students may also compete in the Otago University Mathematics Problem Challenge and the regional Mathex competition. All students continue with their Christian Education studies.

YEAR 8 LEARNING AREAS

All learning areas in Year 8 are compulsory. However, students will choose which Language and Creative Arts subjects to study as 'block courses'.

Christian Education

The Creative Arts

All students select **two** semester length courses from:

- Art
- Dance
- Drama
- Music

English

Social Studies

Technology

^{*} Languages at Year 8 are a continuing course for beginners and as such intended for second language learners. Students are not to select a language that is used at home.

Click on the Contents button to access links that allow you to jump between sections of this book.

Year 8 Learning Areas

All learning areas in Year 8 are compulsory. However, Students will choose which **two** Language and **two** Creative Arts subjects to study as 'block courses'.

Click on the Subject Name to go to the Subject description page.

As an intrinsic part of the special character of Saint Kentigern College, Christian Education is mandatory for all Year 8 students.

The Christian Education Department is constantly evolving the Year 8 programme to ensure it is interesting and relevant to our students at this stage in their development as young men and women on their individual faith journeys, whatever they each perceive that to be. The focus in Year 8 is on the New Testament, more especially the life of Jesus.

Specific Aims

- To present the story of Jesus to students in an exciting and relevant manner
- To ensure that pupils understand the link between the Old Testament and New Testament by looking at the fulfilment of various prophecies
- To present and explore the belief that there is an evil force (Satan) who is in opposition to God
- To encourage students to consider their own ideas about spirituality and to question the importance of studying Jesus' life, death and resurrection
- To provide evidence to support the historical and geographical accuracy of the Bible and the person of lesus
- To recall what the disciples gave up to become followers of lesus
- To debate moral and ethical issues that might arise from the content of this course e.g. prejudice, sin, bullying etc
- To encourage and challenge students to use higher order thinking skills when approaching various aspects of their course
- To encourage students to think about implementing some of Jesus' principles into their own lives

Objectives

At the end of the course students will have:

- Explored and reflected upon their own opinions and thoughts about God
- Become more familiar with large parts of the Bible, particularly the New Testament
- A detailed knowledge of Jesus' birth, growing up and ministry years
- Explored aspects of the Temple in Jerusalem and its significance
- Discussed some concepts and ideas about Satan and the temptations of Jesus
- A familiarity with Jesus' disciples and the fact that Jesus had enemies
- A knowledge of Jesus' death and resurrection and its meaning
- Completed a written test and assignments to demonstrate their knowledge and understanding of the course material

ACADEMIC PATHWAY

Year 7 – Christian Education

Year 8 – Christian Education

<u>Year 9 –</u> <u>Christian Education</u> Year 10 - Christian Education

All learning areas in Year 8 are compulsory. However, Students will choose which **two** Language and **two** Creative Arts subjects to study as 'block courses'.

The Creative Arts

Contact: See below

In Year 8, all students select TWO semester length courses from The Creative Arts; Dance, Drama, Music, Art and one full year Language course. These classes could be mixed gender classes to facilitate timetabling and student option choices.

Art

Contact: Mr R Stratton

The Year 8 Art semester has a focus on practical work and is a programme that fosters skills and encourages students to be visual thinkers and artists regardless of their previous experience.

Course Outline

The Year 8 Visual Art course students continue to develop a range of drawing techniques exploring 2D and 3D outcomes. They will continue to acknowledge the work of established artists and allow their own work to be informed by their techniques and concepts. Students will complete a range of experiments and developed art works and learn to work individually and collaboratively. Students will develop their ability to visually communicate their own personal, social and cultural experiences through Art.

Unit 1 - Painting

Exploring the language of paint and abstraction

Unit 2 - Sculpture

Use clay to create a character inspired by your favourite food

Dance

Contact: Mr G Wilcox

Students studying Dance at Year 8 will have the opportunity to develop their skills in choreography, performance and research.

Course Outline

- Choreography Create a dance through exploration of the Elements of Dance
- Performance Whole class performance focusing in depth on a genre of dance

Drama

Contact: Mr D Sheehan

Drama allows students to discover the world of theatre and performance. Our programme responds to the rapidly-changing arts culture and encompasses relevant and highly successful drama training for our students.

Course Outline

- Māori Myths and Legends We teach students a range of performance components and conventions to enable them to create a unique narrated physical performance which incorporates Maori language, music and dance
- Melodrama Characters We explore the physical and vocal components of creating a character, then explore the comedic and dramatic elements of Melodrama.
 Students can develop their Melodrama idea into either a live performance or a short film

Music Contact: Miss M Lin

A practical course which allows student to play and create music as individuals and in groups, present and perform their work in live and digital context. Students will learn to strengthen their music literacy to be confident, inquisitive and reflective learners, preparing, creating and delivering the music works across both classical and contemporary medium.

Course Outline

- Practical Practice, rehearse and perform on a band instrument as part of the ensemble
- Music Technology & Songwriting Using DAW software to record and create an original composition
- Musical Literacy Multi-levelled to suit the needs of the individual's prior music background

ACADEMIC PATHWAY

Year 7 - The Creative Arts

All students take block courses in:

- Art
- Dance
- Drama
- Music

Year 8 - The Creative Arts

All students select **two** courses from:

- Art
- Dance
- Drama
- Music

Year 9 - The Creative Arts

All students select **two** courses from:

- Art
- Dance
- Drama
- Music

Year 10 - Art — Year 10 - Dance — Year 10 - Drama —

Year 10 – Music (Contemporary and Advanced)

All learning areas in Year 8 are compulsory. However, Students will choose which **two** Language and **two** Creative Arts subjects to study as 'block courses'.

English Contact: Mr C Hodder

The Year 8 English programme builds on learning from Year 7. The Year 8 programme will cover the following aspects: Reading, Writing, Listening, Presenting, Speaking and Viewing.

Course Outline

Year 8 English offers an engaging, comprehensive programme of learning integrated effectively into the wider learning programme. There is a focus on developing creative and formal writing skills. Key genres covered are Narrative, Monologues and Literary Essays. Reading is another significant element of the course. As well as texts studied in class, students are expected to read widely for personal reading. Speaking and listening are incorporated through regular class and group discussion and more formal oral

presentations linked with other parts of the curriculum. In addition, students are provided with several opportunities to develop their skills in visual language with a brief film study, and presentation of book jackets and comic strips. Students have a comprehensive skills workbook for instruction in grammar, punctuation and vocabulary. These skills are reinforced by regular writing tasks. The programme will include opportunities for all students to engage with New Zealand texts within the academic year.

ACADEMIC PATHWAY

Languages

Contact: Head of Language for your language of choice

The Year 8 Languages course is designed to enhance student second language experience.

Students choose **two** languages, one for each semester. These classes may be of mixed gender to facilitate timetabling in student option choices.

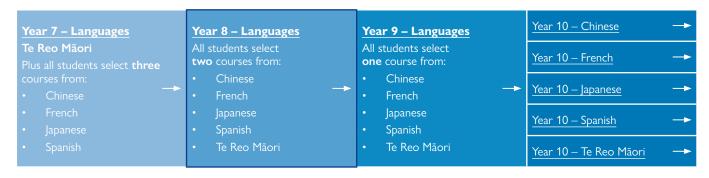

Students may select **two** of:

- Chinese
- French
- Japanese
- Spanish
- Te Reo Māori

Course Outline

The four skills of listening, reading, speaking and writing will be developed. This will be in conjunction with the Communications functions outlined in New Zealand Curriculum Levels 1-2.

Languages at Year 8 are a continuing course for Beginners and as such intended for second language learners. Students are not to select a language that is used at home.

All learning areas in Year 8 are compulsory. However, Students will choose which **two** Language and **two** Creative Arts subjects to study as 'block courses'.

Mathematics Contact: Mrs K Halliday

Students are grouped in ability groups, so they are working with peers of a similar ability.

Aspects of the Numeracy Project are adapted where appropriate to student needs and taught within the New Zealand Curriculum and in line with National Standards recommendations.

Course Outline

Problem solving and building basic calculation and mental skills are included in all strands – Number, Measurement, Statistics, Geometry and Algebra. Students are offered opportunities to participate in Mathex. Extension classes are offered to selected students and may be taught in co-educational groupings.

ACADEMIC PATHWAY

Year 7 – Mathematics Year 8 – Mathematics*	Year 9 - Mathematics*	Year 10 - Mathematics*
--	-----------------------	------------------------

^{*}Early Entry Mathematics courses available by invitation from the Head of Faculty.

Physical Education & Health

Contact: Mr R Hamon

Physical Education

Physical Education is designed to continue fostering positive attitudes towards participating in physical activity and team work.

Course Outline

- Stroke and Stride Students will participate in a training programme that will enable them to complete an Aquathon consisting of a 200m swim and a 1km run
- Gymnastics (Fundamental Movement Skills) –
 Students will improve their skill and understanding of gymnastic movement, developing an enhanced sense of body control in a chosen challenge environment
- Fast Fives develop tactical awareness at faster paced versions of traditional sport such as Turbo Touch,
 5 aside Football, Street Ball and 5 aside Hockey
- Tournament Time students will develop their kicking, catching, passing and more importantly, application to game settings. This unit adopts the sport education model of teaching and learning
- Strike it Right to enable students to learn and develop fundamental movement skills through play and games

Health

Health fosters attitudes and values that endorse health-enhancing practices.

Course Outline

- Digital Citizenship An introduction to safe online behaviour
- How the Body Moves An introduction to basic physiology and anatomy applied in a practical manner
- Positive Friendships & Bullying Promoting healthy attitudes towards peer relationships, and the concept of being an up-stander, not a by-stander to bullying
- Food Facts educate students on healthy food choices to maintain good physical hauora
- Stress Factor an investigation into how stress or anxiety can negatively affect a persons emotional health and introduce strategies to address this for their future

ACADEMIC PATHWAY

Year 7 - Physical
Education & Health

Year 8 - Physical
Education & Health

Year 9 - Physical
Education & Health

All learning areas in Year 8 are compulsory. However, Students will choose which **two** Language and **two** Creative Arts subjects to study as 'block courses'.

Science Contact: Ms C May

Introduction

Science aims to develop students' knowledge and understanding of scientific concepts. Students are given learning experiences that stimulate curiosity and excitement, and develop scientific and investigative skills that are necessary for them to understand their everyday world.

Course Outline

Students explore the following contexts for learning:

- Introduction to the Science laboratory and scientific skills
- Astronomy
- Fuels and Climate
- Food and Digestion
- Magnetism

ACADEMIC PATHWAY

Social Studies Contact: Ms M Williams

Introduction

The Social Studies programme aims to develop students' knowledge and understanding of different cultures, societies and environments. The course focuses on a range of skills that allows students to understand how decisions related to leadership, innovation, and heritage have consequences for individuals, the community, and the environment.

Course Outline

Four main units will be covered:

- Journey to the Amazon
- Te Ao o te Māori
- The Aztec World
- How much is too much

Current events are integrated throughout and students are encouraged to respond to community issues.

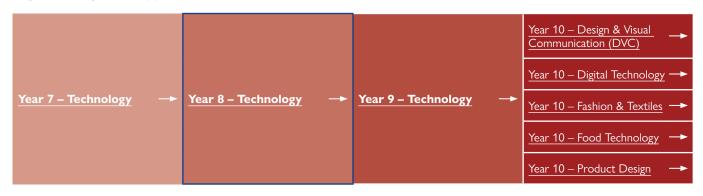

All learning areas in Year 8 are compulsory. However, Students will choose which **two** Language and **two** Creative Arts subjects to study as 'block courses'.

Technology Contact: Ms J Horgan

Technology in Year 8 is a full year course designed to foster creative and critical practice in a project-based environment. Students will have the opportunity to develop and challenge their thinking, design and practical skills in the two specialist technology areas of Digital Technology and Product Design.

The Digital Technology course focuses on exploring and utilising digital technologies and the use of computational thinking to express problems and formulate design solutions. In Product Design, students will experiment with materials manipulation

through the development of technological models to develop a final outcome within constraints. Each class will have the course delivered by one teacher who moves with the students to specialist rooms when and where required.

Curriculum Overview

The start of Year 9 sees the arrival of boys and girls from a number of different schools. They join together with students who have already enjoyed two years at the College in Years 7 and 8. At this time, we focus on the pastoral care of our students to ensure they settle together smoothly into routines and establish friendship groups.

n Year 9, all students study a compulsory programme of English, Mathematics, Science, Social Studies, Physical Education and Health, Christian Education, Technology, one Language and two Arts courses.

Within the compulsory programme, students select **one** full year Language course from Chinese, French, Japanese, Spanish or Te Reo Māori. Where possible, students will be grouped in differentiated classes as Beginner, or Continuing learners.

Students also select **two** Arts courses – each one semester long – from Dance, Drama, Music or Art.

All students take a year long course in Technology involving blocks of work covering four contexts. These short courses give our Year 9 students a 'taster' that may help them make decisions about future Technology option choices.

YEAR 9 LEARNING AREAS

In Year 9 Students choose **one** Language and **two** Creative Arts learning areas to study. All other learning areas are compulsory.

Christian Education

The Creative Arts

All students select **two** semester length Arts courses from the following options:

- Art
- Dance
- Drama
- Music

English

Languages

All students select **one** full year course from the following Language options:

- Chinese
- French
- Japanese
- Spanish
- Te Reo Māori

Mathematics

Physical Education & Health

Science

Social Studies

Technology

All students take **four** block courses. These may include:

- Design & Visual Communication
- Digital Technology
- Food Technology
- Product Design

Click on the Contents button to access links that allow you to jump between sections of this book.

Year 9 Learning Areas

In Year 9 Students choose **one** Language and **two** Creative Arts subjects to study. All other learning areas are compulsory.

Click on the Subject Name to go to the Subject description page.

As an intrinsic part of the special character of Saint Kentigern College, Christian Education is mandatory for all Year 9 students.

The Christian Education Department is constantly developing the Year 9 programme to ensure it is both interesting and relevant to our students at this stage in their development on their individual faith journeys, whatever they each perceive that to be.

In Year 9, the focus is on learning to read the Bible for greater meaning. Students will consider their own story, the story of Saint Kentigern College and the story of Christianity. This learning will be based on the Old Testament of the Bible and some key historical figures whose lives provide insight in both historical and contemporary contexts.

Students will also undertake a visit to a Christian Church (other than the Chapel of Saint Kentigern) and present their findings to the class.

Aims

To create a learning environment in which our students feel the freedom to question and debate some of the crucial questions about life, the Christian faith and humanity:

- To experience Christian Church in a context other than the Chapel of Saint Kentigern
- To provide students with the skills to read and interpret Biblical literature so that it makes sense
- To explore the Christian scriptures and teachings from a historical perspective to provide a foundation of understanding so they can become a source of encouragement, guidance and hope for our students
- To present the Old Testament Bible narrative to students in an exciting and relevant manner
- To enhance students' different learning styles and higher order thinking skills
- To challenge and encourage students to gain a better concept of the Christian understanding of God and the Bible and be able to make a conscious decision concerning the spiritual aspect of their lives

ACADEMIC PATHWAY

Year 7 - Christian Education

Year 8 - Christian Education

Year 9 - Christian Education

Year 10 - Christian Education

All students select two semester length courses from Dance, Drama, Music and Visual Art.

Art Contact: Mr R Stratton

The programme is designed to foster skills and encourage students with a practical focus. We acknowledge that many students will be new to the school in this year group and new to specialist art teaching. We encourage all students to be taking Art at this level regardless of their current skills or ability and this is the best place to open a path to senior Visual Art options.

Course Outline

In Year 9 Art students will continue to develop a range of techniques through 2D and 3D processes. They will learn to acknowledge the work of established artists and allow their own work to be informed by their techniques and ideas. Students will complete a range of experiments and developed art works and learn to work individually and collaboratively. Students will develop their ability to visually communicate their own personal, social and cultural experiences through Art.

Dance Contact: Mr G Wilcox

Course Outline

An in-depth exploration of the elements of Dance. Students have opportunities to present and respond to dance. They will explore how dance is used in different cultures and research dance genres through practical and theoretical activities.

- Elements of Dance (Group Choreography)
- Perform a choreographed dance
- Study and research dance in the past and present
- Learn about choreographic devices
- Theory: reflecting, responding to and analysing dance

Drama

Contact: Mr D Sheehan

Course Outline

This is a vibrant and popular course where students enjoy stepping out of their comfort zone while learning the importance of collaborative and creative problem-solving. The practical nature of the course empowers students to build self-confidence and develop communication, presentation and performative skills.

- Status Characters Discovering the power of using high and low status on stage. Students learn about some of the icons of European comedy and work in groups to developed scripted or devised performances where they play characters with high or low status
- Improvisation & Theatresports Thinking on your feet and exploration of this comedic Theatre Form.
 Students learn the basic foundations of improvising and then learn the skills and strategies of Theatresports
- Devising Groups creating original drama performances for a 21st century audience

Music Contact: Miss M Lin

The course provides a differentiated approach to practical and creative aspects in music. It will equip students the skills to create, rehearse, perform and evaluate their solo and small group projects in a diverse range of genres and styles.

Course Outline

Practical and written tasks will be completed in the following topics, allowing individual and group collaboration utilising the facilities and equipment in the Music Centre.

- Blues and lazz
- Aotearoa Hits
- EDM Beats
- Genre Studies
- Film Music Scoring

ACADEMIC PATHWAY

English Contact: Mr C Hodder

The Year 9 English programme focuses on the core learning strands of: Reading, Writing, Speaking, Listening, Presenting and Viewing.

Course Outline

The Year 9 English programme is a rich and challenging course designed to help students develop their comprehension and communication skills, while sparking engagement and interest in language and literature. Students are offered a taste of different literary voices and are exposed to a broad range of texts from a variety of genres, time frames and cultural perspectives.

Thematic units will focus on poetry and extended texts, speaking and listening are incorporated through regular class and group discussion, writing opportunities and a TED Talk presentation. There is a focus on developing personal engagement through regular journal writing. The programme may include opportunities to engage with Adobe Creative Cloud and all students will experience New Zealand texts across the academic year.

Languages Contact: See below

All students select **one** full year course from the following languages: Chinese, French, Japanese, Spanish or Te Reo Māori.

Chinese

Contact: Mrs T Yan

Year 9 Chinese is designed to cover NZ Curriculum Levels 1 to 4. Students will be able to understand and convey personal information.

Course Outline

There are two Chinese courses offered in Year 9, Year 9 Chinese and Year 9 Advance Chinese.

Year 9 Chinese: the skills of listening and speaking in Chinese will be the focus of this course. Recognition and writing of Chinese characters will be introduced along with aspects of Chinese culture.

Year 9 Advanced Chinese: subject to sufficient numbers, this course is offered to students who, although proficient speakers of Chinese, are unable to read or write Chinese script. Entry to this course will be at the discretion of the Teacher in Charge of Chinese.

French

Contact: HoD French

Year 9 French is designed to cover NZ Curriculum Levels 1 to 4. Students will be able to understand and convey personal information.

Course Outline

The focus of this course is on communication, in order to understand and be understood when using simple French vocabulary and language features. The topics studied are centered around 'self' and culture is introduced within the context of the language taught.

This French language course is for second language learners. It is not intended for students for whom this is the primary language used at home.

Assessment

There is regular formative testing throughout the year to check student progress. These tests will target vocabulary and grammatical understanding and recall. Towards the end of the semester, students will complete summative assessments in Listening, Reading, Writing and Speaking.

Japanese

Contact: Ms K Takeda

Year 9 Japanese is designed to cover NZ Curriculum Levels 1 to 4. Students will be able to understand and convey personal information.

Course Outline

The focus of this course is on communication in Japanese in order to understand and be understood when using simple vocabulary and language features. Students are also introduced to basic Hiragana reading and writing. Topics studied are centered around 'self'. Culture will be introduced in the context of the language taught. Towards the end of the semester, students will complete summative assessments in Listening, Reading, Writing and Speaking.

This Japanese language course is for second language learners. It is not intended for students for whom this is the primary language used at home.

Spanish

Contact: Ms M Martinez

Year 9 Spanish is designed to cover NZ Curriculum Levels 1 to 4. Students will be abe to understand and convey personal information.

Course Outline

The focus of this course is on communication in Spanish in order to understand and be understood when using simple vocabulary and language features. Topics studied are centered around 'self'.

This Spanish language course is for second language learners. It is not intended for students for whom this is the primary language used at home.

Languages (Continued)

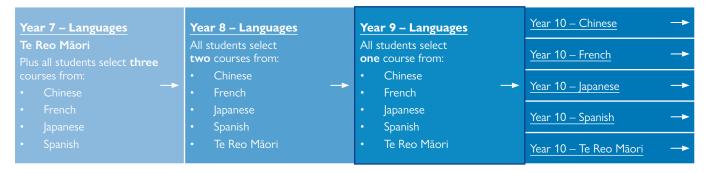

Te Reo Māori Contact: Mrs. J Martin

Year 9, Te Reo Māori is designed to cover Levels 2, 3 and 4 of the Curriculum guidelines for teaching and learning Te Reo Māori. An understanding of Te Reo Māori and tikanga Māori being intertwined, gives students access to Te Ao Māori (the Māori world) and to Māori world views. The insights and experiences that students gain as they learn the language will enrich and broaden their understandings of the uniqueness and complexity of Te Ao Māori. The four main units of work throughout the year are:

- Tikanga Māori (Māori protocols)
- Ko wai ahau (Who am I?)
- Ngā Kaupapa o te wā (Current Events)
- Hāto Kēnētitanga (The Saint Kentigern Way)

Course Outline

The focus for this course is for students to develop an awareness of the processes involved in learning Te Reo Māori. Students will learn to understand Te Reo Māori that contains well rehearsed sentence patterns and familiar vocabulary allowing interaction in predictable exchanges. Students will learn to read and write straightforward versions of what they have learned to say. Students will also be aware of and understand some of the typical cultural conventions that operate in interpersonal communication.

Mathematics Contact: Mrs K Halliday

Mathematics in Year 9 will cover the following New Zealand Curriculum strands:

- Number and Algebra
- Geometry and Measurement
- Statistics and Probability

Course Outline

The main focus in Mathematics in Year 9 is to develop students' skills in:

- Number
- Algebra
- Measurement
- Geometry
- Statistics
- Probability

Students will be required to problem solve, undertake practical activities and communicate mathematical ideas. Calculators will be permitted in all strands except for Number and Algebra.

ACADEMIC PATHWAY

^{*}Early Entry Mathematics courses available by invitation from the Head of Faculty.

Physical Education & Health

Contact: Mr R Hamon

Physical Education

Physical Education fosters and enhances attitudes and values that endorse health-enhancing practices to understand and appreciate their bodies and relate to others.

Course Outline

- Water Confidence Students develop a range of surf life saving skills to cope with different rescue scenarios in the water. Examples include side-stroke, safe entries, treading water and use of flotation devices
- Play with Purpose A student centred approach to physical education introducing strategies, tactics and communication in a range of games
- Te Ao Kori Students will participate in a range of Māori movement patterns, dances and games. Displaying a control of movement while appreciating Māori culture
- Social Responsibility Students will demonstrate
 and reflect on the social interactions that occur in
 competitive sports, gaining greater awareness of
 the impacts they have on others. Co-operation,
 communication, problem solving and team work skills
 are developed in this scheme of learning
- Invasion Games Students explore attacking and defending concepts through the context of Basketball

Health

Year 9 Health fosters attitudes and values that endorse health enhancing practices.

Course Outline

- Digital Citizenship Through a range of activities students develop an understanding of safe online behaviour and consequences for their actions on Social Media
- Body, Mind and Soul Using the concept of Hauora, students gain an understanding of how their body works, the impact and affect of long term exercise on their bodies and the benefit to their mental and emotional health
- Relationships This encompasses important issues to keep teenagers safe during their transformative years.
 Topics include puberty, sexual health and safety, bullying and dealing with grief and loss
- Being Present Increasing vocabulary of tools to manage mental health
- Decision Making Through a range of teen issues, students will develop the skills to make good, strong decisions based on their own moral code

ACADEMIC PATHWAY

Year 7 - Physical Education & Health Year 8 - Physical Education & Health Year 9 - Physical Education & Health

Science Contact: Ms C May

Year 9 Science aims to develop key scientific skills and an understanding of the Nature of Science. Students will develop a scientific way of thinking where creativity and curiosity are fostered. A wide body of scientific knowledge will be explored through a diverse range of methods and processes.

Course Outline

The topics covered at this level include:

- Material World including Matter and Elements
- Physical World including Light Waves and Energy
- · Living World including Ecology and Botany

The Year 9 course is structured to build capabilities and achievement in a pathway which is connected to the Senior Science curriculum. This course aims to build significantly on skills and content students have already encountered, in preparation for Senior Sciences.

ACADEMIC PATHWAY

Social Studies Contact: Mrs J Thomas

The Year 9 Social Studies course introduces students to the concept of global citizenship. It enables students to participate in a changing society as informed, confident and responsible citizens with an awareness of their own personal identity. Through a variety of topics, students will cover Culture and Collective Identity, Place and Environment, Economic Activity and Sovereignty, Organisation and Government. Students will also learn about the Social Studies processes of inquiry, values exploration and social decision-making. Current events are also explored throughout the year.

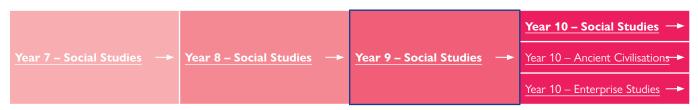

Course Outline

The year consists of four major topics:

- Contested Identities
- Days That Changed The World
- People on the Move
- Break the Chains

Skills acquired during the course include:

- Mapping
- Graphing
- Essay writing
- · Analysing perspectives
- Analysing primary and secondary sources
- Resource and political cartoon interpretation
- Conducting an inquiry
- Presenting findings

Technology Contact: Mrs S Gwilliam

Technology aims to foster design thinking, and encourages the synthesis of cross curricular subject knowledge for students to create outcomes that respond to authentic needs, or opportunities.

Course Outline

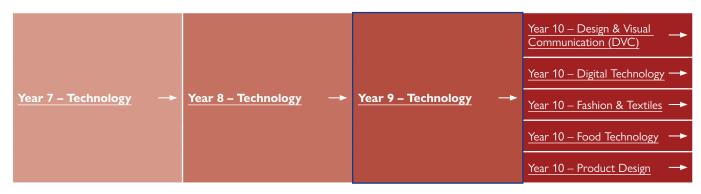

Year 9 Technology is a full year course where students will gain experience in four different technology courses including, Fashion and Textile Design, Design and Visual Communication, Animation and Motion Graphics, and Food Technology. Students will have the opportunity to develop and challenge their thinking, develop an understanding of the design process, and gain valuable practical technology skills within project-based learning environments.

The knowledge and skills covered in each area may include:

Animation and Motion Graphics – Augmented
 Reality, introduction to Adobe software, digital drawing

- Design and Visual Communication Detailed sketching techniques, rendering of ideas to enhance visual presentation skills, visually communicating design ideas, understanding the design process within the context of product or architectural design
- Fashion and Textiles Design Testing and trialing basic sewing techniques (such as measuring, marking out, seams, zips, pockets, and embroidery) and basic sewing machine use
- Food Technology Food hygiene and safety practices, production of food outcomes and recipe development

Please note: Some students may be required to change Technology classes at the end of Semester Two to accommodate Arts option choices.

Curriculum Overview

In Year 10, the skills and understandings from Year 9 continue to develop with the range of optional learning areas increased to provide an array of new opportunities, and prepare students for their Senior School courses.

ear 10 students continue to follow a compulsory curriculum while also selecting **three** other learning areas from a list of year-long courses. In making their choices, students could start thinking ahead to their Senior School years and possible career pathways.

YEAR 10 LEARNING AREAS

All students will study the following compulsory learning areas:

Christian Education

English

Mathematics

Physical Education & Health

Science

Social Studies

In addition, students select **three** other learning areas from the following range of year long courses:

- Ancient Civilisations
- Art
- Chinese
- Dance
- Digital Technology
- Drama
- Enterprise Studies
- Fashion and Textiles
- Food Technology
- French
- Japanese
- Music
- Media Studies
- Product Design
- Spanish
- Design & Visual Communication
- Te Reo Māori

Click on the Contents button to access links that allow you to jump between sections of this book.

Compulsory Learning Areas

Christian Education (Compulsory)

Contact: Dr J Sievers

As an intrinsic part of the special character of Saint Kentigern College, Christian Education is mandatory for all Year 10 students.

The Year 10 Christian Education course explores the life and teachings of Jesus, based around the Gospel of Mark. It focuses on reading and interpreting the four Gospels providing students with a thorough knowledge of Jesus' birth, life, death and resurrection (including the political, religious, historical and geographical background), as well as some of his teachings and his commands to his followers when he left them.

Aims

- To create a learning environment in which students feel the freedom to question and debate some of the crucial questions about life and humanity
- To explore the Christian scriptures and teachings from an historical perspective, to provide a foundation of understanding that can become a source of encouragement, guidance and hope for the students
- To explore and demonstrate ways in which the Gospels can be read and interpreted in order to gain better understanding of them, particularly the nature of the concept of 'Grace'
- To ensure students understand the link between the Old and the New Testaments
- To challenge and encourage students to gain a better concept of the Christian understanding of God and thus be able to make a conscious decision concerning the spiritual aspect of their lives

ACADEMIC PATHWAY

Year 7 - Christian Education
Year 8 - Christian Education
Year 9 - Christian Education
Year 10 - Christian Education

In year 10 students continue to follow a compulsory curriculum and also choose **three** courses from a list of additional learning areas.

English (Compulsory)

Contact: Ms N Henderson

The Year 10 English programme builds on learning from Year 9 and lays a foundation for future learning in Year 11. The Year 10 programme will cover the following aspects: Reading, Writing, Listening, Presenting, Speaking, Viewing. The course is underpinned by the two key strands of the English Curriculum: Making Meaning and Creating Meaning.

Course Outline

The Year 10 English programme is a relevant and comprehensive course designed to help students further develop their comprehension and communication skills as part of a two-year programme. Students are exposed to a broad range of texts from a variety of genres, time frames and cultural perspectives. Thematic units will focus on **genre**, **social issues** and an **auteur study**, and there is the flexibility in the course for teachers to target students' specific interests and learning needs with a wider choice of texts and text-types. Developing students' information literacy, reading breadth, and

writing skills are central to this course. Students will develop a sophisticated writing portfolio through regular journal writing and publication opportunities. Critical thinking and technology such as the Adobe Creative Suite will support student skill development. Instruction in grammar, punctuation, spelling and vocabulary is integrated into teaching units according to student need.

The programme will include opportunities to engage with oral presentation, create video essays and literature essays. All students will focus on New Zealand texts within the academic year and produce a piece of writing for publication each term.

ACADEMIC PATHWAY

Mathematics (Compulsory)

Contact: Mrs K Halliday

Mathematics in Year 10 will cover the following New Zealand Curriculum strands:

- Number and Algebra
- · Geometry and Measurement
- Statistics and Probability

Course Outline

The main focus in Mathematics in Year 10 is to develop student skills in:

- Graphs
- Geometry
- Number
- Statistics
- Algebra
- Probability

Students will be required to problem solve, undertake practical activities and communicate mathematical ideas. Students will be encouraged to develop their powers of reasoning to investigate and interpret mathematical problems. Acquisition of basic skills in Middle School will prepare students for Mathematics in the Senior School.

Students in Year 10 will work to gain the NCEA Numeracy co-requisite US32406 (Use mathematics and statistics to meet the numeracy demands of a range of situations). There will be more than one opportunity to gain this standard during the year.

ACADEMIC PATHWAY

*Early Entry Mathematics courses available by invitation from the Head of Faculty.

Physical Education

Physical Education at Year 10 fosters attitudes and values that endorse health-enhancing practices and enables students to gain knowledge about the significant role that physical activity plays in their social, emotional and physical development.

Course Outline

- Strike & Field The primary focus is developing fundamental movement skills in striking & fielding contexts
- Working as a Team Through touch rugby and netball, students will develop their understanding of interpersonal skills and how they influence teams to function effectively
- Traditional Invasion Games The learning focus of this unit is for students to be able to play invasion games, applying attack and defensive strategies and be able to transfer skills and knowledge from context to context in Netball and Touch
- **Sports Science** Exploring concepts used to analyse and improve sporting performance
- Field Centre Preparation Using outdoor education as a context to develop an appreciation of place, manage risk, and working outside comfort zones

Health

Health at Year 10 fosters attitudes and values that endorse health enhancing practices.

Course Outline

- Digital Citizenship An in-depth understanding of how online actions could potentially have damaging consequences for a young persons' emotional and physical health
- Feed the beast An in-depth investigation into fad diets and their effect on physical and psychological well-being
- Sexuality Open discussions around different types of relationships maintaining both physical and emotional safety throughout. A range of sexualities are discussed (Please note that parents may withdraw their child from this important scheme of learning by informing Miss Brittany Graham, Head of Department). The concept of promoting positive body image is also explored
- Drug Education An investigation into the different classes of drugs and how they affect a teenagers mind, body and emotional well-being
- Communities Count Selecting a community issue that affectsthem, students develop research stalls to investigate and plan ideas for improvement

Science (Compulsory)

Contact: Mrs R English

Year 10 Science aims to continue the development of key scientific skills and an understanding of the Nature of Science. Students will refine their scientific way of thinking, where creativity and curiosity are fostered. A wide body of scientific knowledge will be explored through a diverse range of methods and processes.

Course Outline

The topics covered at this level include:

 Material World including Atomic Science, Reactivity of elements and Metals in our World

- Physical World including Forces and Motion, Electricity
- Living World including Genetics and Human Systems
- Planet Earth and Beyond World including Carbon cycle and the effects of global warming on New Zealand and beyond. Students will work towards an internal assessment worth 5 credits in relation to this topic

The topics in Year 10 Science are structured as part of a two-year Science course through Year 10 and Year 11 in which significant skills and content are covered in preparation for Senior Sciences.

ACADEMIC PATHWAY

Year 7 - Science → Year 8 - Science → Year 9 - Science → Year 10 - Science →

Social Studies (Compulsory)

Contact: Mrs J Thomas

The Year 10 Social Studies programme follows on from the Year 9 programme, enabling students to participate in a changing society as informed, confident and responsible citizens. In Year 10 there is a greater focus on equipping students with the knowledge and skills needed for History, Geography and Classical Studies in the Senior School. Current events are also explored throughout the year.

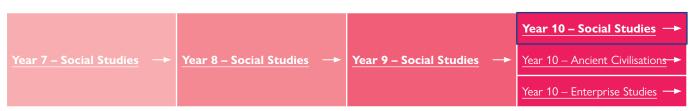

Course Outline

The year consists of three major topics:

- Protectors, not Protestors
- Dual faces of Power
- World At Risk

Skills acquired during the course include:

- Mapping
- Graphing
- Essay writing
- Analysing perspectives
- · Analysing primary and secondary sources
- Resource and political cartoon interpretation
- Conducting an inquiry
- Presenting findings

In year 10 students continue to follow a compulsory curriculum and also choose **three** courses from a list of additional learning areas.

Additional Learning Areas

In addition to their compulsory subjects, Year 10 students select **three** optional choices from the following range of year long courses: Ancient Civilisations, Chinese, Dance, Design and Visual Communication, Digital Technology, Drama, Enterprise Studies, Food Technology, Fashion and Textiles, French, Japanese, Media Studies, Music, Product Design, Spanish, Te Reo Māori and Visual Art.

Ancient Civilisations

Contact: Dr A Rene

The Year 10 Ancient Civilisations course is designed to offer students the opportunity to delve into a wide array of ancient societies. The aim of the course is to offer students a taste not only of a variety of ancient worlds, but also a variety of themes and events. Students who take Ancient Civilisations are encouraged to develop their research, report writing, debating and analytical thinking skills. Beyond this, students are encouraged to consider how the ancient world echoes into the present. We consider how myths and legends encourage us to look for answers and find hope, how warfare has been made and ended over centuries, and entertainment's ability to reflect our own world values.

Course Outline

The intention of this course is to give students a broader understanding of themes across the ancient world, including:

- Ancient Myth, Legend, and Philosophies
- Ancient Entertainment
- Ancient Warfare
- · Ancient Death and Afterlife

This broader study encourages students to engage in critical and analytical thinking, particularly by comparing and contrasting cultures across both space and time. Assessments are designed to sharpen these skills, and to allow students to self-direct their studies to ancient worlds which interest them most.

This course is entirely internally assessed and there is no end of year examination.

In year 10 students continue to follow a compulsory curriculum and also choose **three** courses from a list of additional learning areas.

Art Contact: Mr R Stratton

At Year 10 students can select Art as a full year course. The programme builds on the skills introduced in previous years and explores a range of approaches to best prepare students for an informed choice for their specialisation in Year 11 Art.

Course Outline

In the Year 10 Visual Art course students will continue to develop a range of art making approaches across drawing, painting, printmaking, photography, design and sculpture. They will continue to acknowledge the work of established artists and allow their own work to be informed by their techniques and concepts. Students will complete a range of experiments and developed art works and learn to work individually and collaboratively. Students will develop their ability to visually communicate their own personal, social and cultural experiences through Art.

ACADEMIC PATHWAY

Chinese Contact: Mrs T Yan

Year 10 Chinese

Students must have completed at least one year of study of Chinese to gain entry into the Year 10 Chinese course.

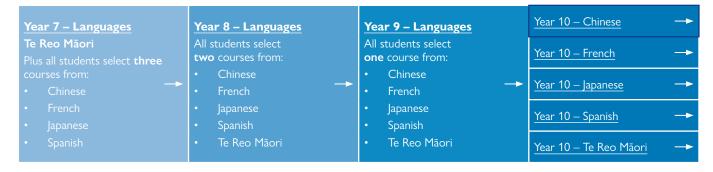

Course Outline

This course encompasses Levels 3 and 4 of the New Zealand Curriculum. It is anticipated that students who select to study Chinese in Year 10 have the intention of continuing into Year 11 and completing the NZQA Level 1 Qualification.

Year 10 Advanced Chinese

Course Outline

This course is offered to students who, although proficient speakers of Chinese, are focusing on Reading and Writing Chinese script. Entry to this course will be at the discretion of the Teacher in Charge of Chinese.

In year 10 students continue to follow a compulsory curriculum and also choose **three** courses from a list of additional learning areas.

Dance Contact: Mr G Wilcox

Course Outline

Students will be introduced to practical knowledge about Dance and will develop ideas in dance. They will present dance for a purpose (to communicate), interpret and explore how dance is used for different purposes in different cultures.

Concept and Topics include:

- Recap Elements
- Genre techniques and performance
- Choreographic devices
- Perform in a choreographed dance work
- Genre study
- Analysing the dance performance.
- Cultural Dance

Design & Visual Communication (DVC)

Contact: Mrs S Gwilliam

Design and Visual Communication (DVC) is an area of learning within the New Zealand Curriculum, where students learn about design, develop their practice of designing, and develop their design thinking in the contexts of architecture and product design. Student design ideas are explored and expressed using visual communication techniques and are informed by design heritage.

Course Outline

Year 10 DVC has been developed to foster creative and critical practice in a project-based environment. Students will have the opportunity to develop their thinking, design and practical skills through projects that explore both architectural and product contexts. A wide range of practical and digital design skills will be covered within these projects, including sketching and rendering, digital CAD modelling, physical model making and

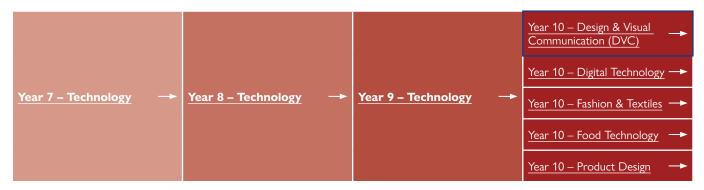

learning how to critically reflect on their ideas. Students learn how to generate and develop their own ideas and communicate these ideas visually. More importantly they learn ways to manage creative projects and develop their own design approaches from personal perspectives. They should also have the independence in conceptual facility to commence study in Senior College.

Projects may include:

- Letterbox Design
- Pet Architecture Design
- Small House Design

Additional Course Costs & Special Requirements

A graphics equipment pack will be supplied to your student and charged to your college account. (Approx \$40)

In year 10 students continue to follow a compulsory curriculum and also choose **three** courses from a list of additional learning areas.

Course Outline

The Year 10 Digital Technology course is an engaging program that serves as an essential introduction to the world of programming, web design, and animation. With a strong emphasis on fostering creativity and skill development, students are provided with a project-based learning environment that encourages active participation.

Throughout the course, students will have the opportunity to build their own websites and programs from scratch, enabling them to acquire a solid foundation in coding principles. In addition, they will explore augmented reality assets, allowing them to create immersive and interactive experiences. The course also delves into the realm of 3D modeling using Blender,

providing students with the necessary tools to bring their ideas to life in a three-dimensional space. The students will explore motion graphics through specialised animation software, enabling them to develop captivating visual effects.

Beyond technical skills, this course fosters essential lifelong skills such as problem-solving, critical thinking, and adaptability. Students will be challenged to overcome obstacles and think creatively to solve real-world problems. Students will gain confidence in using a range of engaging digital technologies and be equipped to face future challenges in the rapidly evolving digital landscape. You are encouraged to consider selecting this course as a prerequisite for any future digital-related classes.

In year 10 students continue to follow a compulsory curriculum and also choose **three** courses from a list of additional learning areas.

DramaContact: Mr D Sheehan

Course Outline

Drama at Saint Kentigern College is thriving, and it is a massive part of a student's journey here, where they develop self-confidence and the ability to work with commitment as part of a team.

Through working with purpose in groups, students will develop their knowledge and skills in drama to enable them to develop, refine and present engaging performances. They will study dramatic forms both past and present.

Elizabethan Theatre – Students will gain knowledge about the Elizabethans and perform within a group a scene from Shakespeare's works. Which they may also choose to perform in SKC's Shake the Quad.

Process Drama – Using thought provoking stimuli, students will gain skills in developing and refining concepts that will widen

their world view. Students deal with relevant contemporary issues and explore these with a range of drama conventions.

Clowning – This challenging theatre form encourages students to step outside of their comfort zone and create work for a contemporary audience using numerous clowning styles and performance conventions. Students learn how contemporary performers like Rohan Atkinson and The Umbilical Brothers have taken comic physical performance to new heights. Students develop their own clowning group performance and present it to an audience of younger students.

Assessment

Drama is primarily a practical course. Therefore, students are assessed on their performances with written work underpinning their depth of understanding. The course is 90% practical.

Course Outline

Students will spend time throughout this year-long course examining the different aspects of Commerce and will gain a comprehensive understanding of the business world. There are topics covered throughout the course that introduce the subjects of Accounting, Business, Economics and Enterprise.

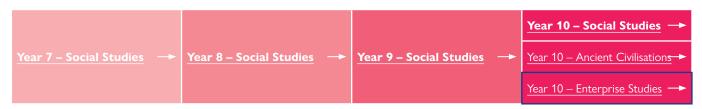

Accounting – Students will learn the skills involved in preparing basic financial statements for different entities. The ability to analyse, communicate, and interpret this information will also be covered as students will be required to present a project-based learning task.

Business – Students are introduced to problem-solving, ideation of innovative ideas, and developing collaborative skills as they tackle diverse content such as branding, colour association, production processes, and consumer law.

Economics – This topic will include an in-depth examination of consumer and producer behaviour within our economy. Students will also participate in the buying and selling of shares on the New Zealand Stock Exchange to develop an understanding of the risks and rewards of investment.

Enterprise – Both theoretical and practical aspects of the course are brought together, culminating in the annual Market Day. Students will work in groups to plan, produce, and sell products within the College, donating some of their profits to The Shed initiative.

ACADEMIC PATHWAY

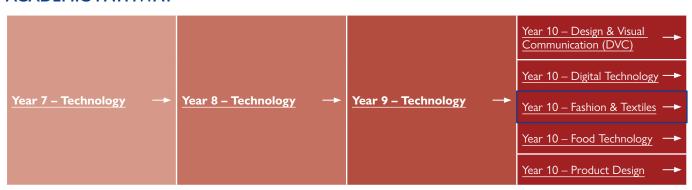

Fashion & Textiles

Contact: Mr G Horsnell

Course Outline

Year 10 Fashion and Textiles Design has been developed to foster creative and critical practice in a project-based environment. Students will grow their design and practical skills over a series of projects, learning how to use evidence from trialling, research, and stakeholder feedback to develop successful outcomes. Projects could include such contexts as: fashion illustration, basic

and intermediate machine operation and techniques, textile printing and applied design techniques. Projects are developed in response to authentic needs and opportunities in the domain of Fashion and Textile Design. Students are encouraged to make links with local community and develop outcomes that consider sustainability.

In year 10 students continue to follow a compulsory curriculum and also choose **three** courses from a list of additional learning areas.

Course Outline

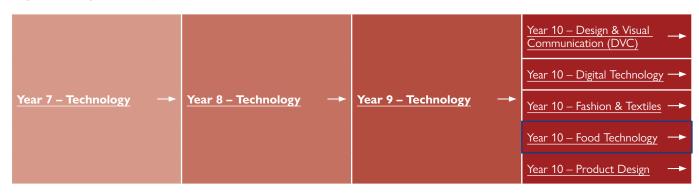

Year 10 Food Technology has been designed to foster creative and critical practice in a practically driven project-based environment. Students can develop their thinking, design and making skills over a series of projects which develop culinary techniques and processes. They will learn to how to design against and meet specifications and use these to justify a product's fitness for purpose.

Contexts and carriers of learning could include – Learning about basic food chemistry and the function of ingredients with a pastry skills unit; Designing and selling culturally diverse street

food products at a pop-up market; Developing a product, and planning and managing an event, around Matariki; Applying nutritional learning to collaboratively manufacture a lunch box for a target market.

Students will gain confidence to take risks and explore possibilities in the designing of unique and well-crafted food outcomes, and should leave with the confidence to further delve into the many avenues of Food Technology with the foundational thinking and technical skills to commence study in Senior School.

ACADEMIC PATHWAY

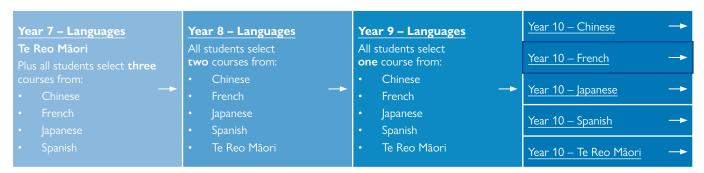

French Contact: HoD French

At Year 10 students must have completed at least one year's full-time study in French to qualify for acceptance into the course. This course encompass Levels 3, 4 and 5 from the New Zealand Curriculum.

Students wishing to study French in Year 11, must study for a full year at Year 10.

Course Outline

This course continues the development of student understanding of French vocabulary and simple language features in a communicative environment. Topics include the family, friends and aspects of their immediate environment, technology, relationships, my town, in present, past and future tense.

In year 10 students continue to follow a compulsory curriculum and also choose **three** courses from a list of additional learning areas.

Japanese Contact: Ms K Takeda

This course encompasses Levels 3 and 4 from the New Zealand Curriculum. It is anticipated that students who elect to study Japanese in Year 10 have the intention of continuing into Year 11 and completing the NZQA Level 1 qualification.

Course Outline

This course continues the development of student understanding of Japanese vocabulary and simple language features in a communicative environment. Topics include the family, friends and elements of their immediate environment. Students are introduced to the Katakana alphabet and common-use Kanji characters.

ACADEMIC PATHWAY

Media Studies Contact: Mr L Oliver

In today's media saturated world, it is important to help young people understand the messages they receive. Media Studies helps students develop the basic skills to understand how visual media is constructed, and challenges them to create their own media products.

Course Outline

 Practical Portfolio – Lights, camera, action! Learn the basics of film language and also the practical aspects of filmmaking by creating a practical portfolio and a short film project

- Close Reading Analyse film techniques used in the Superhero film genre
- Media Usage Whether it be Tik Tok or Steam.
 Research you own media usage and learn how it relates to current media trends
- Director Study Focusing on Taika Waititi, create a video essay looking at his films

Year 10 Media Studies teaches you a range of practical and theoretical knowledge and skills, which will not only help your academic studies, but also how to navigate our media saturated world.

In year 10 students continue to follow a compulsory curriculum and also choose **three** courses from a list of additional learning areas.

NOTE:

Bold indicates a compulsory learning area.

Students will continue to be engaged musically, as a performer, composer/songwriter and researcher. Further opportunities will be given to students to learn about music technology and production including the use of recording and editing software for their own performance instrument and/or voice. Individual and collaborative tasks will familiarise students with a range of music genres and styles that are interdisciplinary resulting in the attainment of creative and critical skills that are applicable in a wide range of future pathways.

Students taking Year 10 Music should have basic instrumental or vocal skills to rehearse and perform in a group, and be involved in a College co-curricular music group – rock bands, jazz combos or choirs.

Course Outline

- Solo and Group Composition development of songwriting skills
- Music for Listening introduction to musical elements and critical listening skills
- New Zealand music research and performance
 exploration and appreciation of Homegrown music
- Music Technology music creation and manipulation using a DAW

Advanced Music Contact: Ms M Li

Suitable for students with a higher level of instrumental and theory knowledge (Grade 3 or above). Students will polish and refine their practical and creative skills as a performer, composer and researcher. The course will engage students with a targeted approach, be it individual or in trios and quartets, in a range of musical genres and styles. Similar topics will be covered as Year 10 Music, but the teaching, learning and assessment will benefit those wishing to fast-track their learning in NCEA, or IB.

Students taking Year 10 Music Advanced need to be competent on an instrument (voice is an instrument!) and be involved in a College music group.

Course Outline

- Music for Social, Cultural, Political and Religious
 Purpose from Handel's 'Hallelujah Chorus' to Leonard
 Cohen's 'Hallelujah' song
- Music for Listening from Beethoven's 'Fur Elise' to Jazz to Brian Eno's 'Ambient music'
- Music for Dramatic Arts everything from Ballet to EDM, Opera to Musical Theatre, Film to Anime
- Music Technology & Production

Product Design Contact: Mr G Horsnell

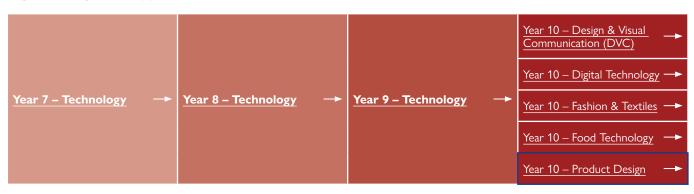

Students are given the opportunity to explore different aspects of Product Design through one major project aimed at fostering the design of an innovative product and thorough design observation.

Course Outline

Year 10 Product Design has been developed to foster creative and critical practice in a project based environment. Students have the opportunity to develop their thinking, design and practical skills throughout one major project. The current project involves the critical investigation of a classic chair design. Once students can critically isolate areas of interest and inspiration, they must explore and develop ideas through sketching and 3D mock-ups

and construct a multi-materials outcome. The final outcome should connect to the classic chair design. Most importantly, students should leave with the ability to find and translate inspiration into their own design practice and the confidence and technical skill to make full use of the Product Design specialist facilities. They should also have the independence and conceptual skills to commence study in Senior School.

ACADEMIC PATHWAY

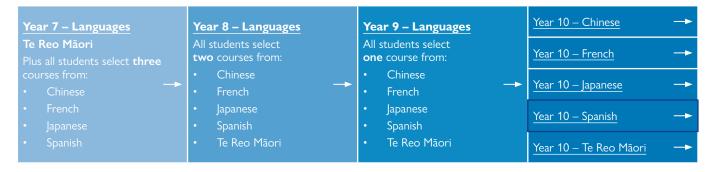

Spanish Contact: Ms M Martinez

Students must have completed at least one year's study to gain entry into Year 10 Spanish. This course encompasses Levels 3 and 4 from the New Zealand Curriculum. It is anticipated that students who elect to study Spanish in Year 10 have the intention of continuing into Year 11 and completing the NZQA Level 1 qualification.

Course Outline

This course continues the development of student understanding of Spanish vocabulary and simple language features in a communicative environment. Topics include the family, friends and aspects of their immediate environment.

In year 10 students continue to follow a compulsory curriculum and also choose **three** courses from a list of additional learning areas.

Te Reo Māori Contact: Mrs J Martin

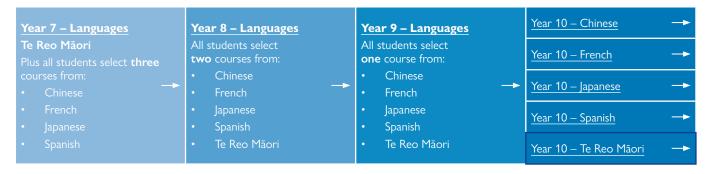

At Year 10, Levels 3, 4 and 5 from the Curriculum guidelines for teaching and learning Te Reo Māori are covered. This course is focused on the students' perspective and engagement with the world around them. Tōku Ao (My world). Understanding the world through the study of four topics over the year.

Topics include:

- Tōku Kainga, tōku whānau (my home, my family)
- Tōku Kura, tōku hāpori (my school, my community)
- Tōku Taone, tōku turangawaewae (my town, my roots)
- Ōku wawata, ōku moemoeā (my hopes, my dreams)

Course Outline

The focus for this course is for students to cope with a variety of routine situations when talking to speakers of Te Reo Māori. Students will use familiar language with some flexibility and pick up some new language from its context. Students will use and respond to language, including directions and requests that are likely to occur in familiar Māori settings, and in doing so will develop confidence using a range of language learning strategies.

NCEA Level 1 Curriculum

The national qualification for students in Year 11 is Level 1 of the National Certificate of Educational Achievement (NCEA).

n Year 11, all Saint Kentigern students take **six** learning areas, comprised of the **three** compulsory subjects (English, Mathematics, General Science) and **three** selected subjects.

In addition to these six subjects, students have courses in Christian Education, Core Physical Education and Health.

When selecting courses for Year 11, students should look ahead to Year 12 and 13 and their academic pathway, while also taking into account their long term career aspirations. Level 1 subjects have a combination of internally and externally assessed Achievement Standards. These are outlined in the assessment table for each subject.

Each Achievement, or Unit Standard has a credit value. The number of credits for a full year course ranges from 16-24 credits, depending on the course.

Level 1 courses have been designed with both the IB (where possible) and NCEA Level 2 pathways in mind.

To be awarded NCEA Level 1, students must achieve 60 credits. At Level 1, students must also complete 10 credits in Literacy standards and 10 credits in Numeracy standards. Some students may have already earned their Literacy (10 credits) and Numeracy (10 credits) co-requisites through their participation in the transitional assessments offered in Year 10. For those who did not, there are other opportunities throughout Year 11 to earn these required credits. Later in the Year 11 programmes, student will be asked to select their qualification pathway for Years 12 and 13, either NCEA or IB.

Please note a minimum number of 15 students is required to create a stand alone class. Composite level classes may be offered, but these remain subject to resourcing.

NOTE:

Bold indicates a compulsory learning area.

QUALIFICATION: NCEA LEVEL 1

Entry Guidelines

It is beneficial to have taken Year 10 Digital Technologies, Year 10 Design and Visual Communication or Year 10 Art.

Course Outline

Level 1 Animation and Motion Graphics is designed to introduce students to the tools and techniques related to the principles of animation. Through a project-based environment, students will develop basic animations in both 2D and 3D, using traditional and computer-generated techniques and software. It is suited to students who have a degree of creativity and enjoy using digital tools. They will learn project management skills to manage long-term projects as they design and develop digital outcomes.

Specialist areas that would be beneficial to study and support Animation and Motion Graphics at Level 1 would be Visual Art, Digital Technology, Design and Visual Communication, Product Design and Media Studies.

Additional Course Costs & Special Requirements

- Individual student project requirement will determine if there are additional material costs
- A laptop computer able to run Adobe Suite and Maya animation software – 16GB RAM is recommended
- Wacom tablet is recommended, especially if not using a digitizer enabled laptop

UE Approved & Future Pathways

This subject leads towards a Level 3 UE course and multiple tertiary pathways including Digital Design, Game Design and Development, Communication Design, and Industrial Design.

ASSESSMENT

AS92005	Develop a digital technologies outcome	Internal	5
AS92007	Design a digital technologies outcome	External	5
AS92000	Generate product or spatial design ideas using visual communication techniques in response to design influences	Internal	5

Total Possible Credits 15

The nature of project based learning is fluid and designed to suit individual learners. To this end course content and standards offered are subject to change if deemed to be beneficial. Students will have an Individual Education Programme (IEP) to ensure there are no common standards in Technology.

ACADEMIC PATHWAY

QUALIFICATION: NCEA LEVEL 1

Entry Guidelines

Year 11 Art Painting and Printmaking is open to all Level 1 students. Please see the HoD if you have any questions regarding your suitability for this course.

Course Outline

Level 1 Art — Painting and Printmaking is a practical course that explores a range of disciplines with a focus on painting and printmaking. The aim of this course is to improve confidence and skills in a range of art making approaches and students will develop their ability to visually communicate their own personal, social and cultural experiences through Art. Students will work on two main internal standards through the course and much of this work is then also selected for the development of their external folio boards. This external assessment is produced as a one panel A2 folio board body of work throughout the course and submitted in early Term 4 for assessment.

Additional Course Costs & Special Requirements

A small set of art materials from Gordon Harris will be supplied to the student at the beginning of the course at a discounted cost. This is an essential requirement of the course to complete work outside of class time.

Future Pathways

At Level 2 Visual Art splits into five specialist areas of Design, Photography, Painting, Printmaking and Sculpture. Students can consult with their teacher about the best specialist option and are encouraged to take more than one if passionate about Visual Art and achieved at least a Merit in Level 1. Either of the Level 1 Art courses are strongly encouraged for entry into IB Art.

UE Approved

This subject leads towards a Level 3 UE course and to senior specialisms listed below.

ASSESSMENT

Chinese Contact: Ms T Yan

QUALIFICATION: NCEA LEVEL 1

Entry Guidelines

The Chinese Course is a continuation of Chinese in Years 9 and 10.

Students need to have a minimum of 2 years of full-time study in the target language before entering the Level 1 Chinese course.

Introduction

Chinese is the most widely spoken language in the world. Because of the large, prosperous economy and the developing trading relationship with New Zealand, it is currently a relevant and very popular foreign language to learn. Its culture has a history of more than 5000 years. This course reinforces and builds on the student's ability to engage in everyday life in their community in conversation, encompassing elements around the student's local environment, their daily activities and experiences, and also in transactional situations such as shopping, giving directions, supplying and receiving information.

Course Outline

As a continuation of the course in Years 9 and 10, the Year 11 course extends the understanding of vocabulary, grammar and script.

There is a focus on listening, reading, typing and speaking Chinese throughout the course. Cultural knowledge is integrated into the language course.

UE Approved

This subject leads towards a Level 3 UE course.

ASSESSMEN	NT			
AS91954	Demonstrate understanding of written Chinese (Mandarin) related to everyday contexts	External	5

	PĀNGARAU MATHEMATICS	
TE REO PĀKEHĀ ENGLISH		

NOTE:

Bold indicates a compulsory learning area.

Introduction

Christian values are an intrinsic part of the special character of Saint Kentigern College and all Year 11 students take Christian Education.

The Christian Education Department is constantly evolving its programmes to ensure that they are interesting, relevant and challenging for our students in their development as young men and women on their faith journeys — whatever they perceive that to be. In the Senior School, a wide range of relevant and contemporary resources are used in what is generally an informal, discussion-based, non-assessed theological and philosophical exploration of issues of Christian life and faith.

Course Outline

Students' earlier studies in Years 7 to 10 will have provided them a foundational understanding of the Christian faith. The aim of the Year 11 course is to use this understanding to develop students' moral and religious character by confronting them with both the teachings of Jesus and the realities of our modern world. Contemporary topics such as sense of self and identity, relationships and connectedness, loss of relationship, the meaning of life, and the concept of Grace are explored utilising a variety of media to contrast our world with the teachings of Jesus contained in the Gospels.

Assessment

There is no formal assessment for this course.

Classical Studies Contact: Dr A Rene

OUALIFICATION: NCEA LEVEL 1

Entry Guidelines

There is no prerequisite for Classical Studies at Level 1.

Introduction

Classical Studies encompasses a myriad of ancient civilisations of Ancient Worlds, including: Egypt, Greece, Rome, Aztec, Norse and Māori. Classical Studies emphasises the historical importance of the civilisations, and the way in which the cultural traditions of those societies reflect upon us today. This multidisciplinary subject includes the study of: psychology, history, ancient literature, ancient philosophy, mythology, ancient art and architecture, archaeology, and social customs.

The diverse nature of Classical Studies offers an interdisciplinary approach which is inclusive of all learning styles and methods. It offers a greater understanding, not only of the ancient world but of the systems and institutions that govern us in the present times, the significant figures that we follow, the wars we fight and psychology behind them.

This course offers a mixture of Level 1 and Level 2 credits.

Course Outline

- War and Conflict Across Ancient Worlds A study
 of the psychology behind wars in different ancient
 worlds including Greece, Egypt, Rome and more
- Voices of the Past A study of different significant figures across ancient worlds, from leaders of war to government to female figures and leaders of change
- Pompeiian Art and Architecture Students will
 examine the eruption of Mt Vesuvius in ancient Rome
 and what the remains of the buried city can tell us about
 those who lived there

UE Approved

This course can offer Level endorsement, however Course endorsement in not possible.

Note: As two of the Achievement Standards for this course are History standards, students cannot study both Classical Studies and History at Level 1.

Standards marked (L) go towards meeting the Level 1 Literacy requirements.

ASSESSMENT

AS92024 Engage with a variety of primary sources in an historical context Internal 5
AS92025 (L) Demonstrate understanding of the significance of a historical context Internal 5
AS91201 Examine the significance of features of work(s) of art in the classical world External 4

Commerce* Contact: Mr B Pee

OUALIFICATION: NCEA LEVEL 1

Entry Guidelines

There are no entry requirements for Level 1 Commerce courses, although it is an advantage that students have completed the Enterprise Studies course in Year 10.

Students are only able to choose one of the three options: Commerce with Accounting, Commerce with Business, or Commerce with Economics to better prepare for the demands of NCEA Level 2.

Introduction

Commerce is the use and exploration of accounting, economic, and business concepts and models to make sense of society and solve problems. In this subject, students will build the knowledge, skills, and values they need to navigate, and participate in, the economic world. They will learn how participants in the economic world make decisions, and they will analyse how these decisions impact on sustainability.

Students will learn that decision-making is necessitated by scarcity and that decisions are informed by a variety of cultural perspectives and lenses. Learning and assessment will examine different approaches to commerce, and models from an organisational context.

Course Outline

All Commerce courses are comprised of three internal assessments completed during the year, and one SKC examination in Accounting, Business, or Economics, of which students sit at the end of year.

Depending on the option chosen will determine the specific course content studied. For example, students selecting Commerce with Accounting will be taught accounting models and assessed on the use of this knowledge.

All Commerce students complete the following internal standards:

- Demonstrate understanding of an organisation's financial decision
- Demonstrate understanding of price determination for an organisation
- Perform income-related calculations for personal finances

The end of year examination completed will depend upon the individual course selected.

In choosing courses, you will only be able to select ONE Commerce option.

Course Options:

- · Commerce with Accounting
- Commerce with Business
- Commerce with Economics

UE Approved

This subject leads to the UE approved courses at NCEA Level 3 in Accounting, Business, or Economics.

A subject endorsement is not possible in Level 1 Commerce.

ASSESSMENT

OUALIFICATION: NCEA LEVEL 1

Entry Guidelines

A Year 10 course in Technology or Design and Visual Communication is useful, however, Year 10 in this specialist area is preferable.

Course Outline

Level 1 Computer Science is designed to foster creative and critical practice in a project based environment.

The primary focus of this course is on how to design authentic and contemporary products within the context of this ever changing specialist field. It is a broad introduction to ensure students have the opportunity to develop their thinking, design and practical skills in this area. Projects may develop skills such as: ideation and development for digital products; industry standard pipeline and workflows; mark-up language and UX design; creating digital media content such as animation, moving image and digital illustration, 3D modelling and conceptual design for digital products. Specialist areas that would be beneficial to study in support to Digital Technology at Level 1 would be Visual Art – Design and Photography.

Additional Course Costs & Special Requirements

Students must have a laptop computer that has the ability to run the Adobe Suite – 16GB of RAM is recommended.

Future Pathways

Digital Technology splits into Animation and Motion Graphics and Computer Science at Level 2 and Level 3. Students can select one or both of these courses to study.

UE Approved

This subject leads towards a Level 3 UE course.

ASSESSMENT

AS92004 Create a computer program Internal 5
AS92005 Develop a digital technologies outcome Internal 5
AS92006 Demonstrate understanding of usability in human-computer interfaces External 5

Total Possible Credits 15

The nature of project based learning is fluid and designed to suit individual learners. To this end course content and standards offered are subject to change if deemed to be beneficial. Students will have an Individual Education Programme (IEP) to ensure there are no common standards in Technology.

Dance Contact: Mr G Wilcox

QUALIFICATION: NCEA LEVEL 1

Entry Guidelines

There are no entry requirements for Dance.

Introduction

Dance is expressive movement with intent, purpose and form and is a vital and integral part of human life. It exists in many forms and styles and is practised in all cultures. Dance functions as artistic endeavour, as ritual, as social discourse and as education. Dance is a unique medium for learning about the self and the world. It is an essential component of artistic, aesthetic and cultural education and develops creative potential through physical, non-verbal expression.

Course Outline

Students in Level 1 Dance perform in the Dance Showcase Available credits up to 15. Students will:

- Develop practical knowledge of dance genre or styles
- Explore and use choreographic processes to give form to dance ideas
- Compose and perform movement and dance sequences.
- Learn and use dance vocabularies to perform a variety of dance sequences
- Perform in a choreographed, group dance work

UE Approved

This subject leads towards a Level 3 UE course.

QUALIFICATION: NCEA LEVEL 1

Entry Guidelines

Completion of the Year 10 Design and Visual Communication is an advantage, but not compulsory.

Course Outline

Level 1 Design and Visual Communication (DVC) provides a foundation in design thinking and visual literacy in the contexts of architecture and product design. Students will develop their skills and understanding of fundamental design principles and heritage. Building an emerging understanding and application of three-dimensional design knowledge through the visual communication of design ideas and a design thinking narrative (a process of exploring and refining design ideas) are key to success in Level 1 DVC.

The skills and knowledge students could develop fluency in throughout the course of the year may include, exploring and refining design ideas, using research influences to generate ideas, developing a wider understanding of design as an act of Manaakitanga, establishing visual literacy to aid design thinking,

visual communication techniques and modes (freehand sketching, instrumental drawing, physical and digital modelling), presentation and layout.

Projects could include:

- Public seating design
- Furniture products
- Lakeside education centre design
- Retreat pod architecture

Additional Course Costs & Special Requirements

A graphics equipment pack will be supplied to your student and charged to your college account. (Approx \$50)

Future Pathways

Design and Visual Communication is a specialist area that progresses from Year 10 - 13. The Level 3 course is designed to scaffold and translate into different areas of University study.

UE Approved

This subject leads towards a Level 3 UE course.

DramaContact: Mr D Sheehan

QUALIFICATION: NCEA LEVEL 1

Entry Guidelines

There are no entry requirements for Year 11 Drama.

Introduction

Drama is about exploring and developing ideas in inventive and imaginative ways and communicating those ideas in performance. Drama aims to help students gain self-confidence, self-discipline, self-awareness, respect for others and the ability to work in a team. Students will learn to present, perform and work collaboratively in groups with increased confidence through Drama.

Course Outline

At Level 1 students sit three practical, performance based, standards and one written standard. Students learn about, and present performances focusing on, Theatre Aotearoa, with a strong focus on important and influential plays written in New Zealand. Students develop and present their own devised dramas through a process that based around whanaungatanga – working collaboratively with a focus on positive relationships and a sense of belonging. Students present a scripted drama to an audience and respond in writing to drama they have viewed as an audience or performed in themselves. While two standards are externally assessed, there is no external examination.

UE Approved

Level 1 Drama heads towards a Level 3 UE course.

Literacy Standards

Level 1 Drama Standards are not currently approved literacy standards.

ASSESSMENT

		Total Possible Credits	20

QUALIFICATION: NCEA LEVEL 1

Introduction

The study of English is essential for understanding all subjects. It involves developing skills in oral, written and visual language. Students grow in confidence through the use of both written and oral language for a range of situations, purposes and audiences. It also exposes students to ideas, experiences and emotions through the work of a range of writers.

Course Outline

Level 1 English is an integrated course studying language and literature, involving:

- Reading novels, short stories, plays or articles and responding to them in a variety of ways
- Crafting writing in a variety of styles; developing proofreading and editing skills
- Recognising the role of the writer, context and genre on the reading and crafting of texts
- Building confidence in the use of speaking and listening skills in a range of contexts
- Developing critical thinking processes to strengthen argument building and creative analysis

The goal is to increase students' abilities to use language effectively, extend imaginative and emotional responsiveness and develop students' awareness of ideas and values through experiences with language.

UE Approved

This subject leads towards a Level 3 UE course.

Standards marked (L) go towards meeting the Level 1 Literacy requirements in 2024.

ASSESSITE	~ 1

QUALIFICATION: NCEA LEVEL 1

Entry Guidelines

A Year 10 course in Technology, DVC or Visual Art, however, Year 10 in this specialist area is preferable.

Course Outline

Level 1 Fashion and Textiles Design is designed to foster creative and critical practice in a project based environment. The primary focus of this course is on how to design authentic and contemporary products within the context of this ever changing specialist field. It is a broad introduction to ensure students have the opportunity to develop their thinking, design and practical skills in this specialist area. Projects develop skills such as; garment construction, pattern adaptation, fashion illustration, outcome design and development, exhibiting and marketing and 3D fabrication. Specialist areas that would be beneficial to study in support to Fashion and Textile Design at Level 1 would be Visual Art.

Additional Course Costs & Special Requirements

- Students are required to supply their own fabric and pattern
- Individual course projects may incur additional costs depending on the nature of their outcomes and resources required

UE Approved & Future Pathways

This subject leads towards a Level 3 UE course.

Fashion and Textiles Design is a specialist area of Technology from Year 10 - 13. The Level 3 course is designed to scaffold and translate into different areas of University study.

OUALIFICATION: NCEA LEVEL 1

Entry Guidelines

A Year 10 course in an area of Technology, however, Year 10 in this specialist area is preferable.

Course Outline

Level 1 Food Technology is designed to foster creative and critical practice in an authentic project-based environment, combining practical skills with a strong foundation in food science and design.

An introductory project centred around hauora, with a special focus on nutrition and personal health, sets the stage for a holistic understanding of food, and its connection to overall physical and mental wellbeing.

Students will engage with culturally diverse food practices and begin the journey to equip themselves with the tools to address current and future challenges in the food, and broader, industries interwoven with a sense of responsibility towards sustainable practice.

This is where wellbeing, kaitiakitanga, cultural appreciation, and scientific innovation come together to shape a brighter future!

Throughout the course, students will be assessed through a combination of practical projects and written assignments allowing them to demonstrate their understanding and application of Food Technology concepts.

Specialist areas that would be beneficial to study in support to Food Technology at Level 1 would be Visual Art, Product Design, Design and Visual Communication and Health.

This course also offers optional extra Unit Standard credits. The aim is to give students experience in commercially recognised skills and knowledge and assessment. Students will have the opportunity to continue with Unit Standards at Level 2.

Graded as Achieved or Not Achieved, these Unit Standards do not allow for course endorsement. They are not a requirement for the Level 2 Food Technology Achievement Standard course. These credits do however go towards the Level 1 NCEA Certificate.

Additional Course Costs & Special Requirements

Items below are purchased through the Technology department:

- Service IQ Unit Standard Assessment \$15
- Individual course projects may incur additional costs depending on the nature of their outcomes and resources required

Future Pathways

Food Technology is a specialist area of Technology from Year 10 - 13.

UE Approved

The Level 3 UE course is designed to scaffold and translate into different areas of university study.

French Contact: HoD French

QUALIFICATION: NCEA LEVEL 1

Entry Guidelines

This course is a continuation of French in Years 9 and 10.

Students would ideally have a minimum of 2 years of full-time study in the target language before entering the Level 1 French course.

Introduction

French is a significant language in the world and is a relevant and very popular foreign language to learn in New Zealand. This course reinforces and builds on the student's ability to engage in everyday life in their community in conversation. It encompasses elements around the student's local environment, their daily activities and experiences, and also in transactional situations such as giving directions, supplying and receiving information, health, future plans and tourist information.

Course Outline

As a continuation of the course in Years 9 and 10, the Year 11 course extends the understanding of vocabulary, grammar and script. There is a focus on listening, reading, writing and speaking French throughout the course.

Cultural knowledge is integrated into the language course.

UE Approved

This subject leads towards a Level 3 UE course.

ASSESSMENT

AS91967	Interact in spoken French to share and respond to information, ideas, and opinions	External	5

Geography Contact: Mr J Mather

OUALIFICATION: NCEA LEVEL 1

Entry Guidelines

There are no entry requirements for Level 1 Geography, however a high level of literacy is beneficial.

Introduction

Geography is the study of te taiao and the interconnections within. Te taiao consists of all things that make up the surrounding environment. This includes features such as rivers, mountains, people, buildings, and infrastructure. Te taiao can exist at different scales and can be located wherever we place ourselves.

Features of te taiao are all closely interconnected, including people. We stand in te taiao and are intrinsically part of it. Therefore, in Geography, we attempt to consider geographic issues holistically.

Geography combines knowledge, skills and understandings of the physical and social sciences. It fosters a curiosity about place and space and provokes questions about natural and cultural environments and their inter connectedness.

Course Outline

Level 1 Geography involves the detailed study of topics including:

- Plate tectonics, extreme natural events, such as earthquakes, volcanoes, tropical cyclones and tsunamis
- Global Population, migration, distribution and density
- Conducting geographic fieldwork understanding and studying weather
- Study of a topic at global scale e.g. Climate Change, Tropical Rainforests or other biomes
- Study of a New Zealand or Pacific geographic challenge

The skills and knowledge Geography students acquire at this level will help them at Level 2 Geography.

Additional Course Costs & Special Requirements

Field trips are part of the Geography course. There are additional costs associated with these.

UE Approved

This subject leads towards a Level 3 UE course.

Health Education Contact: Miss K Donovan

QUALIFICATION: NCEA LEVEL 1

Entry Guidelines

There are no entry requirements for NCEA Health Education at Level 1.

Introduction

The NCEA Health program offers students a valuable opportunity to develop essential knowledge and critical thinking skills within the context of New Zealand and the global health landscape. These skills are highly relevant in the rapidly expanding health and well-being sector.

Course Outline

The course comprises of two Internal and one External assessment, which introduce fundamental concepts to establish a strong foundation for further study in Level 2 and 3 Health Education. The course aims to develop students' literacy skills to a high level of competence, which will support their writing as they progress through their academic journey. The assessments are designed to evaluate students' understanding of the concepts taught in the course and provide feedback to improve their learning.

The course of study involves a detailed analysis of:

- Investigating how nutrition, preparation and consumption of food can influence well-being
- Using decision making models in contexts such alcohol or other substance that impact well-being
- Exploring personal, interpersonal and societal influences on health
- Examining health promotion strategies to enhance well-being at a personal at a community level through the lenses of mental health, nutrition, relationships and sexuality

The Health Education course is designed to:

- Provide students with knowledge on a diverse range of topic and issues
- Provide excellent critical thinking and solution focused approaches to greater health promotion
- Relevant and meaningful teaching and learning experience that have application in the following career spaces: Health Sciences, Social Work, Medical Sciences, Politics, Exercise and Health Sciences, Well-Being, Psychology, Counselling, Occupational Therapy, Community Health Promotion, Nutrition, Drug and Alcohol Harm reduction

UE Approved

This subject leads towards a Level 3 UE course.

ASSESSMENT

AS92008	Demonstrate understanding of wellbeing through the application of a model of health	Internal	5
AS92009	Demonstrate understanding of a decision-making process in a health-related situation	Internal	5
AS92010	Demonstrate understanding of personal, interpersonal, and societal factors that influence hauora	External	5

History Contact: Ms M Ward

QUALIFICATION: NCEA LEVEL 1

Entry Guidelines

There are no entry requirements for History.

Introduction

History offers an understanding of human activities in the past in the context of change through time. Entering into other times and places challenges students to think about continuity and change, similarities and differences, cause and effect. History enables students to understand their heritage and that of their community, society and nation. It also gives greater insight into the future shape of the world we inhabit.

Course Outline

History involves the comprehensive study of two topics from the twentieth century:

- Voices of Change fighting for racial justice in the USA and Aotearoa New Zealand
- Crisis and Compromise from appeasing Hitler to attacking Pearl Harbor in World War Two

Besides learning about important events, people and places, students will be given the opportunity to develop a broad range of skills including: gathering and selecting information from a variety of sources, recognising specific points of view, bias and propaganda, comprehending and using historical relationships, presenting an argument and supporting it with well-chosen evidence and reasoned conclusions.

Note: Students cannot study both Classical Studies and History at Level 1, as two of the Achievement Standards for the Classical Studies Level 1 course are History standards.

UE Approved

This subject leads towards a Level 3 UE course.

Standards marked (L) go towards meeting the Level 1 Literacy requirements.

Mathematics Contact: Miss M Mauez

Mathematics is a compulsory subject in Year 11. This course prepares students for a pathway towards Level 3 Mathematics with Statistics and towards Level 3 Mathematics with Calculus.

Students are expected to enter this course at curriculum level 5 across all of Mathematics and Statistics. It is particularly important that they have reached curriculum level 5 in Statistics and Algebra.

QUALIFICATION: NCEA LEVEL 1

Entry Guidelines

Students should be at curriculum level 5 in Statistics and Algebra, and have passed the Unit Standard US32406.

Introduction

This Mathematics course covers the breadth of the curriculum. NCEA Level 1 Mathematics is designed to give a broad foundation of applicable mathematical and statistical skills as a foundation for further study. The key areas of focus are statistical investigation, problem solving, and mathematical reasoning.

Course Outline

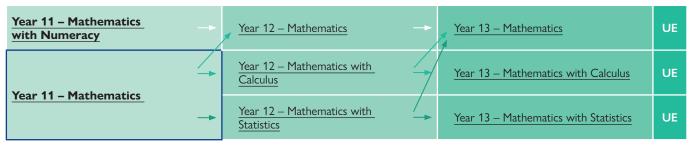

Level 1 Mathematics involves the following

- Exploring rich statistical data sets using the statistical enquiry processes
- Problem-solving in relevant contexts involving a combination of numeric reasoning, measurement, geometry and algebraic thinking
- Mathematical reasoning involving algebra, measurement and geometry

UE Approved

This subject leads to two Level 3 UE courses, Mathematics with Statistics and Mathematics with Calculus.

ASSESSMENT					
AS91944	Explore data using a statistical enquiry process	Internal	5

OUALIFICATION: NCEA LEVEL 1

Introduction

This course will be offered to students who have been identified in Years 9 and 10 as those needing a focus on core skills. Students who have not gained credits from US32406 in Year 10 will gain these required credits in Year 11 through this course.

The pace and content of the course may be modified to suit individual students.

Students who successfully complete Mathematics with Numeracy can progress to Level 2 Mathematics courses at the discretion of the Head of Faculty.

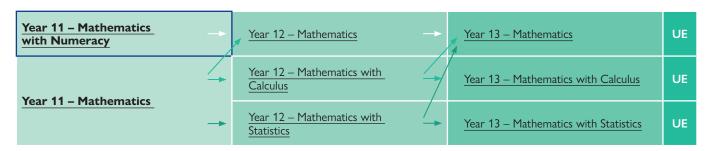

Standards marked (N) go towards meeting the Level 1 Numeracy requirements in 2024.

Course Outline

Mathematics with Numeracy is assessed with two internal Achievement Standards and the prerequisite Numeracy Unit Standard

- Exploring rich statistical data sets using the statistical enquiry processes
- Problem-solving in relevant contexts involving a combination of numeric reasoning, measurement, geometry and algebraic thinking

ASSESSMEN	NT		
US32406	Use mathematics and statistics to meet the numeracy demands of a range of situations	Common Assessment Activity	10

Media Studies Contact: Mr L Oliver

QUALIFICATION: NCEA LEVEL 1

Entry Guidelines

An interest in Media and Film is essential, while completion of Year 10 Media Studies is beneficial.

Introduction

Are you interested in film and media? Do you want to learn how to create your own films and videos? Then the new Level 1 Media Studies course is perfect for you! This program is all about getting hands-on experience with the key practical skills of filmmaking, like using Adobe Premiere Pro and Adobe Audition, writing film scripts, and understanding critical film theory.

Course Outline

What's really exciting is that this course is a great way to prepare for other media-related courses, like IB Film, English Literature, or NCEA Level 2 Media Studies as well as opportunities beyond the classroom. So you can focus on honing your skills, this course is fully internally assessed. Plus, you'll have the opportunity to gain NCEA Level 2 credits to help you on your educational journey. Don't miss out on pursuing a passion for film and media.

This course includes a mixture of Level 1 and Level 2 Achievement Standards.

UE Approved

This subject leads towards a Level 3 UE course.

Standards marked (L) go towards meeting the Level 1 Literacy requirements.

ASSESSMENT

AS91103 (L)	Create a crafted and controlled visual and verbal text	Internal	3

Music Contact: Ms M Lin

QUALIFICATION: NCEA LEVEL 1

Entry Guidelines

Year 10 Music or evidence of achievement in practical or music theory from music lessons or success in music examinations. Students must already play a musical instrument.

Introduction

Music is the universal language that allows us to bond through practical creation, recreation and communication. It allows us to express our feelings, ideas and our place in the world. Students may study music in order to continue to tertiary training and careers in music, or purely for interest's sake, providing balance to their overall course structure. Students are expected to participate in College music groups.

This music course will suit students with a passion for orchestra, non-rock band and/or choir. Both Music pathways will prepare students for IB.

Course Outline

Music at Level 1 allows students to create and perform music in a range of styles and genres. Students will work through scaffolded tasks before a careful selection and polish on their 'best of' for the external portfolio assessments.

The course is divided into three main areas:

- Performance
- Composition
- Research

UE Approved

This subject leads towards a Level 3 UE course.

OUALIFICATION: NCEA LEVEL 1

Entry Guidelines

Year 10 Music or evidence of involvement in an area of Music, such as (but not limited to) performance, songwriting or music technology.

Introduction

This is an NCEA level 1 music course with a contemporary focus. This is a course focused on contemporary instrumental, vocal performance and songwriting. Students will be equipped with the knowledge and skills to operate on sound and music gear and will expand their musical knowledge through analysis and research. Students will use a project-based approach to develop these skills and will be given opportunities to develop their skillset.

Students are expected to participate in College music groups and to contribute to full College music events. It is also recommended that students have instrument lessons to assist with their personal development on their performance instrument of choice (this includes voice).

The Contemporary Music Course will be suited for students that are interested in learning more about music technology, songwriting, event, sound and music production, with studies focussed on music written post 1950 to current. Students whose solo/group instruments are guitar, bass, drum, keyboard, pop vocal and DJ-ing should choose this course.

Course Outline

Students in Contemporary Music work through a course which draws on aspects of the NCEA music course with the potential to add standards from the Performing Arts Technology Standards and Music Technology Standards.

This is a practical course requiring individual and group work with positive attitude, effort and an open-mind to create, recreate and connect with the music industry. We work closely with NZ Music Commission to provide mentoring and workshop opportunities for our students.

UE Approved

This subject leads towards a Level 3 UE course.

OUALIFICATION: NCEA LEVEL 1

Entry Guidelines

There is no entry requirement for NCEA Physical Education.

Introduction

Level 1 Physical Education is an academic course of study that takes place in a classroom setting, distinct from a recreational physical education course. Students can anticipate dedicating approximately 60% of their time to practical activities and 40% to theoretical applications. This course aims to nurture and expand upon students' interest and enthusiasm for physical activity and movement, encompassing a broad spectrum of topics ranging from body structure and function to teamwork and leadership.

Course Outline

The Level 1 Physical Education course follows a primarily internal assessment format and serves as an introductory platform for further studies in Level 2 and 3 Physical Education. It encompasses a comprehensive examination of various concepts and subjects.

These include:

- Understanding the structure and functionality of the human body in relation to physical performance
- Analysing actions and strategies that enhance performance
- Examining the factors influencing physical activity
- Exploring self-management strategies that contribute to active participation in sports
- Enhancing physical competencies in selected sports through the involvement of external providers to enrich the learning experience

The Physical Education course is designed to:

- Address students' needs in terms of physical growth and development, motor skill enhancement, and personal and social development
- Provide a diverse range of challenges and opportunities for all students to experience success
- Equip students with knowledge, understanding, fitness, and skill acquisition
- Foster enjoyment and cultivate positive attitudes towards physical activity
- Promote innovative approaches to learning through movement

Additional Course Costs & Special Requirements

The course includes practical components, which may incur an approximate cost of \$100.

UE Approved

This subject contributes towards a Level 3 University Entrance course. Potential university career options include Health Sciences (Physiotherapy, Nursing), Sports Science (Sports Coaching, Exercise Physiology), Education (Physical Education Teaching), Social Work, Psychology (Counselling, Sports Psychology), Nutrition, Community Health Promotion, Public Health, Allied Health Professions (Occupational Therapy, Speech Therapy), and research/academia in physical education or related fields.

ASSESSMENT

AS92016	Apply movement strategies in an applied setting	Internal	5
AS92017	Demonstrate understanding of how kotahitanga is promoted in movement through application of strategies	Internal	5
AS92018	Demonstrate understanding of the influence of a personal movement experience on hauora	External	5

Product Design Contact: Mr G Horsnell

QUALIFICATION: NCEA LEVEL 1

Entry Guidelines

A Year 10 course in Technology or Design and Visual Communication (DVC), however, Year 10 in this specialist area is preferable.

Course Outline

Level 1 Product Design has been developed to foster creative and critical practice in a project based environment.

Product Design's primary focus is on the design of authentic and contemporary products within a given authentic context. Students have the opportunity to develop their thinking, design and practical skills in this specialist area. Projects may develop skills such as; drawing and ideation specific to Product Design, 3D physical and digital modelling, safe handling and transforming, manipulating and combining of a range of resistant materials (wood, metal, plastics, resin, concrete etc.), traditional carpentry alongside modern manufacturing techniques and the exhibiting and presentation of outcomes to the wider community.

Specialist areas that would be beneficial to study in support to Product Design at Level 1 would be Design and Visual Communication (DVC), Fashion and Textile Design and Visual Art.

Additional Course Costs & Special Requirements

Individual course projects may incur additional costs depending on the nature of their outcomes and resources required.

Future Pathways

Product Design is a specialist area of Technology from Year 10 - 13.

The Level 3 course is designed to scaffold, and translate into different areas of University study.

UE Approved

This subject leads towards a Level 3 UE course.

QUALIFICATION: NCEA LEVEL 1

Introduction

Science is a compulsory subject in Year 11. It is the continuation of the two-year Science programme that furthers the development of students' scientific knowledge, understanding, skills and study.

Content for AS92044 will begin in Year 10, and be completed in Year 11.

In addition to Science, students are also able to choose one extra option from Specialist Chemistry/ Physics or Specialist Biology/ Chemistry to better prepare for the demands of Level 2 and IB.

Course Outline

At Level 1, students complete three NCEA Achievement Standards. This consists of two external assessments, which students will complete at the end of the year, and one internal assessment, done during the year.

UE Approved

This subject leads towards a Level 3 UE course.

Specialist Chemistry - Biology

There is no formal qualification for this course. This subject option is recommended for students who are interested in completing IB, or NCEA Level 2 Sciences.

Introduction

Specialist Biology — Chemistry will explore aspects of Biology and Chemistry over the course of the year. Biology focuses on appreciating how various conditions impact the life processes of living organisms. From the functioning of cells, to the dynamics of ecosystems, Biology will provide students with a deeper understanding of the living world around them. Chemistry is about the structure of matter and controlling its changes for our benefit. This will enable students to comprehend the intricate mechanisms of matter and utilise these ideas to develop their understanding of the material world around them.

Course Outline

During this course students will delve into the areas listed below for each science speciality. Both specialties will utilise experimentation which will help students to discover important concepts and apply the theory they have learnt.

Biology

- Cells and Microscopes
- Microorganisms
- Physiology
- Ecology

Chemistry

- Language of Chemistry
- Aspects of Inorganic Chemistry
- Moles and Stoichiometry
- Introduction to Organic Chemistry

Specialist Chemistry – Physics

Contact: Mrs R English

There is no formal qualification for this course. This subject option is recommended for students who are interested in completing IB, or NCEA Level 2 Sciences.

Introduction

Specialist Chemistry – Physics will explore aspects of each Science over the course of the year. Chemistry is about the structure of matter and controlling its changes for our benefit. This will enable students to comprehend the intricate mechanisms of matter and utilise these ideas to develop their understanding of the world around them. Physics will delve into the phenomena surrounding us. This will allow students to gain a deeper appreciation of the nature of physics and its relevance to our everyday lives.

Course Outline

During this course students will delve into the areas listed below for each science speciality. Both specialties will utilise experimentation which will help students to discover important concepts and apply the theory they have learnt.

Chemistry

- Language of Chemistry
- Aspects of Inorganic Chemistry
- Moles and Stoichiometry
- Introduction to Organic Chemistry

Physics

Spanish Contact: Mrs M Martinez

QUALIFICATION: NCEA LEVEL 1

Entry Guidelines

This course is a continuation of Spanish in Years 9 and 10.

Students should have a minimum of 2 years full-time study in the target language before entering the Level 1 Spanish course.

Introduction

Spanish is a significant language in the world and is a relevant and very popular foreign language to learn in New Zealand. This course reinforces, and builds on, the student's ability to engage in everyday life in their community in conversation, encompassing elements around the student's local environment, their daily activities and experiences, and also in transactional situations such as shopping, giving directions, supplying and receiving information.

Course Outline

As a continuation of the course in Years 9 and 10, the Year 11 course extends the understanding of vocabulary, grammar and script. There is a focus on listening, reading, writing and speaking Spanish throughout the course.

Cultural knowledge is integrated into the language course.

UE Approved

This subject leads towards a Level 3 UE course.

ASSESSMENT

AS91975 AS91973	Demonstrate understanding of spoken Spanish related to everyday contexts Communicate in Spanish for a chosen purpose	External Internal	5
AS91974	Show understanding of written Spanish related to everyday contexts	External	5
AS91972	Interact in spoken Spanish to share and respond to information, ideas and opinions	Internal	5

Te Reo Māori Contact: Mrs J Martin

QUALIFICATION: NCEA LEVEL 1

Entry Guidelines

For greater success in this Te Reo Māori course, students should have prior study in the target language before entering Level 1 Te Reo Māori.

Introduction

At Level 1 NCEA (Level 6 NZC), students in Te Reo Māori learn to identify, describe and demonstrate foundational knowledge and ideas in and about the Māori language. Higher credit values have been assigned to Te Tika o te Reo (Language Accuracy) and Te Ora o te Reo (Language Vitality) standards to acknowledge and emphasise the importance of accuracy as a foundational skill as well as raising awareness of the need for language revitalisation.

The units of work are:

- 1867 Native Schools Act
- 1920 1950s World Wars
- 1950 1970 Urban Migration of Māori

Course Outline

Te Reo Māori provides students with a foundation of communicative skills and cultural knowledge to develop confidence through strong self-identity that will enable them to engage in quality bilingual/bicultural relationships with others.

Students will apply a range of communicative skills in a variety of contexts that will enable them to express their thoughts in te reo Māori with accuracy, fluency, cultural integrity and gain an understanding of language revitalisation.

Students who engage with Kapa Haka have an enriched experience in this course of study.

UE Approved

This subject leads towards a Level 3 UE course.

ASSESSMENT

AS92092	Te kōrero mō te ora o te reo i mua i te tau 1970	Internal	6
AS92093	Te whakapuaki whakaaro i runga i te āta rere o te reo	Internal	4
AS92095	Te whakapuaki whakaaro i runga i te tika haere o te reo	External	6

Total Possible Credits 16

Students will maintain a speaking and writing portfolio throughout the year. Students will be required to submit two samples from their speaking and writing portfolios of work, for each internal standard. The reading external standard will take place in Term 4, at the end of year national examinations.

ACADEMIC PATHWAY

Year 11 − Te Reo Māori → Year 12 − Te Reo Māori → Year 13 − Te Reo Māori UE

NCEA Level 2 Curriculum

At Year 12, students have a choice of qualification. They can choose to continue with NCEA, or opt to follow the International Baccalaureate (IB) Diploma programme. By offering this choice, students are able to select a pathway that works best for them as an individual. In both qualifications, Year 12 students choose six subjects.

This section covers the course work for NCEA Level 2.

Click here for information about the IB Diploma Curriculum.

In a full Year 12 NCEA course, all students study six (6) learning areas. English is compulsory and 5 subjects are chosen from the table below.

Entry Guidelines – For most Level 2 subjects, this is based on Level 1 credits. This identifies the level of knowledge and skill expected for success at Level 2 study in a particular subject.

Most Year 12 NCEA students will study only Level 2 subjects, however, where appropriate, some may have a multi-level combination of Level 1, Level 2 and/or Level 3 subjects.

In selecting a course in Year 12, it is important to consider the subjects you plan to continue with in Year 13, as some subjects do not continue at Level 3 NCEA. Any student planning to take more than one noncontinuing subject in Year 12 (Level 2) must obtain the approval of the Head of House to ensure they will have an appropriate course available the following year.

Please note a minimum number of 10 students is required to create a stand alone class.

QUALIFICATION: NCEA LEVEL 2

Entry Guidelines

There are no entry requirements for Level 2 Accounting, although it is an advantage that students have completed the Level 1 Accounting course.

Recommended co-requisites are Level 2 Mathematics and English.

Course Outline

Year 12 Accounting offers students the opportunity to develop logical thinking skills as well as providing a conceptual understanding of the workings of small organisations. Students continue to build upon the five strands developed in Level 1 Accounting but the major emphasis is on the design, processing, conceptual understanding and detailed analysis of the job costing subsystem.

The development of skills in the use of spreadsheets, word processing and accounting software will be used to appreciate the place of ICT in Accounting.

Additional development also continues on the preparation and detailed interpretation of financial statements for sole proprietors.

UE Approved

This subject leads to a Level 3 approved UE course.

Standards marked (N) can be used towards meeting UE Numeracy requirements.

QUALIFICATION: NCEA LEVEL 2

Entry Guidelines

It is beneficial if students have taken either 10 credits in Level 1 Animation, Digital Technology or Level 1 Visual Art course.

Course Outline

Level 2 Animation and Motion Graphics is designed to foster creative and critical practice in a project-based environment. The primary focus of this specialist area is on the design of authentic and contemporary outcomes. Level 2 is a broad course that aims to introduce students to the dynamic world of animation, motion graphics and visual effects. It has been developed to ensure students are well prepared for future study and the industry. Projects may develop skills such as: the integration of graphic design into animation & motion graphics; the development and animation of narrative; a range of 2D and 3D animation techniques and software, and digital modeling using industry standard software, and animation techniques and processes, plus skills to manage long term projects.

Specialist areas that would be beneficial to study in support of Animation and Motion Graphics at Level 2 would be Visual Art Design, Visual Art – Painting and Printmaking, Visual Art – Sculpture, Computer Science, Product Design and Level 2 Media Studies.

Additional Course Costs & Special Requirements

- Individual student project requirements will determine if there are additional material costs
- A Laptop computer able to run the Adobe Suite and 2D & 3D animation software, 16GB of RAM is recommended
- Wacom Tablet is recommended, especially if not using a digitizer enabled laptop

UE Approved & Future Pathways

This specialist area leads to a Level 3 approved UE course and multiple tertiary pathways including Digital Design, Game Design and Development, Communication Design and Industrial Design.

ASSESSMENT

AS91355	Select and use planning tools to manage the development of an outcome	Internal	4
AS91897	Use advanced processes to develop a digital technologies outcome	Internal	6
AS91899	Present a summary of developing a digital outcome	External	3
AS91893	Use advanced techniques to develop a digital outcome	Internal	4

Total Possible Credits 17

The nature of project-based learning is fluid and designed to suit individual learners. To this end course content and standards offered are subject to change if deemed to be beneficial. Students will have an Individual Education Programme (IEP) to ensure there are no common standards in the areas of Technology. All external work is submitted as an academic report and/or examination.

Art – Design Contact: Mr R Strattor

QUALIFICATION: NCEA LEVEL 2

Entry Guidelines

Preference will be given to students who have completed Level 1 Art. All other students will be subject to HoD approval and are encouraged to contact Mr Stratton if you have questions about the course. Students who took DVC in Year 11 are also well suited to take Year 12 Art options.

Course Outline

Level 2 Design is best understood as Art that has a set function to promote, advertise or communicate an event, product or message. Design is a practical course and students will produce visual outcomes such as logos, posters and other promotional material for set briefs of an imagined, but realistic design context, that they will decide. Outcomes may also include 3D packaging, character design and Animation. Students will develop their ability to visually communicate their own personal, social and cultural experiences through Design. In Art — Design students will complete internal achievement standards and a 2 x A1 panel folio board external. Students will work with combinations of hand made digital approaches dependant on their strengths and will develop a sound control of Adobe Illustrator, Photoshop and Indesign.

Additional Course Costs & Special Requirements

A reliable laptop is essential. iMac computers are also available for use in lesson. A basic set of art materials can be purchased through the art department at a discounted rate. You must also have an SD card for photos.

Folio board printing costs >\$50.

UE Approved & Future Pathways

This specialist area leads to a Level 3 approved UE course and multiple tertiary pathways. Previous Design students have gone on to study a diverse range of subjects including Architecture, Medicine and Engineering. More specifically students can pursue an Art related path that could include Fine Art, Art and Design, Communication Design, Digital Design or Industrial Design.

ASSESSMENT

AS91310	Use drawing methods to apply knowledge of conventions appropriate to design	Internal	4
AS91315	Develop ideas in a related series of drawings appropriate to established design practice	Internal	4
AS91320	Produce a systematic body of work that shows understanding of art making conventions and ideas within design	External	12

Total Possible Credits 20

The nature of project-based learning is fluid and designed to suit individual learners. To this end course content and standards offered are subject to change if deemed to be beneficial. All external work is submitted as two panel A1 folio board.

Art – Painting Contact: Mr R Strattor

QUALIFICATION: NCEA LEVEL 2

Entry Guidelines

Preference will be given to students who have completed Level 1 Art. All other students will be subject to HoD approval and are encouraged to contact Mr Stratton if you have questions about the course. Students who took DVC in Year 11 are also well suited to take Year 12 Art options.

Course Outline

Level 2 Painting is a practical course that develops further from Level 1 Art with a continued focus on the specialist area of Painting. Through practical experimentation and research students will make links to artist models both contemporary and traditional. They will locate their own art making practice in the context of Art history and their ideas and intentions will be presented in visual form. In Painting students will complete a single internal achievement standard and a 2 x A1 panel folio board external that presents a systematic body of work. Approaches can include portraiture, landscape, abstraction etc. and both traditional painting and digital approaches are encouraged. Students will develop their ability to visually communicate their own personal, social and cultural experiences through painting.

Additional Course Costs & Special Requirements

A set of art materials from Gordon Harris will be supplied to the student at the beginning of the course at a discounted cost of \$80. This is an essential requirement of the course to complete work outside of class time.

UE Approved & Future Pathways

This specialist area leads to a Level 3 approved UE course and multiple tertiary pathways. Previous Painting students have gone on to study a diverse range of subjects including Architecture, Medicine and Engineering. More specifically students can pursue an Art related path that could include Fine Art, Art and Design, Communication Design, Digital Design or Industrial Design.

ASSESSMENT

AS91311	Use drawing methods to apply knowledge of conventions appropriate to painting	Internal	4
AS91316	Develop ideas in a related series of drawings appropriate to established painting practice	Internal	4
AS91321	Produce a systematic body of work that shows understanding of art making conventions and ideas within painting	External	12

Total Possible Credits 20

The nature of project-based learning is fluid and designed to suit individual learners. To this end course content and standards offered are subject to change if deemed to be beneficial. All external work is submitted as two panel A1 folio board.

Entry Guidelines

Preference will be given to students who have completed Level 1 Visual Art. All other students will be subject to HoD approval and are encouraged to contact Mr Stratton if you have any questions. Students who took DVC in Year 11 are also well suited to take Year 12 Art options.

Course Outline

Level 2 Visual Art — Photography is a practical course that develops from Level 1 to focus on the specialist area of photography. Students will extend skills, in a range of materials, techniques, and technologies to generate, analyse, clarify, and extend ideas in photography related to established practice and artist models. In photography students can explore a range of approaches including still life, portraiture, landscape, abstraction and documentary and can use a technical approach that includes analogue, digital and hand altered approaches. Students will develop their ability to visually communicate their own personal, social and cultural experiences through photography.

In Visual Art - Photography, students will complete internal achievement standards and a 2 x A1 panel external folio board that presents a systematic body of work. Some of the work

produced in the internal standards will also be used as part of the external folio board submission.

Specialist areas that would be beneficial to study in support of Visual Art – Design would be Visual Art – Design, Photography, Printmaking or Sculpture.

Additional Course Costs & Special Requirements

- All Level 2 Photography students must have their own DSLR camera and an SD card
- Folio board printing costs >\$50
- Digital SLR camera, external hard drive, SD card
- Please see the Art Department staff for more guidance if needed

UE Approved & Future Pathways

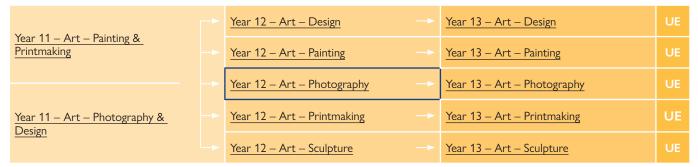

This specialist area leads to a Level 3 approved UE course and multiple tertiary pathways. Previous Painting students have gone on to study a diverse range of subjects including Architecture, Medicine and Engineering. More specifically students can pursue an Art related path that could include Fine Art, Art and Design, Communication Design, Digital Design or Industrial Design.

ASSESSMENT

AS91307	Demonstrate an understanding of methods and ideas from established practice appropriate to Photography	Internal	4
AS91312	Use drawing methods to apply knowledge of conventions appropriate to Photography	Internal	4
AS91322	Produce a systematic body of work that shows understanding of art making conventions and ideas within Photography	External	12

Total Possible Credits 20

The nature of project-based learning is fluid and designed to suit individual learners. To this end course content and standards offered are subject to change if deemed to be beneficial. All external work is submitted as two panel A1 folio board.

In a full Year 12 NCEA course, all students study **six** learning areas. English is compulsory and **five** subjects are chosen from the table below.

Entry Guidelines

This is an open entry Level 2 Art course. Please see Mr Stratton if you have questions about the course.

Course Outline

Level 2 Printing is a hands on, practical focussed art course designed for those students interested in the art of printmaking. The course will focus on an Aotearoa/New Zealand perspective including the important histories of Māori and Pasifika. Students will explore a range of printmaking techniques including woodcut carving, plexi-plate etching, silkscreen and stencils. This course is designed for those students who may not have taken Art since middle school. Students will locate their own art making practice in the context of Art history and their ideas and intentions will be presented in visual form. In Printmaking students will complete a single internal achievement standard and a 2 x A1 panel folio board external that presents a systematic body of

work. Approaches can include portraiture, landscape, patterns and symbolism, abstraction etc. and both traditional printing and digital approaches are encouraged.

Additional Course Costs & Special Requirements

A basic set of art materials and a sketchbook are required for this course. These can be purchased through the Art department art a discounted rate.

UE Approved & Future Pathways

This specialist area leads to a Level 3 approved UE course and multiple tertiary pathways. Previous Art students have gone on to study a diverse range of subjects including Architecture, Medicine and Engineering. Art – Sculpture Contact: Mr R Stratton

QUALIFICATION: NCEA LEVEL 2

Entry Guidelines

Preference will be given to students who have completed Level 1 Visual Art. All other students will be subject to HoD approval and are encouraged to contact Mr Stratton if you have any questions. Students who took DVC in Year 11 are also well suited to take Year 12 Art options.

Course Outline

Level 2 Visual Art-Sculpture is a practical course that develops from Level 1 to focus on the specialist area of Sculpture. Sculpture is defined as three-dimensional art made by one of four basic processes: carving, modelling, casting, constructing and in a contemporary context can also include installation, found object or performance art. Students will extend skills, in a range of materials, techniques, and technologies to generate, analyse, clarify, and extend ideas in sculpture related to establish practice and artist models. They will use a systematic approach to the development of ideas in the body of work. Students will develop their ability to visually communicate their own personal, social and cultural experiences through sculpture.

In Visual Art-Sculpture students will complete internal achievement standards and a $2 \times A1$ panel external folio board that presents a systematic body of work.

Additional Course Costs & Special Requirements

Individual student project requirements will determine if there are additional material costs. A basic set of art materials and a sketchbook are required and can be purchased through the Art department at a discounted rate.

Folio board print costs > \$50.

UE Approved & Future Pathways

This specialist area leads to a Level 3 approved UE course and multiple tertiary pathways. QUALIFICATION: NCEA LEVEL 2

Entry Guidelines

A minimum of 8 external credits and 6 internal credits in Level 1 Science and would benefit from Year 11 General Science with Biology.

Introduction

Biology is about studying and appreciating the great diversity of life represented in the five kingdoms of life. It is about animals and plants and how they interact with each other and the environment.

This is a full academic course that prepares students for the content of Biology at NCEA Level 3.

Course Outline

 α -Biology offers a course of 2 External Achievement Standards and 2 Internal Achievement Standards and would suit students seeking to undertake more work during the course of the year, with a reduced examination programme.

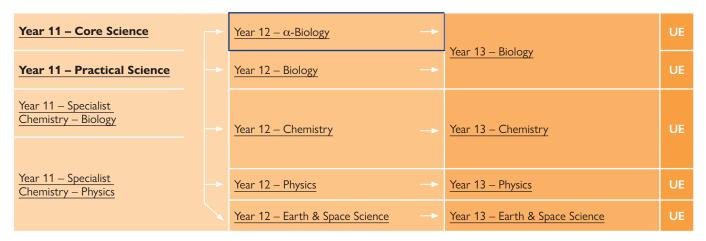

These standards provide an opportunity to gain understanding and knowledge of biological principles and facts through the study of:

- Ecological principles
- Animal diversity
- Practical investigations
- Cell Structure
- Inheritance and genetic change at the molecular, individual and population levels

UE Approved

This subject leads to a Level 3 approved UE course.

Biology Contact: Mr S Martin

QUALIFICATION: NCEA LEVEL 2

Entry Guidelines

A minimum of 8 external credits and 6 internal credits in Level 1 Science and would benefit from Year 11 General Science with Biology.

Introduction

Biology is about studying and appreciating the great diversity of life as represented in the five kingdoms of life. It is about animals and plants and how they interact with each other and the environment, about how their different internal organ and cell systems work to ensure their ongoing survival. This course is for students who are wanting to undertake the full examination programme preparation for the demands of Biology at Level 3.

Course Outline

Level 2 Biology offers a course of 3 External Achievement Standards and 1 Internal Achievement Standard. Biology at Level 2 provides the opportunity for students to gain understanding and knowledge of biological principles and facts through participating in the study of:

- Animal diversity
- The common underlying themes of cell structure and how cells work
- Gene expression
- Inheritance and genetic change at the molecular, individual and population levels

Students successfully completing the course should acquire:

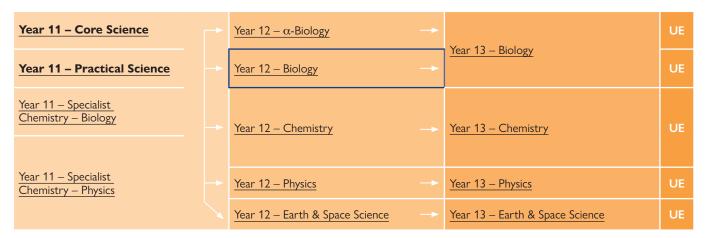

- Knowledge and understanding of biological concepts and facts
- Competence in the application of scientific skills appropriate to biology

UE Approved

This subject leads to a Level 3 approved UE course.

Standards (W) can be counted as Writing credits for UE Literacy.

ASSESSMEN	NT		
AS91155	Demonstrate understanding of adaptation of plants or animals to their way of life	Internal	3

QUALIFICATION: NCEA LEVEL 2

Entry Guidelines

To have completed Level 1 Product Design

Course Outline

Level 2 Building and Construction is a Unit Standard course and has been developed for students who have an interest in the practical nature of making timber furniture and are interested in trade related skills. The primary focus is the construction of two advanced outdoor furniture practical pieces using hand and power tools whilst demonstrating correct health and safety practices. All practical work is supported by theory-based reflections and written assessments.

The assessments are Unit Standards and are provided by the Building and Construction Industry Training Organisation (BCITO) which provides apprenticeship and supervisor qualifications for the New Zealand building and construction industry. BCITO has been appointed by the Government to develop professional qualifications and set standards for the industry.

This is NOT a UE Approved Subject

While Building and Construction does continue to Level 3, it is not a university approved subject. A subject endorsement is not possible in Building and Construction.

Note: This course is available for students who have also selected Year 12 Product Design.

ASSESSMENT

US12927	Identify, select, maintain and use hand tools for BCATS projects	Internal	6
US24350	Identify, select, maintain and use portable power tools for BCATS projects	Internal	6
US24354	Demonstrate knowledge of and apply safe working practices in BCATS workplace	Internal	4

Business Contact: Mrs T Ramakers

QUALIFICATION: NCEA LEVEL 2

Entry Guidelines

10 credits from Level 1 Commerce or subject to HoD approval.

For those students who have previously not studied Business but who wish to enter at Level 2, credits obtained in another Social Science subject will be used as the basis for entry.

Introduction

During the Level 2 Business course students will have the opportunity to explore the internal functions of large (20 or more employees) New Zealand registered businesses. The investigation of large businesses will allow students to understand the uniqueness of different business operations while also applying Māori business concepts such as pūtake (the purpose or reason for being).

Students set up and operate their own social enterprise business which supports the values of Saint Kentigern College. They will go on a personal journey of making decisions to set up and take their product to a marketplace of their choice. Working alongside others in their small business will require the students to set business objectives and problem solve as they endeavour to make their business successful.

Course Outline

All standards in this course are Achievement Standards and allow students to:

- Conduct market research
- · Plan, carry out, review, and refine a business activity
- Be a service to the community or part of the community
- Sponsor, fundraise, or donate profit or products to a community group, activity, or non-profit organisation
- Demonstrate their understanding of the internal operations of a large business
- Discuss a critical problem in a given large business and apply business knowledge to provide possible solutions and recommendations to address issues

UE Approved

Level 2 Business leads to a Level 3 approved UE course.

ASSESSME	NT

QUALIFICATION: NCEA LEVEL 2

Entry Guidelines

Students selecting Year 12 Chemistry are recommended to have achieved 10 credits in Level 1 Science and would benefit from Year 11 General Science with Chemistry.

There is significant manipulation of formulae involved in this course.

UE Approved

This subject leads to a Level 3 approved UE course.

Introduction

This is a one-year course which leads into Level 3 NCEA Chemistry.

Students will gain an understanding of the following concepts and ideas by the end of the course.

- Atomic and molecular structure and bonding
- The different forces of attraction in solids, liquids and gases
- Gaining expertise in the accurate use of chemicals and laboratory equipment
- Introduction to oxidation and reduction principles
- Physical properties of selected molecules and compounds.
- Use of chemical vocabulary and conventions in scientific communication
- Investigating families of compounds for their physical and chemical similarities especially in organic chemistry

Chinese Contact: Ms T Yan

QUALIFICATION: NCEA LEVEL 2

Entry Guidelines

15 credits in Level 1 Chinese (2 Internal and 1 External Reading or Listening).

Course Outline

Chinese is the most widely spoken language in the world. Because of the large, prosperous economy and the developing trading relationship with New Zealand, it is currently a relevant and very popular foreign language to learn. This Chinese course aims to give students an advantage in the increasingly competitive

business world by further enhancing receptive and productive language skills in the target language, with particular emphasis on extending the repertoire of vocabulary and language features.

It is anticipated that students who elect to study Chinese in Year 12 have the intention of continuing into Year 13 and completing the NZQA Level 3 qualification.

UE Approved

This subject leads to a Level 3 approved UE course.

ASSESSME	NT		
AS91108	Demonstrate understanding of a variety of spoken Chinese texts on familiar matters.	External	5
AS91110	Give a spoken presentation in Chinese that communicates information, ideas and opinions	Internal	4
AS91111	Demonstrate understanding of a variety of written and / or visual text(s) on familiar matters	External	5

OUALIFICATION: NCEA LEVEL 2

Introduction

Christian values are an intrinsic part of the special character of Saint Kentigern College and all Year 12 students take Christian Education. The Christian Education Department is constantly evolving its programmes to ensure that they are interesting, relevant and challenging for our students in their development as young men and women on their faith journeys — whatever they perceive that to be. In the Senior School, a wide range of relevant and contemporary resources are used in what is generally an informal, discussion-based, non-assessed theological and philosophical exploration of issues of Christian life and faith.

Course Outline

The Year 12 course aims to encourage students to continue exploring the foundational principles of the Christian life in deeper and increasingly more relevant ways. With the focus being on 'bringing joy to others', students will revisit the Jesus story, as well as key events in the history of the Christian church to consider not only what their own aspirations and achievements are, but also what they might achieve for others and inspire in others.

Assessment

There is no formal assessment for this course.

Classical Studies Contact: Dr A Rene

QUALIFICATION: NCEA LEVEL 2

Introduction

Classical Studies is an interdisciplinary subject which focuses on the study of ancient Greece and Rome. Within this subject, there is an emphasis on exploring the way in which the cultural traditions of the ancient Greco-Roman societies reflect upon us today. This multidisciplinary subject includes the study of history, ancient philosophy, mythology, ancient art and architecture, archaeology, and social customs.

Classical Studies prides itself on being inclusive of all learning styles and methods. The subject offers a greater understanding, not only of the ancient world, but of the systems and institutions that govern us in the present times.

The aim of this subject is for students to develop their knowledge and understanding within an enjoyable academic setting as it offers practical academic skills that can be applied to many other disciplines. It also gives learners the opportunity to follow their individual interests to expand upon their skillsets all whilst learning in a dynamic environment.

Course Outline

- Homer's Epic poetry (Iliad) a literary exploration of epic poetry, Homeric society and the Homeric hero during the Trojan War
- Pompeii an archaeological, literary and artistic examination of the volcanic eruption of Vesuvius and the impact it has had on the world until today
- Roman Civil Wars (100BCE-31BCE) investigation
 of the Roman Civil Wars that led to the destruction of
 the Roman Republic and the birth of the Roman Empire
- Roman Social Life a cultural and historical investigation of ancient Romans, their way of life, societal beliefs and correlations with contemporary society

UE Approved

This subject leads to a Level 3 approved UE course.

Standards marked (R) and (W) can be counted as Reading and Writing credits for UE Literacy.

OUALIFICATION: NCEA LEVEL 2

Entry Guidelines

11 credits or more in Level 1 Digital Technology.

Course Outline

Level 2 Computer Science is meticulously crafted to cultivate creative and critical thinking in a project-based environment. The primary objective of this specialised field is to design authentic and contemporary digital products, encompassing a wide range of digital outcomes. Level 2 serves as a focused course, aimed at extending the skills acquired in Level 1, while delving into more advanced aspects of programming and UX design. Developed in collaboration with leading tertiary providers, this course ensures students are thoroughly prepared for future academic pursuits and industry demands. Projects within Level 2 may encompass diverse skills such as integrating graphic design into digital interfaces, website development, responsive application design, employing industry-standard software for digital modeling, and conducting research and development in emerging digital technologies.

Specialist areas that would be beneficial to study in support to Computer Science at Level 2 would be Visual Art – Design, Animation and Motion Graphics and Design and Visual Communication.

Additional Course Costs & Special Requirements

Students must have a laptop computer that meets the following requirements:

 The ability to run the Adobe Suite Blender and Unity software – 16GB RAM is recommended

UE Approved & Future Pathways

This specialist area is a Level 2 approved UE course and offers versatile tertiary pathways, including software development, data science, artificial intelligence, cybersecurity, web development, database administration, network engineering, IT project management, computer graphics, and research/academia. It provides a wide range of opportunities for specialization and growth in various industries.

Standards marked (N) can be used towards meeting UE Numeracy requirements.

ASSESSMENT

AS91893	Use advanced techniques to develop a digital media outcome	Internal	4
AS91896	Use advanced programming techniques to develop a computer programme	Internal	6
AS91897	Use advanced processes to develop a digital technologies outcome	Internal	6
AS91899 (N)	Present a summary of developing a digital outcome	External	3

Total Possible Credits 19

The nature of project based learning is fluid and designed to suit individual learners. To this end course content and standards offered are subject to change if deemed to be beneficial. Students will have an Individual Education Programme (IEP) to ensure there are no common standards in the areas of Technology. All external work is submitted as an academic report and/or examination.

ACADEMIC PATHWAY

Year 11 − Computer Science → Year 12 − Computer Science → Year 13 − Computer Science UE

In a full Year 12 NCEA course, all students study **six** learning areas. English is compulsory and **five** subjects are chosen from the table below.

Dance Contact: Mr G Wilcox

QUALIFICATION: NCEA LEVEL 2

Entry Guidelines

Level 1 Dance with a minimum of 10 internal and 5 external credits. Students who have not studied Level 1 Dance may be admitted with the approval of the Head of Dance.

Course Outline

This course is for students with an interest, background and ability in dance who wish to develop their skills in a variety of styles and contexts. Students will engage in choreography for both individual and group performances. Externally assessed standards require students to analyse dance performances and to demonstrate knowledge of influences on dance genres and styles.

Year 12 Dance students can perform and choreograph for the Dance Showcase.

UE Approved

This subject leads to a Level 3 approved UE course.

ASSESSM	ENT		
AS91205	Choreograph a group dance to communicate an Intention	Internal	4
AS91208	Perform a theatre dance to communicate understanding of the dance	Internal	4
AS91209	Perform a repertoire of dance	Internal	6

NOTE: **Bold** indicates a compulsory learning area.

QUALIFICATION: NCEA LEVEL 2

Entry Guidelines

10 credits in Level 1 Design and Visual Communication including AS92002.

Course Outline

Level 2 Design and Visual Communication (DVC) is designed to foster creative and critical practice in a project-based environment. Design and Visual Communication's primary focus is on the imagining in creative thinking of novel, new and beneficial ideas, resolving problems to improve the lives of people. This involves working within the context of architecture, interior design, landscape design and product design, and considers the way in which these ideas and thinking are presented visually.

Students have the opportunity to develop their thinking, design and practical skills in this specialist area. Within the context of Year 12 Design and Visual Communication this includes skills like; exploring and refining design ideas in response to a brief, using creative strategies for divergent thinking, integrated visual literacy and design thinking, visual communication, and presentation techniques.

Specialist areas that would be beneficial to study in support to Design and Visual Communication at Level 2 would be Product Design, Visual Art – Design, Sculpture, Visual Art – Photography, Visual Art – Painting & Printmaking, and Animation & Motion Graphics.

Additional Course Costs

A graphics equipment pack will be supplied as part of this course and charged to your college account (approx. \$50).

UE Approved & Future Pathways

Design and Visual Communication is a specialist area that progresses from Year 10 - 13. The Level 2 course is designed to scaffold and translate into different areas of university study.

ASSESSMENT

AS91337	Use visual communication techniques to generate design ideas	External	3
AS91340	Use the characteristics of a design movement or era to inform own design ideas	Internal	3
AS91341	Develop a spatial design through graphics practice	Internal	6
AS91343	Use visual communication techniques to compose a presentation of a design	Internal	4

Total Possible Credits 16

The nature of project based learning is fluid and designed to suit individual learners. To this end course content and standards offered are subject to change if deemed to be beneficial. Students will have an Individual Education Programme (IEP) to ensure there are no common standards in the areas of Technology. All external work is submitted as an academic report and/or a portfolio.

NOTE: **Bold** indicates a compulsory learning area.

DramaContact: Mr D Sheehar

OUALIFICATION: NCEA LEVEL 2

Entry Guidelines

Students are required to have gained 15 credits at Level 1 Drama or may be accepted into Drama at the discretion of the Head of Drama.

Introduction

Drama is about exploring and developing ideas in inventive and imaginative ways and communicating those ideas in performance. Drama aims to help students gain self-confidence, self-discipline, self-awareness, respect for others and the ability to work in a team. Students will learn to present, perform and work collaboratively in groups with increased confidence through Drama.

Course Outline

Students sit three internally assessed practical Achievement Standards and one externally assessed written examination for a maximum of 18 credits.

Students learn about the social/historical context of a given Theatre Form; such as Epic Theatre or Elizabethan Theatre. They are taught the performative conventions and key skills of this Theatre Form and develop, refine and present a group

performance based on this Theatre Form. While it is a group performance, they are assessed individually.

Students read and learn about the theatrical and dramatic context of a given published play. They are cast in that play and rehearse and present that play to an audience of parents and friends over two evenings. These plays are presented as our SKC Play Series near the end of Term Two.

Students plan, develop, rehearse and present a devised drama focus on a particular theme of issue. They refine their learning about drama conventions and present their final work to an audience of peers.

Students view live theatre during the year and are required to analyse components of both the theatre they have viewed as an audience and performances they have been involved with during the year.

UE Approved

This subject leads to a Level 3 approved UE course.

Standards marked (R) can be counted as Reading credits for UE Literacy. $\ensuremath{\mathsf{R}}$

10 Credits from Level 1 Earth & Space Science OR HoD approval if student did not complete NCEA Level 1 Earth & Space Science.

Introduction

The Earth & Space Science course is a one year programme for students to study Earth, Space and Environmental Science.

Course Outline

Achievement Standards are drawn from Level 2 Sciences and cover Environmental Sustainability and Earth & Space Science.

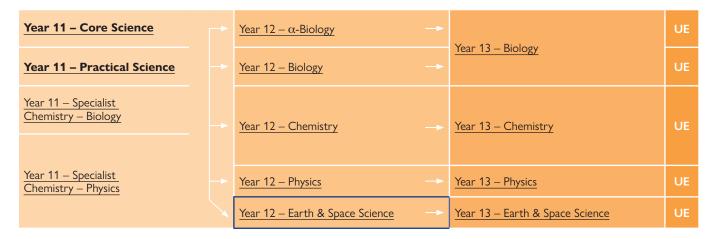

All Achievement Standards are internally assessed therefore no course endorsement is possible. However, the final internal assessment can be swapped for an external standard if a student wishes to qualify for course endorsement.

UE Approved

This subject leads to a Level 3 approved UE course.

Standards marked (N) can be used towards meeting UE Numeracy requirements.

Economics Contact: Mr P Venter

QUALIFICATION: NCEA LEVEL 2

Entry Guidelines

 $10\ credits$ from Level 1 Economics or subject to HoD Approval.

Recommended co-requisites are Level 2 Mathematics and English.

Course Outline

In Level 2 Economics, students examine the New Zealand economy from a macroeconomic perspective. Students will study key economic issues including unemployment, economic growth, and international trade and are required to analyse the causes and impacts of these issues. Students will then investigate government policy options which may be used to address these economic issues, such as fiscal, monetary, regulation and trade policies.

UE Approved

This subject leads to a Level 3 approved UE course.

Standards marked (R) and (W) can be counted as Reading and Writing credits for UE Literacy.

NOTE: **Bold** indicates a compulsory learning area.

English is a compulsory subject at Year 12. All Year 12 students study English at varying levels according to their individual learning preferences and requirements.

QUALIFICATION: NCEA LEVEL 2

Entry Guidelines

To enter the Level 2 Achievement Standards course we recommend 15 credits in Level 1 English be attained. Without these credits, students may be considered for the Level 2 Restricted English programme where class sizes are smaller.

Course Outline

Level 2 English is an integrated course involving:

- The study of literature (novel, poetry, drama, short story, film)
- Crafting a response in a variety of registers for different purposes and audiences
- The study of current written, spoken and visual language
- The investigation of a topic through independent reading

The course is designed to increase their exposure to language, competence and awareness of text types and audience; as well as developing an appreciation of literature.

Note: Optional Standards can be completed subject to HoD approval if a student requires further credits, OR if a student has a passion or skill to be developed in an area.

UE Approved

This subject leads to a Level 3 approved UE course.

Standards marked (R) and (W) can be counted as Reading and Writing credits for UE Literacy. Level 2 English will enable students to obtain sufficient literacy credits to fulfil University Entrance requirements.

OUALIFICATION: NCEA LEVEL 2

Entry Guidelines

12 credits or more in Level 1 Fashion and Textiles Design.

Course Outline

Level 2 Fashion and Textiles Design is designed to foster creative and critical practice in a project based environment. The primary focus of this specialist area is on the design of authentic and contemporary products within the context of fashion, textile and soft materials design. Level 2 is a specialised course that aims to extend the skills built in Level 1 Fashion and Textiles Design into more advanced areas of sustainability fashion illustration, pattern adaptation and construction. It has been developed with leading tertiary providers to ensure students are well prepared for future study and the industry.

Projects may develop skills such as; advanced pattern adaption to suit personal design ideas, professional fashion ideation and development, fashion styling and photography and work for local and national competitions.

Specialist areas that would be beneficial to study in support to Fashion and Textiles Design at Level 2 would be Visual Art – Photography, Visual Art – Design, Product Design and Visual Art – Painting and Printmaking.

Additional Course Costs & Special Requirements

- Students are required to supply their own fabric and patterns
- Individual student project requirements will determine if there are additional material costs

UE Approved & Future Pathways

This specialist area leads to a Level 3 approved UE course and multiple tertiary pathways including Product Design, Industrial Design, Fine Arts and Fashion and Textile Design.

ASSESSMENT

AS91337	Use visual communication techniques to generate design ideas	External	3
AS91345	Implement advanced procedures using textile materials to make a specified product with special features	Internal	6
AS91356	Develop a conceptual design for an outcome	Internal	6
	Total Possi	ble Credits	15

The nature of project based learning is fluid and designed to suit individual learners. To this end course content and standards offered are subject to change if deemed to be beneficial. Students will have an Individual Education Programme (IEP) to ensure there are no common standards in the areas of Technology. All external work is submitted as an academic report and/or a portfolio.

ACADEMIC PATHWAY

Year 11 − Fashion & Textiles Design → Year 12 − Fashion & Textiles Design → Year 13 − Fashion & Textiles Design UE

QUALIFICATION: NCEA LEVEL 2

Entry Guidelines

This is an open entry course, subject to approval from the Head of Commerce.

Introduction

Financial Literacy offers students the opportunity to complete Level 2 Unit Standards in a variety of business and personal financial management related topics. The aim of this course is to introduce students to some of the practical skills and knowledge they will require when they enter the workforce and become financially independent.

Course Outline

The topics covered in Level 2 Financial Literacy include:

- Employment Law
- Banking
- Budgets
- Consumer Law
- Insurance
- Report Writing

This is NOT a UE Approved Subject

While Financial Literacy does continue to Level 3, it is not a university approved subject. A subject endorsement is not possible in Financial Literacy.

ASSESSME	ENT		
US1979	Describe the Employment Relationship and application of Employment Law	Internal	3
US3492	Write a short report	Internal	3
US8555	Describe the purposes and application of consumer law	Internal	3

OUALIFICATION: NCEA LEVEL 2

Entry Guidelines

10 credits or more in Level 1 Food Technology.

Course Outline

Level 2 Food Technology is designed to foster creative and critical practice in an authentic, innovative project-based environment. Exploration across the realms of contemporary science, nutrition, design, and sustainability, will provide a holistic understanding of local and global food technologies. Building on and extending the skills learnt in Level 1 Food Technology with advanced processing procedures, this comprehensive practically driven course equips students with a diverse transferable skill set including time and resource management, planning, teamwork, costing, and project development.

The option of a Level 2 Unit Standards pathway covers a range of fundamental and diverse cooking techniques and industry-approved food safety standards to equip and empower students with the skills, independence and knowledge needed for both personal and vocational purposes. Full onsite training, will develop the techniques required to become a proficient barista and open doors to employment opportunities in the thriving food industry.

Assessment in this course will encompass a range of practical tasks and written assignments allowing students to demonstrate their understanding and application of food technology principles. Specialist areas that would be beneficial to study in support to Food Technology at Level 2 would be Visual Art – Photography, Visual Art – Design and at least one Science.

This course also offers a Unit Standard pathway. The aim is to give students experience in commercially recognised skills and knowledge and assessment. Students will have the opportunity to continue with Unit Standards at Level 3.

Contact: Ms J Horgan

Graded as Achieved or Not Achieved, these Unit Standards do not allow for course endorsement. They are not a requirement for the Level 3 Food Technology Achievement Standard course. These credits do however go towards the Level 2 NCEA Certificate.

Additional Course Costs & Special Requirements

- Items below are purchased through the Technology department
- Service IQ Unit Standard Assessment \$15
- Individual course projects may incur additional costs depending on the nature of their outcomes and resources required

UE Approved & Future Pathways

This course provides two assessment pathways for students interested in either University or trade-related courses and qualifications.

Achievement standards gained lead to a Level 3 Approved UE course and multiple tertiary pathways including Food Technology, Food Science and Nutrition.

Unit Standards gained lead into a Level 3 Unit Standard pathway in Level 3 Food Technology that uses industry recognised assessments.

In a full Year 12 NCEA course, all students study **six** learning areas. English is compulsory and **five** subjects are chosen from the table below.

QUALIFICATION: NCEA LEVELS 2 OR 3

Entry Guideliness

Subject to evidence of consistent good attendance to school and an informal interview with the Student Futures Team.

Course Outline

Gateway provides students with the opportunity for workplace learning across a wide range of industries and businesses while continuing to study at school. This strengthens the pathways for students to progress from school to work or further Tertiary study.

By completing a structured workplace experience, students will have a real understanding of what is required in the workplace, they will have gained some skill and knowledge in helping them decide on future pathways. Placements can be of varied lengths and are not guaranteed. An opportunity exists for students to participate in short courses that also provide industry certification e.g. Health & Safety 'Site Safe' Certificate.

Examples of courses available to students are:

- Construction and Carpentry
- Electrical
- Plumbing
- Mechanic
- Hairdressing and Beauty
- Journalism
- Hospitality
- · Early Childhood

Additional Cost

To cover the cost of PPE, external assessors and health and safety training, there is an additional charge of \$300.

This is NOT a UE Approved Subject

This course is not UE approved and does not have a pathway to UE.

ASSESSMENT

Students will be able to achieve NCEA credits that align with career interest or vocational pathways. Gateway programs of Industry standards are provided by Workforce development councils, Industry Training organisations, The NZ Institute of Skills and Technology along with private training organisations. Some assessments may be completed in the workplace.

ACADEMIC PATHWAY

Gateways is a one-year programme. It can only be taken in Year 12 OR Year 13.

Not offered at NCEA Level 1

Year 12 – Gateway

Year 13 – Gateway

Geography Contact: Mr J Mather

QUALIFICATION: NCEA LEVEL 2

Entry Guidelines

15 Credits in Level 1 Geography including passing the External Examination.

For students who have not previously studied Geography, but who wish to enter at Level 2, credits gained in another Social Science subject, and/or English will be used as the basis for entry.

Course Outline

Geography at Level 2 involves the detailed study of topics including:

- Economic Development
- Auckland upwards or outwards?
- The urban pattern of crime in Chicago
- The global pattern of Malaria
- Conducting geographic fieldwork

The skills and knowledge geography students acquire at this level will help them at Level 3 Geography.

Additional Course Costs & Special Requirements

Field trips are part of the Geography course. There are additional costs associated with these.

UE Approved

This subject leads to a Level 3 approved UE course.

Standards marked (R) can be counted as Reading credits for UE Literacy.

Any student who has not met the entry requirements must seek approval from the Head of Health Education prior to being admitted to the course.

Introduction

The NCEA Health program afford learners an amazing opportunity to develop important knowledge and excellent critical thinking skills in both New Zealand and International contexts, which are hugely relevant to the exponentially growing health and well-being sector.

Course Outline

The Level 2 NCEA Health program is both internally and externally assessed. Learning is designed to promote critical, problem solving thinking for real-word Health issues. Learning here provides a strong platform for further study and success in Level 3 Health Education.

The course of study involves a detailed analysis of:

- Addressing adolescent health issues of public concern and understanding the factors that influence well-being at personal, interpersonal, and societal levels
- Examining the effectiveness of strategies to cope with change and establish the meaning of resilience
- How to effectively take action and develop a workable plan to improve an aspect of people's well-being within the school
- Addressing issues related to sexuality and gender to promote inclusivity

The Health Education Course is designed to:

- Provide students with knowledge on a diverse range of topics and issues and perspectives
- Provide students with critical thinking and solution focused thinking to make important contributions to the well-being of the wider community
- Provide relevance to learners to guide them to tertiary or career relevant pathways

UE Approved

This subject leads to a Level 3 approved UE course.

ASSESSMEN	NT		
AS91235	Analyse an adolescent health issue	External	5
AS91236	Evaluate factors that influence people's ability to manage change	Internal	5
AS91237	Take action to enhance an aspect of people's well-being within the school or wider community	Internal	5
AS91239	Demonstrate understanding of issues related to sexuality and gender and to develop strategies for addressing the issues	Internal	5
	Total Possib	le Credits	20

ACADEMIC PATHWAY

Year 11 − Health Education → Year 12 − Health Education ← Year 13 − Health Education UE

In a full Year 12 NCEA course, all students study **six** learning areas. English is compulsory and **five** subjects are chosen from the table below.

History Contact: Mrs B Anitele'a

QUALIFICATION: NCEA LEVEL 2

Entry Guidelines

10 credits or more in Level 1 History. For those students who have not previously studied History but who wish to enter at Level 2, credits obtained in another Social Science subject, and/ or English will be used as the basis for entry.

Course Outline

History at Level 2 studies two topics across modern world history:

- No Shots Fired! Communism, Capitalism & MAD
 Cold War Tensions
- Crimes Against Humanity Nazi Germany & the Holocaust

Students are encouraged to:

- Develop their formal writing and research and enquiry skills
- Analyse and discuss historical arguments and debates.
- Defend an opinion or idea with relevant historical data
- Understand and use historical concepts

UE Approved

This subject leads to a Level 3 approved UE course.

Standards marked (R) and (W) can be counted as Reading and Writing credits for UE Literacy.

ASSESSMENT

AS91229 (R)	Carry out an inquiry of an historical event, or place, that is of significance to New Zealanders	Internal	4
AS91230 (R)	Examine an historical event, or place, that is of significance to New Zealanders	Internal	5
AS91231 (R/W)	Examine sources of an historical event that is of significance to New Zealanders	External	4

QUALIFICATION: NCEA LEVEL 2

Entry Guidelines

15 credits from Level 1 Mathematics.

Strongly recommend Merit or higher level grades for entry.

Course Outline

There is an emphasis on algebraic processing and a large jump in the mathematical understanding from Year 11 to Year 12 Mathematics.

The course covers:

- Algebraic processes
- Graphical methods
- Introduction to calculus including both differentiation and integration
- Trigonometric relationships

Mathematics for Calculus is designed for students who wish to study Calculus in Year 13 but will also allow entry into Statistics.

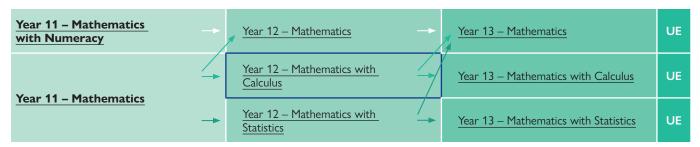

Students will achieve competence in basic algebraic, graphical and computational skills, and develop a broad foundation for further studies in Mathematics and allied subjects.

UE Approved

This subject leads to a Level 3 approved UE course.

Standards marked (N) can be used towards meeting UE Numeracy requirements.

ASSESSMEN	NT

Entry Guidelines

15 credits from Level 1 Mathematics.

Strongly recommend Merit or higher level grades for entry.

Course Outline

The emphasis of Mathematics with Statistics is to provide students with the analytical, statistical and probability skills and knowledge required for further studies in Statistics and allied subjects.

This course covers:

- Probability
- Writing and evaluating statistically based reports
- Questionnaire design
- Sample-to-population inference
- Investigating simulations

Basic graphical and computational skills are required and will be developed throughout the course.

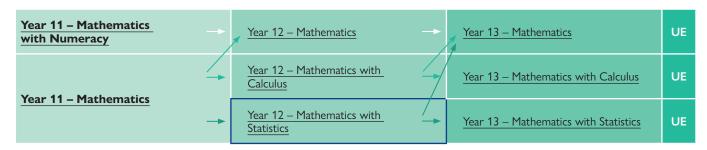

UE Approved

This subject leads to a Level 3 approved UE course.

Standards marked (N) can be used towards meeting UE Numeracy requirements.

Standards marked (R) can be counted as Reading credits for UE Literacy.

Media Studies Contact: Mr L Oliver

QUALIFICATION: NCEA LEVEL 2

Entry Guidelines

At least 10 credits in Level 1 Media Studies, or comparable Level 1 English credits.

A strong interest in Media and Film.

Introduction

People today are plugged in '24/7' and for the most part, we struggle to understand the media messages which bombard us. Media Studies helps students critically examine the role of the media in their lives as more than simply forms of entertainment but in the shaping of identity and how students see the world. Students then apply this knowledge into practical production.

Course Outline

Media Studies at Level 2 continues developing students and their ability to tell stories and create media for audiences. By examining narrative and genre in greater depth, students can grow as critical thinkers and make connections between audience engagement and expectations, commercial considerations and society developments. A cornerstone of that is studying horror films and understanding why they are big business. To ensure students are able to produce quality work, in groups students will allocate a script writer and the remaining team will develop the film treatment.

Students will develop their skills in using industry level equipment and editing software, Adobe Premiere Pro. The production standard will require students to create a truly terrifying horror sequence.

Additional Course Costs & Special Requirements

- Access to an external hard drive for video storage (minimum 250GB)
- An 8GB SD card

UE Approved

This subject leads to a Level 3 approved UE course.

ASSESSMENT

AS91249	Demonstrate understanding of narrative in media texts	Internal	4
AS91251 (W)	Demonstrate understanding of an aspect of a media genre	External	4
AS91252	Produce a design and plan for a developed media product, using a range of conventions	Internal	4

Music Contact: Ms M Lin

QUALIFICATION: NCEA LEVEL 2

Entry Guidelines

Achievement of at least 20 credits at Level 1 Music.

Students who have not completed Level 1 Music can enter Level 2 Music at the discretion of the Head of Music. In these cases proof of evidence in practical and theoretical music is mandatory.

Course Outline

Level 2 Music encourages further awareness of a wide range of music and develops skills in solo and group performance, composition and listening. Historical studies and the analysis of two selected works will develop understanding of the range and development of musical styles. Students should be practising musicians and are expected to participate in College music groups.

This course allows them to specialise in practical music, music studies, or a combination of both. The balance of the course is chosen from a wide range of practical music and music studies standards.

UE Approved

This subject leads to a Level 3 approved UE course.

Standards marked (W) can be counted as Writing credits for UE Literacy.

ASSESSMENT						
AS91270	Perform two substantial pieces of music as a featured soloist	Internal	6			
AS91272	Demonstrate ensemble skills by performing a substantial piece of music as a member of a group	Internal	4

NOTE: **Bold** indicates a compulsory learning area.

QUALIFICATION: NCEA LEVEL 2

Entry Guidelines

NCEA Level 1 Music or evidence of involvement in an area of Music such as (but not limited to) performance, songwriting or music technology.

Introduction

This is an NCEA Level 2 Music course with a contemporary focus. This is a course focused on contemporary instrumental, vocal performance and songwriting. Students will be equipped with the knowledge and skills to operate on sound and music gear and will expand their musical knowledge through analysis and research. Students will use a project-based approach to develop these skills and will be given opportunities to develop their skillset.

Students are expected to participate in College music groups and to contribute to full College music events. It is also recommended that students have instrument lessons to assist with their personal development on their performance instrument of choice (this includes voice).

Course Outline

Students in Contemporary Music follow a course which draws on aspects of the NCEA music course with the potential to add standards from the Performing Arts Technology Standards and Music Technology Standards.

This is a practical course requiring individual and group work with positive attitude, effort and an open-mind to create, recreate and connect with the music industry. We work closely with NZ Music Commission to provide mentoring and workshop opportunities for our students.

Under most circumstances this course cannot be taken in conjunction with Level 2 NCEA Music. However, this can be discussed with Head of Music.

Students who complete Level 2 Contemporary Music can progress to the NCEA Level 3 Music course.

UE Approved

This subject leads to a Level 3 approved UE course.

ASSESSM	ENT		
AS91217	Compose two substantial pieces of music	Internal	4
AS91270	Perform two substantial pieces of music as a featured soloist	Internal	6
AS91271	Perform a substantial piece of music as a featured soloist on a second instrument	Internal	6

QUALIFICATION: NCEA LEVEL 2

Entry Guidelines

Students must have attained 15 credits in Level 1 English.

Prospective students must demonstrate a passion and genuine interest in education in the outdoors. Students can only take one Physical Education or Outdoor Education course.

Due to the restricted number of students accepted because of health and safety regulations, a letter of application will be required.

Introduction

As a key area of learning within the Health and Physical Education Curriculum, Outdoor Education provides students with opportunities through Achievement Standards to develop personal and social skills such as decision making skills, leadership, and confidence through challenge based activities and achievements. Students will become actively knowledgeable, safe, and skilled in the outdoors, with care for the environment a paramount focus.

Course Outline

- To provide opportunity for personal development through the adventure and challenge of outdoor pursuits
- To develop the initiative and leadership skills of accepting responsibility, coping with adversity and decision making

- To provide opportunities for social development, caring, cooperation and acceptance of individual differences through shared experiences and communal living
- To gain experience in a wide range of outdoor activities and to extend their competence in one or more
- To examine the concept of outdoor education as a worthwhile, lifelong interest and its potential for employment

Additional Course Costs & Special Requirements

Approximate additional cost of \$1,200. This covers the costs associated with professional providers and field trips. Optional trips are offered at additional costs.

Modules Include (indicative Only):

- Tramping and Canyoning
- Scuba Diving Open Water Certificate (may include additional costs)
- Poor Knights Dive (optional)
- Adventure Race Event
- White water kayaking
- WERO Whitewater Centre
- Day Skipper Course (may incur additional costs).
- Sailing (day trip)

UE Approved

This subject leads to a Level 3 approved UE course.

QUALIFICATION: NCEA LEVEL 2

Entry Guidelines

Students can **only study one** Physical Education or Outdoor Education. Students must have attained 15 credits or more in Level 1 Physical Education, or 15 credits or more in both Level 1 Science and English. Any student who has not met the entry requirements must seek approval from the Head of Physical Education prior to being admitted to the course.

Introduction

The Physical Education program afford learners an amazing opportunity to develop important knowledge and excellent critical thinking skills in both New Zealand and international contexts, which are hugely relevant to the exponentially growing sport, physical activity, and well-being sector. This is an in depth study of sport science, sport and physical activity issues in a contextually rich syllabus. The course is designed to provide relevance to learners to guide them to tertiary or career relevant pathways.

Course Outline

The Level 2 Physical Education program is internally assessed. Learning is designed to promote critical thinking. Learning here provides a strong platform for further study and success in Level 3 Physical Education.

The course of study involves a detailed analysis of:

- Understanding how functional anatomy and biomechanical principles affect the performance of sporting skills
- Applying principles and methods of training to sporting performance
- Implement motor skill learning principles in a performance improvement program
- Develop physical skills to a national standard (contexts include Volleyball, Basketball, and a sport of the students choosing)
- Examine the significance of a sporting event for themselves, others, and society

Physics Contact: Mr J Naude

QUALIFICATION: NCEA LEVEL 2

Entry Guidelines

10 credits in NCEA Level 1 Science and would benefit from Year 11 General Science with Physics.

Introduction

This course is designed for students with a real interest in the physical world around them and who are considering further study at a Tertiary Institution in courses where Physics is a recommended or required subject e.g. Medicine, Architecture, Engineering etc. The successful completion of this course will allow entry into the Level 3 NCEA Physics course.

Course Outline

- Investigate physical phenomena in the areas of mechanics, electricity, electromagnetism, heat, light and waves, atomic and nuclear physics and produce qualitative and quantitative explanations for a variety of unfamiliar situations
- Analyse data to deduce complex trends and relationships in physical phenomena
- Use physics ideas to explain a technological or biological application of physics

Additional Course Costs & Special Requirements

Physics workbook and Course Notes.

UE Approved

This subject leads to a Level 3 approved UE course.

Product Design Contact: Mr G Horsnell

QUALIFICATION: NCEA LEVEL 2

Entry Guidelines

12 credits or more in Level 1 Product Design

Course Outline

Level 2 Product Design has been developed to foster creative and critical practice in a project based environment. The primary focus of this specialist area is on the design of authentic and contemporary products within a given context. Level 2 is a diverse course that aims to extend the skills built in Level 1 Product Design into more advanced problems and projects. Projects may develop skills such as; the research and development of innovative products ideation and development skills specific to students' chosen design and incorporation of advanced practical processes.

Additional Course Costs & Special Requirements

Individual student project requirements will determine if there are additional material costs.

Achievement Standard and Unit Standard Pathways

This Achievement Standards course can be studied along side the Level 2 Building and Construction Unit Standard Trade course also offered within Technology.

Specialist areas that would also be beneficial to study in support to Product Design at Level 2 would be Visual Art – Design, Design and Visual Communication (DVC), Visual Art – Sculpture, Physics and Fashion and Textiles Design.

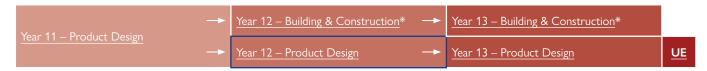

UE Approved & Future Pathways

This Achievement Standards pathway leads to a Level 3 approved UE course and multiple tertiary pathways such as Product Design, Engineering and Industrial Design.

ASSESSMENT

	Total Possil	ole Credits	16
AS91358	Demonstrate understanding of how technological modelling supports risk management	External	4
AS91344	Implement advanced procedures using resistant materials to make a specified product with special features	Internal	6
AS91356	Develop a conceptual design for an outcome	Internal	6

The nature of project based learning is fluid and designed to suit individual learners. To this end course content and standards offered are subject to change if deemed to be beneficial. Students will have an Individual Education Programme (IEP) to ensure there are no common standards in the areas of Technology. All external work is submitted as an academic report and/or a portfolio.

In a full Year 12 NCEA course, all students study **six** learning areas. English is compulsory and **five** subjects are chosen from the table below.

QUALIFICATION: NCEA LEVEL 2

Entry Guidelines

The student selecting this course would benefit from having 10 credits in Level 1 Te Reo Māori.

Introduction

At Level 2 NCEA, levels 5,6 & 7 from the Curriculum guidelines for teaching and learning Te Reo Māori are covered. At this level, contexts covered reflect te ao torotoro and focus on students' local communities, for example, their school, sporting, or marae communities. Students are expected to demonstrate that they can explore different ideas and perspectives and give informed opinions. We will study three units during the year.

- Oranga Tinana (Wellbeing of the body)
- Oranga Hinengaro (Wellbeing of the mind)
- Oranga Ngākau (Wellbeing of the heart)

Course Outline

The focus of this course is to explore and extend their communication skills on a range of topics in Te Reo Māori through exploration of ideas and perspectives developed from a Māori worldview expressed through te reo Māori. This will enable students of Te Reo Māori to be culturally confident and competent to participate in and contribute to Māori language and culture revitalisation within their communities.

Students of Te Reo Māori will develop self-managing skills and strategies that will enable them to know when to lead or follow, and when and how to act independently or collectively for the benefit of te ao Māori.

Students who engage with Kapa Haka have an enriched experience in this course of study.

UE Approved and Future pathways

This subject leads to a Level 3 approved UE course.

Te Reo Māori supports further learning and promotes the normalisation of te reo Māori in the areas of: broadcasting, journalism, education, arts, entertainment, business, tourism, hospitality, local and central government, health, languages, sports administration, marketing, management, law, corrections, public speaking, iwi development, volunteering, community services, farming and agriculture, primary industries, Treaty settlements, translating and interpreting services.

Travel & Tourism Contact: Mr J Mather

QUALIFICATION: NCEA LEVEL 2

This is a two year course taken at Years 12 and Year 13.

Entry Guidelines

60 credits at Level 1 or students with a special interest in Travel and Tourism. Subject to the discretion of the Teacher in Charge.

A functioning computer notebook with internet access is compulsory for this course.

Course Outline

Travel and Tourism comprises an introduction to the travel and hospitality industries in New Zealand and Australia.

Travel and Tourism has been designed for secondary school students and provides students with an introduction to the tourism industry. This course prepares students for entry to the National Certificate in Tourism.

Additional Course Costs & Special Requirements

The fees for the Unit Standards are for the student manuals and will be approximately \$130.

This figure is based on 2022 costs and is subject to change.

This is NOT a UE Approved Subject

While Travel & Tourism does continue to Level 3, it is not a university approved subject. A subject endorsement is not possible in Travel and Tourism.

ASSESSMEN	NT			
US24728	Demonstrate knowledge of work roles in tourism	Internal	3	
US24729	Demonstrate knowledge of world tourist destinations	Internal	4

	(unit standards course)	(unit standards course)

NCEA Level 3 Curriculum

At Year 13, the qualification for NCEA students is NCEA Level 3. Top achieving students may also choose to enter NZQA Scholarship exams. All students at Level 3 study Christian Education.

he majority of Year 13 NCEA students choose five learning areas. For most students these will be all Level 3 NCEA subjects, however, where appropriate, some students may have a multi-level combination of Level 1, 2 and/ or 3 courses.

Most Level 3 subjects will have a combination of both internally and externally assessed Achievement Standards. Each of these Achievement Standards has a credit value of between 14 and 20 credits. For a student to be awarded NCEA Level 3, they must attain a minimum of 80 credits, 60 of which must be Level 3 standards.

Different NCEA requirements exist for University Entrance and for a variety of restricted entry courses. A section at the back of this coursebook has information about prerequisites for entrance to University. This is intended as a guide only as changes may occur. Further details can be obtained from the University websites, or Student Services.

The additional NZQA Scholarship qualification is available in Level 3 subjects to highly capable students. Students may enter one or more Scholarship examinations, in addition to their NCEA Level 3 assessments. These students are identified early and mentored across the year in preparation for this additional qualification.

Please note a minimum number of 10 students is required to create a standard alone class. Composite level classes may be offered, but these are subject to resourcing.

Accounting Contact: Mrs K Naude

QUALIFICATION: NCEA LEVEL 3

Entry Guidelines

13 credits in Level 2 Accounting.

Recommended co-requisites are Level 3 English and Level 3 Mathematics with Calculus or Mathematics with Statistics.

Course Outline

The defined course of study for Level 3 Accounting is focused on Partnerships, Companies and Management Decision Making. These three topics are developed under the following learning strands:

- The conceptual basis which places emphasis on the statement of concepts and the financial reporting standards together with their applications
- The processing of information through the entire system for each topic
- Accounting reports and the associated legal obligations for each business entity
- Decision making which includes the analysis and the preparation of specific management accounting reports

The skills mastered include problem solving, development of written communication skills, presentation of Financial Reports, and analytical skills for effective management and success in the competitive structure of business entities.

UE Approved

This subject is an approved UE course of study.

Standards marked (R) and (W) can be counted as Reading and Writing credits for UE Literacy. Standards marked (N) can be used towards meeting UE Numeracy requirements.

OUALIFICATION: NCEA LEVEL 3

Entry Guidelines

14 credits in Level 2 Animation and Motion Graphics.

Course Outline

Level 3 Animation and Motion Graphics is designed to foster creative and critical practice in a project based environment. The primary focus of this specialist area is on the design of authentic and contemporary outcomes. Level 3 is a more specialised course that aims to introduce students to the diverse world of animation and is underpinned by the ability to develop convincing narratives. It has been developed to ensure students are well prepared for future study and the industry. Projects may develop skills such as: the ideation and development of narrative; ideation and modeling; how to cut and produce a compelling show reel; how to manage long term projects; the presentation of ideas in an authentic exhibition environment alongside the advancement of complex digital processes and software to animate outcomes.

Specialist areas that would be beneficial to study in support of Animation and Motion Graphics at Level 3 would be Visual Art Design, Visual Art – Painting and Printmaking, Visual Art – Sculpture and Computer Science.

Additional Course Costs & Special Requirements

- Individual student project requirement will determine if there are additional material costs
- A Laptop computer able to run the Adobe Suite and 3D animation software – 16GB of RAM is recommended.
- Wacom Tablet is recommended, especially if not using a digitizer enabled laptop

UE Approved & Future Pathways

This specialist area is a Level 3 approved UE course and leads to multiple tertiary pathways including Digital Design, Game Design and Development, Communication Design and Industrial Design.

ASSESSMENT

AS91907	Use complex processes to develop a digital technology outcome	Internal	6
AS91908	Present a reflective analysis of developing a digital outcome	External	3
AS91903	Use complex techniques to develop a digital media outcome	Internal	4
AS91609	Undertake project management to support technological practice	Internal	4

Total Possible Credits 17

The nature of project-based learning is fluid and designed to suit individual learners. To this end course content and standards offered are subject to change if deemed to be beneficial. Students will have an Individual Education Programme (IEP) to ensure there are no common standards in the areas of Technology. All external work is submitted as an academic report and/or examination.

Art - Design

OUALIFICATION: NCEA LEVEL 3

Entry Guidelines

Preference will be given to students who have completed Level 2 Visual Art. All other students will be subject to HoD approval. Please contact Mr Stratton if you have questions about the course.

Course Outline

Level 3 Art - Design is best understood as Art that has a set function to promote, advertise or communicate an event, product or message. Design is a practical course and students will produce visual outcomes such as logos, posters and other promotional material for set briefs of an imagined but realistic design context that they will decide. Design can also include Character Design. Outcomes can include 3D packaging and Animation.

In Art – Design students will complete internal achievement standards and a 3 x A1 panel folio board external that presents a systematic body of work.

Students will work with combinations of hand made and digital approaches depending on their strengths and will develop a sound control industry standard software including Adobe Illustrator, Photoshop and Indesign. An 8-page scholarship submission is also encouraged for the most committed students.

Specialist areas that would be beneficial to study in support to Visual Art - Design would be Visual Art - Visual Art -Photography, Painting, Printmaking or Sculpture.

Additional Course Costs & Special Requirements

- A reliable laptop that can run Adobe Creative software such as Illustrator and Photoshop. In school iMacs are available for use
- Printing and folio board printing costs > \$50

UE Approved & Future Pathways

This is a UE approved course and leads towards multiple tertiary pathways. Previous Design students have gone on to study a diverse range of subjects including Architecture, Medicine and Engineering. More specifically students can pursue an Art related path that could include Communication Design, Fine Arts, Digital Design or Industrial Design.

ASSESSMENT

Art – Painting Contact: Mr R Strattor

QUALIFICATION: NCEA LEVEL 3

Entry Guidelines

Preference will be given to students who have completed Level 2 Art in any specialism. All other students will be subject to HoD approval. Please contact Mr Stratton if you have questions about the course.

Course Outline

Level 3 Visual Art — Painting is a mostly practical course that develops further from Level 2 with a continued focus on the specialist area of Painting. Students will select their own theme for their work at Level 3. Through practical experimentation and research students will make links to artist models both contemporary and traditional. They will locate their own art making practice in the context of Art history and their ideas and intentions will be presented in visual form. In Art — Painting students will complete at least one internal achievement standard and a 3 x A1 panel folio board external that presents a systematic body of work. Approaches can include portraiture, landscape, abstraction etc. and both traditional painting and digital approaches are encouraged.

An 8-page scholarship submission is also encouraged for the most committed students.

Specialist areas that would be beneficial to study in support to Visual Art – Painting would be Visual Art – Design, Photography, Printmaking or Sculpture.

Additional Course Costs & Special Requirements

A set of art materials from Gordon Harris can be supplied to the student at the beginning of the course at a discounted cost of \$80. This will be dependent on materials student has remaining from Level 2 Painting.

UE Approved & Future Pathways

This is a UE approved course and leads towards multiple tertiary pathways. Previous Painting students have gone on to study a diverse range of subjects including Architecture, Medicine and Engineering. More specifically students can pursue an Art related path that could include Fine Art, Art and Design, Communication Design, Digital Design or Industrial Design.

QUALIFICATION: NCEA LEVEL 3

Entry Guidelines

This is an open entry Level 3 Art course. Please see Mr Stratton if you have questions about the course.

Course Outline

Level 3 Printing is a hands on, practical focussed art course designed for those students interested in the art of printmaking. The course will focus on an Aotearoa/New Zealand perspective including the important histories of Māori and Pasifika. Students will explore a range of printmaking techniques including woodcut carving, plexi-plate etching, silkscreen and stencils. This is a new course in 2024 and is also designed for those students who may not have taken Art since middle school. Students will locate their own art making practice in the context of Art history and their ideas and intentions will be presented in visual form. In Printmaking students will complete a single internal achievement standard and a 3 x A1 panel folio board external that presents

a systematic body of work. Approaches can include portraiture, landscape, patterns and symbolism, abstraction etc. and both traditional printing and digital approaches are encouraged.

Additional Course Costs & Special Requirements

A basic set of art materials and a sketchbook are required for this course. These can be purchased through the art department at a discounted rate.

UE Approved & Future Pathways

This specialist area leads to a Level 3 approved UE course and multiple tertiary pathways. Previous Art students have gone on to study a diverse range of subjects including Architecture, Medicine and Engineering. More specifically students can pursue an Art related path that could include Fine Art, Art and Design, Communication Design, Digital Design or Industrial Design.

Art – Sculpture Contact: Mr R Stratton

QUALIFICATION: NCEA LEVEL 3

Entry Guidelines

Preference will be given to students who have completed Level 2 Visual Art in any specialism. All other students will be subject to HoD approval. Please contact Mr Stratton if you have questions about the course.

Course Outline

Level 3 Visual Art – Sculpture is a practical course that develops further from Level 2 with a continued focus on the specialist area of Sculpture. This is the one to select if you are a problem solver and have a love for making stuff! Students will develop a body of work throughout the year that explores the conventions of sculpture within a self selected theme. Through practical experimentation and research students will make links to artist models both contemporary and traditional. They will locate their own art making practice in the context of Art history and their ideas and intentions will be presented in visual form. In Sculpture students will complete a single internal achievement standard and a 3 x A1 panel folio board external that presents a systematic body of work. Approaches can include carving, assembling, modelling and casting and more contemporary approaches of found object and installation.

In Visual Art – Sculpture students will complete a single internal achievement standards and a $3 \times A1$ panel external folio board that presents a systematic body of work.

An 8-page scholarship submission is also encouraged for the most committed students.

Specialist areas that would be beneficial to study in support to Visual Art – Sculpture would be Visual Art – Design, Painting, Photography or Printmaking.

Additional Course Costs & Special Requirements

- Sculpture is the most individualised of all the Art subjects. Students will need to source some specific materials dependent on their ideas. Much of this can be sourced cheaply from secondhand stores or \$2 shops. All standard Sculpture materials will be provided by the school
- A reliable laptop and an SD card for Photographing all work
- Folio board print costs > \$50

UE Approved & Future Pathways

This is a UE approved course and leads towards multiple tertiary pathways. Previous Painting students have gone on to study a diverse range of subjects including Architecture, Medicine and Engineering. More specifically students can pursue an Art related path that could include Fine Art, Art and Design, Communication Design, Digital Design or Industrial Design.

Biology Contact: Mr S Martin

QUALIFICATION: NCEA LEVEL 3

Entry Guidelines

A minimum of 15 credits in Level 2 Biology.

It is recommended there be a literacy level equivalent to 14 credits at Level 2 English.

This course is required for those students wanting to take Scholarship Biology.

Course Outline

The course content comprises:

- Two externals: Behaviour of animals and responses of plants to the environment and human evolution
- Three internals: Homeostasis and diabetes, Genetic Manipulation and Sugar Tax

Students successfully completing the course should acquire:

- Knowledge and understanding of biological principles and facts through independent and cooperative investigations and study
- An appreciation of the relevance of Biology for informed decision making on current issues

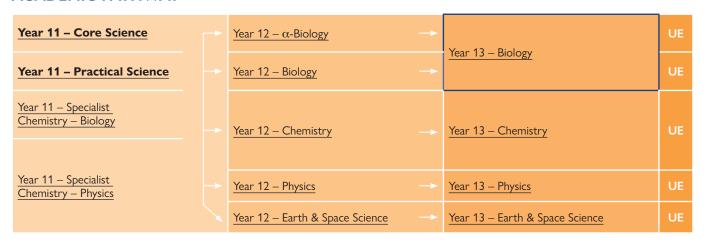

UE Approved

This subject is an approved UE course of study.

Students must gain 14 credits or more in order to use Biology as a University Entrance subject.

Standards marked (R) and (W) can be counted as Reading and Writing credits for UE Literacy.

	ASSESSMEN	Т		
	AS91602 (R/W)	Integrate biological knowledge to develop an informed response to a socio-scientific issue	Internal	3

QUALIFICATION: NCEA LEVEL 3

Entry Guidelines

To have completed Level 2 Building and Construction (Previously known as – Product Design Unit Standard Course)

Course Outline

Level 3 Building and Construction is a Unit Standard course and has been developed for those students who have an interest in the practical nature of making timber-based projects and are interested in trade related skills. The primary focus is making projects that are donated as part of service. Projects may include outdoor playhouse, children's playground items or outdoor furniture. Projects are made in groups and are gifted to the community. All practical work is supported by theory-based reflections and written assessments.

All assessments are Unit Standards and are provided by the Building and Construction Industry Training Organisation (BCITO) which provides apprenticeship and supervisor qualifications for the New Zealand building and construction industry. BCITO has been appointed by the Government to develop professional qualifications and set standards for the industry.

This is NOT a UE Approved Subject

Level 3 Building and Construction is not a university approved subject. A subject endorsement is not possible in this course.

Note: This course is available for students who have also selected Year 13 Product Design and meet the prerequisites for this subject.

ASSESSMENT

US29681	Measure and calculate for a stage 3 BCATS project	3
US29678	Demonstrate knowledge of, select, and use materials for a Stage 3 BCATS project	4
US29679	Develop and use BCATS project documentation for a Stage 3 BCATS project	8
US29682	Select, use, and maintain tools, equipment and machinery for a Stage 3 BCATS project	4

Total Possible Credits 18

The nature of project-based learning is fluid and designed to suit individual learners. To this end course content and standards offered are subject to change if deemed to be beneficial.

The majority of Year 13 NCEA students choose **five** subjects.

Business Contact: Mrs T Ramakers

OUALIFICATION: NCEA LEVEL 3

Entry Guidelines

16 credits from Level 2 Business including 90848 and one external Level 2 Business Achievement Standard or subject to HoD approval.

For those students who have not previously studied Business but who would like to enter at Level 3, credits obtained in another Social Science will be used as the basis for entry.

Introduction

The Level 3 Business Course allows students to analyse how and why New Zealand businesses, which operate in global markets, make operational and strategic decisions in response to interacting internal and external factors. The learning objective at this level is in the context of a New Zealand registered business connected to students' lives operating in global markets (exporters, importers, New Zealand owned multinationals). The business can be small, medium, or large but should operate in the global market.

Students will need to demonstrate the essential skills of:

- Analysing real New Zealand business case studies and using these examples to support their reasoning throughout all written assessment tasks
- Critical thinking and problem solving both collaboratively and independently
- Building interpersonal skills with other students in the course and external global business stakeholders

Course Outline

The standards offered allow students to:

- Develop, carry out and evaluate an innovative, sustainable business activity
- Develop a marketing plan which will require market research, a marketing strategy, marketing budget, contingency plan and implementation of the plan
- Learn business knowledge, concepts and content related to quality management, innovation, and change management
- Learn and use Māori concepts and values used in business

UE Approved

Business is an approved UE course of study.

Standards marked (R) and (W) can be counted as Reading and Writing credits for UE Literacy.

ASSESSMEN	ІТ		
AS91379 (R/W)	Demonstrate understanding of how internal factors interact within a business thoperates in a global context	nat External	4
AS91382 (R)	Develop a marketing plan for a new or existing product	Internal	6
AS91384 (R)	Carry out, with consultation, an innovative and sustainable business activity	Internal	9

Chemistry Contact: Mrs S Mellsop

QUALIFICATION: NCEA LEVEL 3

Entry Guidelines

Students selecting Year 13 Chemistry are recommended to have achieved at least 12 Credits in NCEA Level 2 Chemistry.

Course Outline

An understanding of the behaviour of molecules on both microscopic and macroscopic levels. Included is sufficient laboratory work for the student to be competent in a variety of procedures and use of specialist chemical equipment. Chemistry at Level 3 extends the work covered in the Level 2 course.

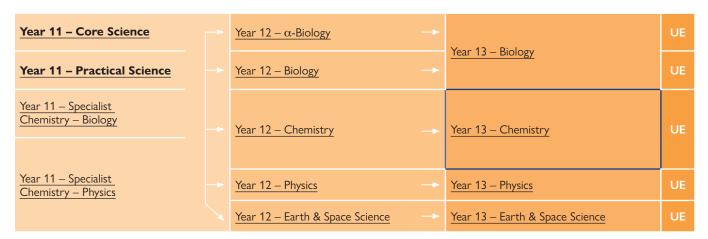

Students will gain an understanding of the following concepts and ideas by the end of the course.

- Thermochemical principles, bonding and structure –
 The internal organisation of atoms and molecules and
 the patterns that occur. Using the patterns to predict
 chemical and physical behaviour of substances and the
 energy changes in a chemical reaction
- Organic compounds The chemistry of carbon compounds bonded to H, O, Cl and N
- Redox The electron transfer processes in chemical reactions and the implications of these. The use of redox equations in electrochemical and electrolytic cells

UE Approved

This subject is an approved UE course of study.

Chinese Contact: Ms T Yan

QUALIFICATION: NCEA LEVEL 3

Entry Guidelines

14 credits in Level 2 Chinese (2 Internal and 1 External Reading or Listening).

Course Outline

Chinese is the most widely spoken language in the world. Because of the large, prosperous economy and the developing trading relationship with New Zealand, it is currently a relevant and very popular foreign language to learn. This Chinese course aims to give students an advantage in the increasingly competitive business world by further enhancing receptive and productive language skills in the target language, with particular emphasis on extending the repertoire of vocabulary and language features.

There is an emphasis on extending the range of language to enable students to explore ideas and perspectives, and justify ideas and connections between cultures.

UE Approved

This subject is an approved UE course of study. This emphasis enables students to explore ideas and perspectives, and justify ideas and connections between cultures.

ASSESSMEN	IT		
AS91533	Demonstrate understanding in Chinese on a variety of extended spoken texts	External	5
AS91534	Give a clear spoken presentation in Chinese that communicates a critical response t stimulus material	o Internal	3
AS91536	Demonstrate understanding of a variety of extended written and / or visual Chinese texts	External	5
AS91537	Write a variety of text types in Chinese to explore and justify varied ideas and perspectives	Internal	5

Introduction

Christian values are an intrinsic part of the special character of Saint Kentigern College and all Year 13 students take Christian Education. The Christian Education Department is constantly evolving its programmes to ensure that they are interesting, relevant and challenging for our students in their development as young men and women on their faith journeys — whatever they perceive that to be. In the Senior School, a wide range of relevant and contemporary resources are used in what is generally an informal, discussion-based, non-assessed theological and philosophical exploration of issues of Christian life and faith.

Course Outline

The aim of the Year 13 course is to further build upon and enhance students' awareness and understanding of the Judeo/ Christian view of life and living, to equip them to interface with the world outside the constraints and special nature of the Saint Kentigern College community. With the Ten Commandments as the scriptural basis, the special character of Saint Kentigern College as the context, and supported by a wide range of contemporary resources, students will be encouraged to participate in an in-depth exploration of morality, conscience and, more specifically, issues of morality that will impact upon students' lives at some point.

Assessment

There is no formal assessment for this course.

Classical Studies Contact: Dr A Rene

OUALIFICATION: NCEA LEVEL 3

Entry Guidelines

Classical Studies is an interdisciplinary subject with a strong focus on the study of ancient Greece and Rome. The subject acts as a natural gateway for all highly academic literary (and even non-literary) subjects in Tertiary education as it is structured in a similar way. Within this subject, there is an emphasis on exploring the way in which the cultural traditions of ancient Greco-Roman societies reflect upon us today. This multidisciplinary subject includes the study of history, ancient philosophy, mythology, ancient art and architecture, archaeology, and social customs.

Classical Studies prides itself on being inclusive of all learning styles and methods. The subject offers a greater understanding, not only of the ancient world, but of the systems and institutions that govern us in the present times.

The aim of this subject is for students to develop their knowledge and understanding within an enjoyable academic setting as it offers practical academic skills that can be applied to many other disciplines. Furthermore, it also gives the opportunity to follow what interests the individual wishes to develop, expands upon their own skillset, and allows for learning in a dynamic environment.

Course Outline

- Roman Art and Architecture: examination of ancient Architecture and the ideologies they reflect
- Alexander the Great examination of the success, failures and ideologies of the Greek leader, Alexander the Great
- Heroes examination of heroes and heroines over time

UE Approved

This subject is an approved UE course of study.

Standards marked (R) and (W) can be counted as Reading and Writing credits for UE Literacy.

ASSESSMENT

AS91395 (R)	Analyse the significance of a work(s) of art in the classical world	External	4
AS91396 (R/W)	Analyse the impact of a significant historical figure in the classical world	External	6
AS91397 (R)	Demonstrate understanding of significant ideology(ies) in the classical word	Internal	6
AS91398 (R)	Demonstrate understanding of the lasting influences of the classical world and other cultures	Internal	6

Total Possible Credits 22

Entry Guidelines

13 credits in Level 2 Computer Science.

Course Outline

Level 3 Computer Science is a dynamic course that fosters creative and critical thinking in a project-based environment, with a primary focus on designing authentic and contemporary digital products. Proficiency in high-level programming skills is of utmost importance in this specialist area. These skills enable efficient development of complex software systems, applications, and algorithms, while allowing programmers to focus on problemsolving and abstract concepts. As technology advances, the demand for individuals with strong high-level programming skills continues to grow, making it an essential asset for future studies and industry preparation.

Specialist areas that would be beneficial to study in support to Computer Science at Level 3 would be Visual Art – Design, Animation and Motion Graphics and Design and Visual Communication.

Additional Course Costs & Special Requirements

Students must have a laptop computer that meets the following requirements:

The ability to run the Adobe Suite and Unity software –
 16GB RAM is recommended

UE Approved & Future Pathways

This specialist area is a Level 3 approved UE course and offers versatile tertiary pathways, including software development, data science, artificial intelligence, cybersecurity, web development, database administration, network engineering, IT project management, computer graphics, and research/academia. It provides a wide range of opportunities for specialization and growth in various industries.

Standards marked (N) can be used towards meeting UE Numeracy requirements.

ASSESSMENT

AS91903	Use complex techniques to develop a digital media outcome	Internal	4
AS91906	Use complex programming techniques to develop a computer programme	Internal	6
AS91907	Use complex processes to develop a digital technologies outcome	Internal	6
AS91909 (N)	Present a reflective analysis of developing a digital outcome	External	3

Total Possible Credits 19

The nature of project based learning is fluid and designed to suit individual learners. To this end course content and standards offered are subject to change if deemed to be beneficial. Students will have an Individual Education Programme (IEP) to ensure there are no common standards in the areas of Technology. All external work is submitted as an academic report and/or an examination.

Dance Contact: Mr G Wilcox

QUALIFICATION: NCEA LEVEL 3

Entry Guidelines

Level 2 Dance including a minimum of 4 internal and 4 external credits.

Students who have not studied Level 2 Dance may be admitted with the approval of the Head of Dance.

Course Outline

Dance at Level 3 is a continuation of the skills developed in Level 2. This includes being able to:

- Produce and choreograph a dance for performance
- Perform a solo or duet dance
- Perform a range of choreographed dance work to an audience
- Critically analyse dance performances
- Year 13 Dance students can perform and choreograph for the Dance Showcase

UE Approved

This subject is an approved UE course of study.

Standards marked (R) and (W) can be counted as Reading and Writing credits for UE Literacy.

	NT		
Students mu	st select either AS91588 or AS91589		
AS91588 OR	Produce a dance to realise a concept (This standard is optional and can be entered in the Dance Showcase. If a students opts out of this standard they will be expected to do AS91589)	Internal	8
AS91589	Choreograph a dance to develop and resolve ideas (This standard is optional and can be entered in the Dance Showcase. If a student opts out of this standard they will be expected to do AS91588)	Internal	•
AS91590	Perform a solo or duet dance	Internal	4
AS91591	Perform a group dance (For this assessments students will perform in the Dance Showcase. This is also offered as an Extension standard at Year 12. For Students that have already done this at year 12. They will be offered the opportunity to do dance scholarship)	Internal	2
AS91592	Perform a repertoire of contrasting dances	Internal	6
AS91594 (W)	Analyse a dance performance	External	4
	Total Possib	le Credits	26
Optional Ac	nievement Standard (At discretion of HoD)		
AS91595 (R/W) Demonstrate understanding of dance in Aotearoa/New Zealand	External	4

Entry Guidelines

12 credits in Level 2 Design and Visual Communication including AS91341 (DVC 2.34) or AS91342 (DVC 2.35)

Course Outline

Level 3 Design and Visual Communication (DVC) is designed to foster creative and critical practice in a project-based environment. Design and Visual Communications primary focus is on the imagining in creative thinking of novel, new and beneficial ideas, resolving problems to improve the lives of people. This involves working within the context of architecture, interior design, landscape design and industrial design, and considers the way in which these ideas and thinking are presented visually.

Students have the opportunity to develop their thinking, design, and practical skills in the specialist area. Within the context of Year 13 Design and Visual Communication this includes skills like: exploring, refining, and resolving design ideas in response to a brief, using ideation for divergent thinking, integrated visual literacy and design thinking, visual communication, and presentation for expressing a design narrative, personal design perspective.

Specialist areas that would be beneficial to study in support of Design and Visual Communication at Level 3 would be Product Design, Visual Art – Design, Sculpture, Visual Art – Photography, Visual Art – Painting & Printmaking, Animation & Motion Graphics.

Additional Course Costs & Special Requirements

- Individual student project requirement will determine if there are additional material costs
- A graphics equipment pack will be supplied as part of this course and charged to your college account (approx. \$40)

UE Approved & Future Pathways

Design and Visual Communication is a Level 3 approved UE course that progresses from Years 10 - 13. The Level 3 course is designed to scaffold and translate into different areas of University study.

ASSESSMENT

AS91627	Initiate design ideas through exploration	External	4
AS91628	Develop a visual presentation that exhibits a design outcome to an audience	Internal	6
AS91629	Resolve a spatial (or product) design through graphics practice	Internal	6

Total Possible Credits 16

The nature of project based learning is fluid and designed to suit individual learners. To this end course content and standards offered are subject to change if deemed to be beneficial. Students will have an Individual Education Programme (IEP) to ensure there are no common standards in the areas of Technology. All external work is submitted as a portfolio.

DramaContact: Mr D Sheehar

QUALIFICATION: NCEA LEVEL 3

Entry Guidelines

Students are required to have gained 18 credits at Level 2 Drama or may be accepted into Drama at the discretion of the Head of Drama.

Introduction

Drama is about exploring and developing ideas in inventive and imaginative ways and communicating those ideas in performance. Drama aims to help students gain self-confidence, self-discipline, self-awareness, respect for others and the ability to work in a team. Students will learn to present, perform and work collaboratively in groups with increased confidence through Drama.

Course Outline

Students sit three internally assessed practical Achievement Standards and one externally assessed written examination, for a maximum of 18 credits.

Students learn about the social/historical context of a given Theatre Form; such as Epic Theatre or Elizabethan Theatre. They are taught the performative conventions and key skills of this Theatre Form and develop, refine and present a group

performance based on this Theatre Form. While it is a group performance they are assessed individually.

Students read and learn about the theatrical and dramatic context of a given published play. They are cast in that play and rehearse and present that play to an audience of parents and friends over two evenings. These plays are presented as our SKC Play Series near the end of Term Two.

Students plan, develop, rehearse and present a devised drama focus on a particular theme of issue. They refine their learning about drama conventions and present their final work to an audience of peers.

Students view live theatre during the year and are required to analyse components of both the theatre they have viewed as an audience and performances they have been involved with during the year.

UE Approved

This is a Level 3 approved UE course.

Standards marked (R) and (W) can be counted as Reading and Writing credits towards UE Literacy.

ASSESSMENT

	Total Possible	e Credits	18	
AS91513	Devise and perform a drama to realise a concept	Internal	5

Entry Guidelines

14 credits in Level 2 English.

The credits may be accumulated from the English Achievement Standards, Internal or External. Students should have the Literacy standards needed for entry to any New Zealand University before entering Level 3 English.

Introduction

This traditional English course is developed for students who are considering further study in Arts, Law or Humanities subjects at University with one Achievement Standard focusing on research skills and working with secondary sources.

Course Outline

The Level 3 English course comprises a study of language and literature, including:

- Comprehension and criticism of prose and verse passages
- Study of several works of literature in the genres of prose, drama, poetry, film or non-fiction
- A writing portfolio built around an idea/issue

Note: Optional Standards can be completed subject to HoD approval if a student requires further credits OR if a student has a passion or skill to be developed in an area.

UE Approved

This subject is an approved UE course of study.

Standards marked (R) and (W) can be counted as Reading and Writing credits for UE Literacy. Level 3 English will enable students to obtain sufficient literacy credits to fulfil University entry requirements.

Entry Guidelines

14 credits in Level 2 English.

The credits may be accumulated from the English Achievement Standards, internal or external. Students should have the Literacy standards needed for entry to any New Zealand University before entering Level 3 English.

Students considering Scholarship English can do so from both Level 3 English courses.

Introduction

The English Visual Language course has been developed for students who wish to develop the skills of making and creating meaning from visual and written texts they study.

Course Outline

The Level 3 English Visual Language course comprises a study of language and literature, including:

- Comprehension and criticism of prose and visual texts
- Developing a visual text as a means of showing understanding of a text
- Study of visual genres, their conventions and development
- Developing critical responses to text argument building and research skills

Note: Optional Standards can be completed subject to HoD approval if a student requires further credits OR if a student has a passion or skill to be developed in an area.

Entry Guidelines

12 credits or more in Level 2 Fashion and Textiles Design.

Course Outline

Level 3 Fashion and Textiles Design is designed to foster creative and critical practice in a project based environment. The primary focus of this specialist area is on the design of authentic and contemporary products within the context of fashion, textile and soft materials design. Level 3 is a specialised course that aims to enable students to be able to design in the real world. It has been developed with leading tertiary providers to ensure students are well prepared for future study and the industry. Projects may develop skills such as; the ability to defend design decisions through critique and exhibition, the application of personal design voice to a multi-stage brief, complex idea generating and communicating, complex technical techniques across a range of materials and contexts, professional fashion photography presentation of outcomes to an audience.

Specialist areas that would be beneficial to study in support to Fashion and Textiles Design at Level 3 would be Visual Art – Photography, Visual Art – Design, Product Design and Visual Art – Sculpture.

Additional Course Costs & Special Requirements

- Students are required to supply their own fabric and patterns
- Individual student project requirements will determine if there are additional material costs
- The ability to run Adobe Creative software such as Illustrator and Photoshop

UE Approved & Future Pathways

This specialist area is a Level 3 approved UE course and leads to multiple tertiary pathways including Product Design, Industrial Design, Fine Arts and Fashion and Textile Design.

ASSESSMENT

AS91621	Implement complex procedures using textile materials to make a specified product	Internal	6
AS91610	Develop a conceptual design considering fitness for purpose in the broadest sense	Internal	6
AS91627	Initiate design ideas through exploration	External	4

Total Possible Credits 16

The nature of project based learning is fluid and designed to suit individual learners. To this end course content and standards offered are subject to change if deemed to be beneficial. Students will have an Individual Education Programme (IEP) to ensure there are no common standards in the areas of Technology. All external work is submitted as an academic report and/or a portfolio.

ACADEMIC PATHWAY

Year 11 − Fashion & Textiles Design → Year 12 − Fashion & Textiles Design → Year 13 − Fashion & Textiles Design UE

The majority of Year 13 NCEA students choose **five** subjects.

Entry Guidelines

This is an open entry course, subject to approval from the Head of Commerce.

Introduction

Financial Literacy offers students the opportunity to complete Level 3 Unit Standards in a variety of topics related to personal financial literacy.

The aim of this course is to increase student awareness of financial literacy in order to promote sound financial decision making.

Course Outline

The topics covered in this course include:

- Personal income and taxation responsibilities
- Different forms of credit
- Risk, return and diversification in personal financial management
- Basic employers and employees rights and responsibilities in the workplace
- Income and its impact on government benefit entitlements

This is NOT a UE Approved Subject

Financial Literacy is not a University approved subject. A subject endorsement is not available in Financial Literacy.

ASSESSMENT

US3491	Write a report (optional)	Internal	4
US28098	Evaluate options to increase personal income	Internal	3
US28099	Analyse and compare credit options and recommend strategies to manage personal finances	Internal	3
US28101	Evaluate savings and investment options and make a plan to create a long-term personal investment portfolio	Internal	4
US28103	Analyse and select personal house financing and purchasing options	Internal	3
	Total Poss	ible Credits	17

ACADEMIC PATHWAY

Not offered at NCEA Level 1

Year 12 – Financial Literacy (unit standard course)

Year 13 — Financial Literacy (unit standard course)

The majority of Year 13 NCEA students choose **five** subjects.

Entry Guidelines

AS course – 16 credits or more in Level 2 Food Technology.

US course - Complete a Level 2 Food Course.

Course Outline

Level 3 Food Technology is designed to foster independent creative and critical practice through advanced outcome development in a practically demanding project-based environment. Students will consolidate, synthesise, and apply their Level 2 skills to engage with an authentic real-world need, or opportunity challenging them to research, analyse and navigate influential factors such as environmental impact, stakeholder perspectives and sustainability. Applying project management protocols to guide practice, students will adhere to industry standard food handling practices, and undertake complex technical procedures to test and refine ideas. Students will participate in group critique to strengthen design ideas and decisions throughout the production process, to ensure continuous improvement and justification in the development of a contemporary product of superior quality.

The optional Level 3 Unit Standards pathway is designed to provide students with a comprehensive understanding of food safety practices, regulations, and best practices in the culinary world. It equips them with necessary skills whilst gaining valuable industry qualifications. Through hands-on lessons, students will research, practice, and apply knowledge to expand their culinary repertoires and create meal plans to meet the unique dietary and nutritional needs of individuals in specialised growing health and wellness industries.

Additional Course Costs & Special Requirements

Items below are purchased through the Technology department

- Service IQ Unit Standard Assessment \$15
- Individual course projects may incur additional costs depending on the nature of their outcomes and resources required

UE Approved & Future Pathways

This course provides two assessment pathways for students interested in either University or trade-related courses and qualifications.

This specialist area leads to a Level 3 Approved UE course and multiple tertiary pathways including Food Technology, Food Science and Nutrition.

The Unit Standard assessment can be used towards entry into trade-related training and entry level hospitality positions.

NCEA Scholarship Technology

Students who enter Scholarship are required to extend their Level 3 work to demonstrate higher levels of critical and creative thinking. The student is required to present a convincing reflective academic report based on the development of their technological outcome.

The majority of Year 13 NCEA students choose **five** subjects.

Entry Guideliness

Subject to evidence of consistent good attendance to school and an informal interview with the Student Futures Team.

Some courses are not available at NCEA Level 3, which will also determine suitability for this programme.

Course Outline

Gateway provides students with the opportunity for workplace learning across a wide range of industries and businesses while continuing to study at school. This strengthens the pathways for students to progress from school to work or further Tertiary study.

By completing a structured workplace experience, students will have a real understanding of what is required in the workplace, they will have gained some skill and knowledge in helping them decide on future pathways. Placements can be of varied lengths and are not guaranteed. An opportunity exists for students to participate in short courses that also provide industry certification e.g. Health & Safety 'Site Safe' Certificate.

Additional Cost

To cover the cost of PPE, external assessors and health and safety training, there is an additional charge of \$300.

This is NOT a UE Approved Subject

This course is not UE approved and does not have a pathway to UE.

ASSESSMENT

Students will be able to achieve NCEA credits that align with career interest or vocational pathways. Gateway programs of Industry standards are provided by Workforce development councils, Industry Training organisations, The NZ Institute of Skills and Technology along with private training organisations. Some assessments may be completed in the workplace.

ACADEMIC PATHWAY

Gateways is a one-year programme. It can only be taken in Year 12 OR Year 13.

Not offered at NCEA Level 1 Year 12 – Gateway — Year 13 – Gateway

The majority of Year 13 NCEA students choose **five** subjects.

Geography Contact: Mr J Mather

QUALIFICATION: NCEA LEVEL 3

Entry Guidelines

14 credits in Level 2 Geography including a Merit or higher in the external AS91242.

Students who have not previously studied Geography but who wish to enter at Level 3 are recommended to enrol in Level 3 Core Geography. Academically able students may be able to enrol in this course after they seek advice from the Head of Geography. Previous academic results in Social Sciences and/ or English.

Introduction

Geography gives students a multidisciplinary or holistic view of the world, combining knowledge, skills and understandings of the physical and social sciences. It fosters a curiosity about place and space and provokes questions about natural and cultural environments and their interconnectedness.

Course Outline

The Level 3 Geography course involves the detailed study of topics including:

- The cultural process of Tourism development
- A study of global patterns such as diamonds, piracy, or mass tourism
- Geographic issues their problems and solutions/ Human Trafficking
- Conducting geographic fieldwork
- Geographic mapping and skills

Additional Course Costs & Special Requirements

Field trips are part of the Geography course. There are additional costs associated with these.

UE Approved

This subject is an approved UE course of study.

Standards marked (R) and (W) can be counted as Reading and Writing credits for UE Literacy.

ASSESSMEN	т		
AS91427 (R/W)	Demonstrate understanding of how a cultural process shapes geographic environment(s)	External	4
AS91429 (R/W)	Demonstrate understanding of a given environment through selection and application of geographic concepts and skills	External	4
AS91430	Conduct geographic research with consultation	Internal	5
AS91431 (R)	Analyse aspects of a contemporary geographic issue	Internal	3
	Analyse aspects of a geographic topic at a global scale	Internal	3
	Total Possi	ble Credits	19

NOTE: **Bold** indicates a compulsory learning area.

Entry Guidelines

14 credits in Level 2 Geography. Students who have not studied Geography before are allowed to enter this course if they seek advice from the Head of Geography for consideration. Previous academic results in Social Sciences, and English will be considered for entry to Core Geography.

Introduction

Core Geography provides a valuable introduction to a wide range of geographic topics on both local and global scales. This course is designed for those new to geography and/or those who would prefer to undertake more internal assessment during the course of the year with a reduced external examination programme.

Course Outline

The Level 3 Core Geography course includes the detailed study of topics including:

- A study of global patterns, such as diamonds, piracy or mass tourism
- A study of geographic issues, their problems and solutions
- A study of major events and festivals from a geographic perspective
- Conducting geographic field work

Additional Course Costs & Special Requirements

Field trips are part of the Geography course. There are additional costs associated with these.

UE Approved

If all standards are achieved, this course will count towards University entrance.

Standards marked (R) can be counted as Reading credits for UE Literacy.

ASSESSMEI	NT		
AS91428 (R)	Analyse a significant contemporary event from a geographic perspective	Internal	3

Health Education Contact: Miss K Donovan

QUALIFICATION: NCEA LEVEL 3

Entry Guidelines

Students must have attained 14 credits or more in Level 2 English and/or 14 credits in Level 2 Health Education.

Any student who has not met the entry requirements must seek approval from the Head of Health Education prior to being admitted to the course.

Introduction

The NCEA Health program affords learners an amazing opportunity to develop important knowledge and excellent critical thinking skills in both New Zealand and International contexts, which are hugely relevant to the exponentially growing health and well-being sector.

Course Outline

The Level 3 NCEA Health program is both internally and externally assessed.

The course of study involves a detailed analysis of:

- Analysing a current health issue in New Zealand and its implications for well-being, the major determinants of health influencing the issue, and strategies to achieve more equitable outcomes
- Evaluating a range of health practices currently used in New Zealand to treat a chosen health condition, explaining the advantages and disadvantages in relation to well-being

- Examining contemporary ethical issues, by exploring the differing and opposing perspectives and the implications for the well-being of people and society
- Analysing an international health issue (affecting a population of people outside of New Zealand), including the major determinants of health influencing the issue, the implications for well-being, and strategies to achieve more equitable outcomes

The Health Education Course is designed to:

- Provide students with knowledge on a diverse range of topics and issues
- Provide students with excellent critical thinking and solution focused thinking to make important contributions to the well-being of the wider community
- Provide relevance to learners to guide them to tertiary or career relevant pathways

UE Approved

This subject leads to a Level 3 approved UE course.

ASSESSMENT

AS91461	Analyse a New Zealand health issue	Internal	5
AS91463	Evaluate health practices currently used in New Zealand	Internal	5
AS91464	Analyse a contemporary ethical issue in relation to well-being	Internal	4
AS91462	Analyse an international health issue	External	5

QUALIFICATION: NCEA LEVEL 3

Entry Guidelines

13 credits or more in Level 2 History (this must include AS91233). Students who have not previously studied History should seek advice from the Teacher in Charge of Year 13 History.

Course Outline

History at Level 3 continues to build on the historical skills developed at Levels 1 and 2. The course involves detailed study of:

- Struggle and Discontent New Zealand
- American Civil War

UE Approved

This subject is an approved UE course of study.

Standards marked (R) and (W) can be counted as Reading and Writing credits for UE Literacy.

ASSESSMENT

AS91434 (R)	Research an historical event or place of significance to New Zealanders, using primary and secondary sources	Internal	5
AS91435 (R)	Analyse an historical event, or place, of significance to New Zealanders	Internal	5

Mathematics Contact: Ms A Hawkins

QUALIFICATION: NCEA LEVEL 3

Entry Guidelines

12 or more credits at Level 2 Mathematics.

Strongly recommended: two standards from Level 2 Mathematics at Merit level or higher.

Course Outline

Mathematics at Level 3 draws Achievement Standards from both Statistics and Calculus, and includes the following topics:

- Evaluating statistical reports
- · Linear programming
- Solving systems of equations with three unknowns.
- Statistical investigations involving Time Series data

Students are unable to take this Mathematics course in combination with another Level 3 Mathematics course.

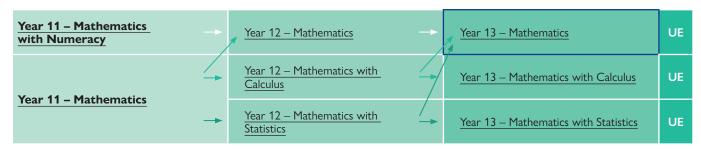

UE Approved

This subject is an approved UE course of study.

Standards marked (N) can be used towards meeting UE Numeracy requirements.

Standards marked (R) and (W) can be counted as Reading and Writing credits for UE Literacy.

ASSESSMENT	
AS91574 (N) Apply linear programming methods in solving problems Internal	3
AS91576 (N) Use Critical Path Analysis in solving problems Internal	2
AS91580 (N) Investigate Time Series Internal	4
AS91584 (N/R/W) Evaluate statistically based reports External	4

Entry Guidelines

12 credits or more in Level 2 Mathematics for Calculus including both Achievement Standards AS91261 Algebra and AS91262 Calculus

Strongly recommended: both of the above standards at Merit level or higher.

Course Outline

Mathematics with Calculus has a major emphasis on algebraic and calculus concepts. The course covers:

- Advanced algebraic processes including complex numbers
- Calculus including both differentiation and integration
- Trigonometry including multiple angle formulae
- · Problem solving and practical applications
- Solving systems of linear equations with three unknowns

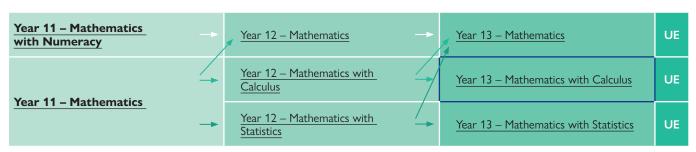

Students are expected to develop calculus skills over a wide variety of functions. The nature of mathematical reasoning and presentation of a logical argument, together with competence in basic algebraic, graphical and computational skills will be extended in this course.

UE Approved

This subject is an approved UE course of study.

Standards marked (N) can be used towards meeting UE Numeracy requirements.

ASSESSMEN	NT

At least 12 credits including AS91264 Statistics Inference, and AS91267 Probability. Or, for students who studied Mathematics with Calculus, the entry requirement is 12 credits including one External.

Strongly Recommended: Merit or higher in both of the following Achievement Standards – AS91264 Statistics Inference, and AS91267 Probability.

Course Outline

The emphasis of Mathematics with Statistics is to provide students with the analytical, statistical and probability skills and knowledge required for further studies in Statistics and allied subjects.

This course covers:

- Statistical investigations involving time series data and Sample-to-population inference
- Evaluating statistical reports
- Probability theory including the normal, binomial and poisson distributions

UE Approved

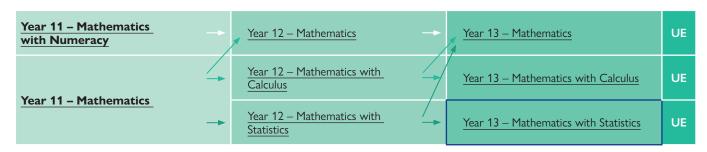

This subject is an approved UE course of study.

Standards marked (N) can be used towards meeting UE Numeracy requirements.

Standards marked (R) and (W) can be counted as Reading and Writing credits for UE Literacy.

ASSESSMENT

Media Studies Contact: Mr L Oliver

QUALIFICATION: NCEA LEVEL 3

Entry Guidelines

16 credits in Level 2 Media Studies, or comparable Level 2 English credits.

Any student who does not meet this criteria may be admitted upon agreement by the Head of Media Studies.

Course Outline

This course has a natural follow on from Level 2 Media Studies. In particular, there is a greater focus on the broader impact of the media on society as we move to a more globalised, media-saturated world. With sociology as more of a focus, topics such as gender representation, politics, ideology and the relationship between genre and society are explored.

Students will master their skills in using industry level camera equipment and editing software, Adobe Premiere Pro.

Students will apply 'lenses' in reading texts and examine the connections between post 9/11 western society and the Zombie genre.

The practical assessment is the creation of a short film which may be selected to showcase at the College 'Kents Film Festival' later in the year. To ensure quality preproduction work, one member will opt to complete the script standard, while the remaining two will complete the film treatment.

Additional Course Costs & Special Requirements

SD card (camera memory card) minimum 8GB.

UE Approved

This subject is an approved UE course of study.

Standards marked (R) and (W) can be counted as Reading and Writing credits for UE Literacy.

ASSESSMENT

	Total Possible	Credits	20	١
AS91497 (W)	Write a media text to meet the requirements of a brief	Internal	3	
AS91495	Produce a media product to meet the requirements of a brief	Internal	6	
AS91494	Produce a design for a media product that meets the requirements of a brief	Internal	4	
AS91493 (R/W)	Demonstrate understanding of a relationship between a media genre and society	External	4	
AS91491	Demonstrate understanding of the meaning of a media text through different readings	Internal	3

QUALIFICATION: NCEA LEVEL 3

Entry Guidelines

18 credits or more in Level 2 Music.

Students who have not completed Level 2 Music can enter Level 3 Music at the discretion of the Head of Music. In these cases proof of experience in practical and theoretical music study is mandatory.

Course Outline

Students can select from a range of standards to specialise in performance, composition/songwriting or research. Opportunities for students to undertake NZQA Scholarship Music is possible. Students will be able to explore, develop and establish their areas of interest while being closely mentored by staff with opportunities for tertiary and industry visits.

UE Approved

This subject is an approved UE course of study.

Standards marked (R) and (W) can be counted as Reading and Writing credits for UE Literacy.

QUALIFICATION: NCEA LEVEL 3

Entry Guidelines

18 credits or more in Level 2 Music.

Students who have not completed Level 2 Music can enter Level 3 Music at the discretion of the Head of Music. In these cases proof of experience in practical and theoretical music study is mandatory.

Course Outline

Students can select from a range of standards to specialise in performance, composition/songwriting or research. Opportunities for students to undertake NZQA Scholarship Music is possible. Students will be able to explore, develop and establish their areas of interest while being closely mentored by staff with opportunities for tertiary and industry visits.

UE Approved

This subject is an approved UE course of study.

Standards marked (R) and (W) can be counted as Reading and Writing credits for UE Literacy.

ASSESSMEN	т		
AS91416	Perform two programmes of music as a featured soloist	Internal	8
AS91418	Demonstrate ensemble skills by performing two substantial pieces as a member of a group	Internal	4
AS91419	Communicate musical intention by composing three original pieces of music	Internal	8

OUALIFICATION: NCEA LEVEL 3

Entry Guidelines

16 credits in Level 2 Outdoor Education including Merit or higher in AS91334.

Students will not be permitted to take Level 3 Physical Education as well as Level 3 Outdoor Education.

Introduction

The Level 3 course extends the knowledge and skill base developed in Level 2 Outdoor Education. As a key area of learning within the Health and Physical Education Curriculum, Outdoor Education provides students with opportunities through Achievement Standards to develop personal and social skills such as decision making, leadership and confidence though challenge based activities and achievements. Students will become actively knowledgeable, safe and skilled in the outdoors, with care for the environment a paramount focus.

Course Outline

- To provide opportunity for personal development through the adventure and challenge of outdoor pursuits
- To develop the initiative and leadership skills of accepting responsibility, coping with adversity and decision making
- To provide opportunities for social development, caring cooperation and acceptance of individual differences through shared experiences and communal living
- To develop the skills for living and moving safely in a variety of settings and the ability to cope with an emergency

- To gain experience in a wide range of outdoor activities and to extend their competence in one or more
- To examine the concept of outdoor education as a worthwhile, lifelong interest and its potential for employment

Additional Course Costs & Special Requirements

Approximate additional cost of \$1,600. This covers the costs associated with professional providers and field trips. Optional trips may be offered at additional costs.

Modules Include (indicative only):

- · Working with special needs unit
- Mountain Biking
- Overnight Tramping
- Whitewater Kayaking
- Mountaineering
- Sea Kayaking
- Expedition Planning
- Place Responsive Outdoor Education
- Rock climbing

UE Approved

This subject is an approved UE course of study.

Standards marked (N) can be used towards meeting UE Numeracy requirements.

ASSESSMENT

AS91501 Demonstrate quality performance of a physical activity in an applied setting Internal 4
AS91504 Analyse issues in safety management for outdoor activity to devise safety management Internal 3
strategies

AS91789 Devise strategies for a physical activity outcome Internal 4

Total Possible Credits 11

QUALIFICATION: NCEA LEVEL 3

Entry Guidelines

16 credits in Level 2 Physical Education.

Students are unable to study both Level 3 Physical Education and Level 3 Outdoor Education.

Course Outline

The Level 3 course extends the knowledge and skill base developed in Level 2 Physical Education.

At Level 3, the course has an emphasis on the students' own planning and application of knowledge, critical thinking and analysis, and the appraisal and performance of physical skills.

Modules include:

- **Biomechanics** Identifying key anatomical movements and how to improve their personal skill levels
- Exercise Prescription Students implement knowledge and understanding to achieve a fitness based outcome

- Training principles using badminton as the medium, students identify how to improve their skill level using a range of principles of training
- Sociology examination of a current physical activity event, trend or issue and its impact on New Zealand society
- Physical Activity Examine experiences and their influence on well-being

Practical experiences include fitness, badminton and other modified games.

Additional Course Costs & Special Requirements

Approximate cost of \$100.

Physics Contact: Mr J Naude

QUALIFICATION: NCEA LEVEL 3

Entry Guidelines

12 Credits in Level 2 NCEA Physics.

Introduction

This course is designed for students with a real interest in the physical world around them and who are considering further study at a Tertiary Institution in courses where Physics is a recommended or required subject e.g. Medicine, Architecture, Engineering. The successful completion of this course will fulfil the entry requirements in Physics for most courses at a Tertiary Institution including Engineering at the University of Auckland.

Course Outline

Students will:

- Investigate physical phenomena in the areas of mechanics, electricity, electromagnetism, heat, light and waves, atomic and nuclear physics and produce qualitative and quantitative explanations for a variety of complex situations
- Analyse and evaluate data to deduce complex trends and relationships in physical phenomena
- Use physics ideas to explain a technological, biological or astronomical application of physics and discuss related issues

Additional Course Costs & Special Requirements

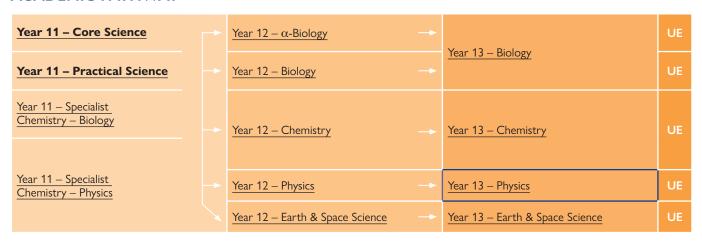

Physics workbook and Course Notes.

UE Approved

This subject is an approved UE course of study.

Standards marked (N) can be used towards meeting UE Numeracy requirements.

Product Design Contact: Mr G Horsnell

OUALIFICATION: NCEA LEVEL 3

Entry Guidelines

14 credits in Level 2 Product Design.

Course Outline

Level 3 Product Design has been developed to foster creative and critical practice in a project based environment. The primary focus of this specialist area is on the design of authentic and contemporary products within a chosen context.

Level 3 is a demanding and independent course that allows students to pursue authentic needs and opportunities in the fields of product design. It has been developed with leading tertiary providers to ensure students are well prepared for future study and the industry. Projects could include skills such as; agile project management to drive the research and development of self-selected projects, idea defence during development, and the application of creative and logical reasoning to develop relevant and innovative products suitable for contemporary industry.

This course can be studied alongside the Level 3 Building and Construction Unit Standards Trade course provided by Technology.

Specialist areas that would also be beneficial to study in support of Product Design at Level 3 would be Visual Art – Design, Design and Visual Communication (DVC), Fashion and Textiles Design and Visual Art – Sculpture.

Additional Course Costs & Special Requirements

Individual course projects may incur additional costs depending on the nature of their outcomes and resources required.

UE Approved & Future Pathways

This subject is an approved UE course of study and leads to multiple tertiary pathways including Product Design, Industrial Design, Engineering and some aspects of Architecture.

Standards marked (W) can be counted as Writing credits for UE Literacy.

ASSESSMENT

AS91610

AS91612 (W)	Demonstrate understanding of how technological modelling supports technological development and implementation	External	4

Te Reo Māori Contact: Mrs J Martin

QUALIFICATION: NCEA LEVEL 3

Entry Guidelines

The student selecting this course would benefit from having 12 credits in Level 2 Te Reo Māori.

Introduction

At Level 3 NCEA, levels 6,7 & 8 from the Curriculum guidelines for teaching and learning Te Reo Māori are covered. At this level, contexts covered reflect te ao whanui, and focus on issues at a societal, national or international level. Students are expected to demonstrate they can present ideas based on research and evaluation, and their ability to be creative. We will study three units during the year

- Manaakitanga (Service and care)
- Rangatiratanga (Sovereignty and leadership)
- Motuhaketanga (Self-determination and responsibility)

Course Outline

The focus of this course is to sustain effective communication skills on a range of topics in Te Reo Māori through research of ideas, values and attitudes developed from a Māori worldview expressed through te reo Māori. This will enable students of

Te Reo Māori to be culturally confident and competent to participate in and contribute to Māori language and culture revitalisation within their communities.

Students of Te Reo Māori will apply creative and critical thinking, as well as metacognitive processes to make sense of information, experiences and ideas which will inspire them to be lifelong learners of te reo Māori.

Students who engage with Kapa Haka have an enriched experience in this course of study.

UE Approved and Future Pathways

Te Reo Māori supports further learning and promotes the normalisation of Te Reo Māori in the areas of: broadcasting, journalism, education, arts, entertainment, business, tourism, hospitality, local and central government, health, languages, sports administration, marketing, management, law, corrections, public speaking, iwi development, volunteering, community services, farming and agriculture, primary industries, Treaty settlements, translating and interpreting services.

This subject is an approved UE course of study.

ASSESSMENT

AS91654	Waihanga tuhinga whai take i te reo Māori o te ao whānui	External	6
AS91651	Kōrero kia whakamahi i te reo Māori o te ao whānui	Internal	6

QUALIFICATION: NCEA LEVEL 3

Entry Guidelines

Priority is given to students who have successfully completed Year 12 Travel and Tourism. Other students with an interest in the Travel industry may apply through a discussion with the Head of Geography.

Introduction

Travel and Tourism will enable students to demonstrate general knowledge of the Travel and Tourism industry in New Zealand, Australia and the Pacific Islands.

Course Outline

Travel and Tourism will enable students to demonstrate general knowledge of the Travel and Tourism industry in New Zealand, Australia and the Pacific Islands.

Additional Course Costs & Special Requirements

The fees for the Unit Standards are for the student manuals and will be approximately \$140.

This figure is based on 2022 figures and is subject to change.

This is NOT a UE Approved Subject

Travel and Tourism is NOT an approved UE course of study but is highly recommended to those who wish to further support their other UE subjects with practical skills and experience.

ASSESSMENT

US18211	Destination Australia	Internal	5
US18212	Destination New Zealand	Internal	8
US23766	Demonstrate knowledge of the tourism industry	Internal	5
US3727	Destination Pacific Islands	Internal	5

Total Possible Credits 23

The Unit Standards being undertaken in 2024 are as follows and are those approved by ITC. These are recognised standards that are generally transferable to other Polytechnic qualifications. All Unit Standards are internally assessed.

Not offered at NCEA Level 1	Travel & Tourism (unit standards course)	Travel & Tourism (unit standards course)
-----------------------------	--	--

IB Diploma Curriculum

At Year 12, students have a choice of academic pathway. They can choose to continue with NCEA, or opt to follow the International Baccalaureate (IB) Diploma programme. By offering choice, students are able to select a qualification that is right for them as an individual. Whichever qualification they take, all Year 12 students choose six subjects.

This section covers the course work for the IB Diploma.

Click here for information about the Year 12 or Year 13 NCEA Curriculum.

iploma students take **six** subjects. Students choose **one** subject from each of groups – Group 1 to 6, thus ensuring a breadth of experience in languages, social sciences, the experimental sciences, mathematics and the arts.

The IBO does give the students the option of not choosing a subject from Group 6. In such cases, the student may choose a second subject from another Group.

Please note at Saint Kentigern College, students cannot choose three Diploma Sciences.

You will find fees information on the College website.

Three subjects are studied in depth at Higher Level (HL) and three at Standard Level (SL). Students decide which subjects they will study at Higher Level at the end of the second term in Year 12.

In addition, the programme has three core requirements that are included to broaden the educational experience, and challenge students to apply their knowledge and understanding. This requires the students to complete a course in the Theory of Knowledge (TOK), write a formal Extended Essay (EE) and participate in Creativity, Activity and Service (CAS).

Please note a minimum number of 8 students is required to create a standard alone class. Composite level classes may be offered, but these are subject to resourcing.

Year 12 & 13 IB Diploma Subjects

Subject selection is made in consultation with the IB Coordinator, Student Futures, teaching staff, students and parents. All students are interviewed to help them plan a suitable course and to make appropriate selections of Standard and Higher Level subjects.

CORE REQUIREMENTS (compulsory) Students choose one subject from groups 1–5 plus one subject from group 6, or a second subject from groups 1-5. **GROUP 1 GROUP 3 GROUP 5 GROUP 6 GROUP 2 GROUP 4**

Click on the Subject Name to go to the Subject description page.

CORE REQUIREMENTS (COMPULSORY)

At the heart of the IB Diploma are three compulsory requirements which all students must complete, Theory of Knowledge, Extended Essay, and Creativity, Activity and Service (CAS).

Christian Education (Compulsory)

Contact: Dr J Sievers

Introduction

Christian values are an intrinsic part of the special character of Saint Kentigern College. All Year 12 and 13 students take Christian Education.

The Christian Education Department is constantly evolving its programmes to ensure that they are interesting, relevant and challenging for our students in their development as young men and women on their faith journeys, whatever they perceive that to be. In the Senior School, a wide range of relevant and contemporary resources are used in what is generally an informal, discussion-based, non-assessed theological and philosophical exploration of issues of Christian life and faith.

Course Outline

The Year 12 course aims to encourage students to continue exploring the foundational principles of the Christian life in deeper and increasingly more relevant ways. With the focus being on 'bringing joy to others', students will revisit the Jesus story, as well as key events in the history of the Christian church to consider not only what their own aspirations and achievements are, but also what they might achieve for others and inspire in others.

At Year 13 the aim of the course is to further build upon and enhance students' awareness and understanding of the Judeo/ Christian view of life and living, and thus to equip them to interface with the world outside the constraints and special nature of the Saint Kentigern College community.

With the Ten Commandments as the scriptural basis, the special character of Saint Kentigern College as the context, and supported by a wide range of contemporary resources, students will be encouraged to participate in an in-depth exploration of morality, conscience and, more specifically, issues of morality that will impact upon students' lives at some point.

Assessment

There is no formal assessment for this course.

Year 12 & 13 IB Diploma Subjects

Subject selection is made in consultation with the IB Coordinator, Student Futures, teaching staff, students and parents. All students are interviewed to help them plan a suitable course and to make appropriate selections of Standard and Higher Level subjects.

Students choose one subject from groups 1– 5 plus one subject from group 6, or a second subject from groups 1–5. GROUP 1 GROUP 3 GROUP 5 GROUP 6 GROUP 2

The aim of Creativity, Activity, Service (CAS) is to foster responsible, compassionate citizens by encouraging their participation in artistic activities, sports, expeditions and service projects.

The three strands of CAS are characterised as follows:

CREATIVITY Arts, and other experiences that involve

creative thinking.

ACTIVITY Physical exertion contributing to a healthy

lifestyle, complementing academic work

elsewhere in the Diploma.

SERVICE An unpaid and voluntary exchange that has

a learning benefit for the student. The rights, dignity and autonomy of all those involved

are respected.

CAS enables students to enhance their personal and interpersonal development through experiential learning. At the same time, it provides an important counterbalance to the academic pressures of the rest of the Diploma.

For student development to occur, CAS should involve:

- · Real, purposeful activities with significant outcomes
- Personal challenge tasks must extend the student and be achievable in scope
- Thoughtful consideration such as planning, reviewing progress and reporting
- · Reflection on outcomes and personal learning

All proposed CAS activities need to meet these four criteria. It is also essential that they do not replicate other parts of the student's IB Diploma work.

Successful completion of CAS is a requirement for the award of the IB Diploma. CAS is not formally assessed but students need to document their activities and provide evidence that they have achieved seven key learning outcomes.

The Extended Essay (Compulsory)

Contact: Ms C Pienaar

The Extended Essay is an in-depth study of a focused topic chosen from the list of approved Diploma subjects — usually one of the student's six chosen subjects for the IB Diploma. This part of the programme focuses on analysis, evaluation and reasoning. It provides students with an opportunity to engage in personal independent research on a topic of their own choice, under the guidance of a supervisor (a teacher in the school). This leads to a major piece of formally presented, structured writing, in which ideas and findings are communicated in a reasoned and coherent manner, appropriate to the IB subject chosen. In the Diploma, the Extended Essay is the prime example of a piece of work where the student has the opportunity to show knowledge, understanding and enthusiasm about a topic of his or her choice.

ASSESSMENT

The Extended Essay is assessed externally against common generic criteria, interpreted in ways appropriate to each subject.

In combination with the grade for Theory of Knowledge, it contributes up to three points to the total score for the IB Diploma.

The Extended Essay is presented as a formal piece of structured writing containing no more than 4,000 words; the result of approximately 40 hours of work by the student. Three mandatory reflective statements are written over the writing period of the Essay.

Year 12 & 13 IB Diploma Subjects

Subject selection is made in consultation with the IB Coordinator, Student Futures, teaching staff, students and parents. All students are interviewed to help them plan a suitable course and to make appropriate selections of Standard and Higher Level subjects.

Students choose one subject from groups 1– 5 plus one subject from group 6, or a second subject from groups 1–5. GROUP 1 GROUP 3 GROUP 5 GROUP 6 GROUP 2

Theory of Knowledge (Compulsory

The Theory of Knowledge course is a fundamental part of the Diploma. It is a course of interdisciplinary study that challenges students to think critically about knowledge itself. It poses questions such as:

How do we know? What counts as knowledge? What is the value of knowledge? How does it grow? What are its limits? Who owns knowledge? What are the implications of having, or not having knowledge?

The course encourages students to:

- Reflect critically on diverse ways of knowing and on areas of knowledge
- Consider the role and nature of knowledge in their own culture, in the cultures of others and in the wider world

The course is organised in four broad categories with linking questions:

- Knowledge issues
- · Knowers and knowing
- Ways of knowing
- Areas of knowledge

A successful TOK course will build on the student's own experience and involve them to explore the values of curiosity, thoughtful inquiry and critical thought.

THEORY OF KNOWLEDGE ASSESSMENT

There is no examination in TOK. However, students are required to complete a TOK essay from a list of prescribed titles. The TOK essay is externally assessed. Students must also complete a TOK exhibition which is internally assessed but externally moderated.

	Theory of Knowledge					
Extended Essay	Excellent A	Good B	Satisfactory C	Mediocre D	Elementary E	Not Submitted
Excellent A	3	3	2	2	Z	N
Good B	3	2	2	1	Ν	Ν
Satisfactory C	2	2	1	0	Ζ	Ν
Mediocre D	2	1	0	0	Ν	Ν
Elementary E	Ν	Ν	Ν	Ν	Ν	Ν
Not Submitted	Ν	Ν	Ν	Ν	Ν	N

Year 12 & 13 IB Diploma Subjects

Subject selection is made in consultation with the IB Coordinator, Student Futures, teaching staff, students and parents. All students are interviewed to help them plan a suitable course and to make appropriate selections of Standard and Higher Level subjects.

Students choose one subject from groups 1– 5 plus one subject from group 6, or a second subject from groups 1–5. GROUP 1 GROUP 3 GROUP 5 GROUP 6 GROUP 2

GROUP 1 (STUDIES IN LANGUAGE & LITERATURE)

Subject choices in Group 1 are Studies in English A: Literature, English A: Language and Literature and Chinese A: Language and Literature

Chinese A: Language & Literature

Contact: Ms T Yan

Entry Guidelines

To take this course, students need to meet the following criteria:

- Native speaker of Chinese
- Experienced in using Chinese in an academic context, having had at least 6 years of 语文/國文 (Chinese Language and Literature) education

The final decision is made upon interviews by the Chinese A teacher.

Introduction

The Chinese A: Language and Literature course aims to develop students' skills of textual analysis and the understanding that texts, both literary and non-literary, can be seen as autonomous yet simultaneously related to culturally determined reading practices.

The course comprises four parts – two relate to the study of language and two to the study of literature. The skills of analysis are practised to enable students to show their appreciation of previously unseen texts as well as their knowledge and understanding of texts studies in classes.

Course Outline

Both HL and SL courses consist of four parts:

- Language in cultural context
- Language and mass communication
- Literature texts and contexts
- Literature critical study

ASSESSMENT

Students will be assessed externally and internally at both HL and SL. $\,$

Standard Level Assessment		
External Assessment		70%

Subject selection is made in consultation with the IB Coordinator, Student Futures, teaching staff, students and parents. All students are interviewed to help them plan a suitable course and to make appropriate selections of Standard and Higher Level subjects.

English A: Language & Literature

Entry Guidelines

15 credits at NCEA Level 1 English.

Introduction

The English A: Language and Literature course involves the study of language in cultural context, language and mass communication, and literature from a variety of cultural backgrounds over a broad period of time. The course is designed to: develop in students, the ability to engage in close detailed analysis of individual texts and make relevant connections with them and between them; develop students' power of expression both in oral and written communication; encourage students to appreciate the formal, stylistic and aesthetic qualities of the texts and think critically about the different interactions between text, audience and purpose.

Course Outline

Higher Level students study 13 works. Standard Level students study 9 works. Works include texts in translation such as novels and plays. New Zealand texts are also included in the course.

The language units are: readers, writers and texts, time and space, and intertextuality: connecting texts.

Concepts covered in the syllabus include: identity, culture, creativity, communication, perspective, transformation and representation.

ASSESSMENT

Students will be assessed externally and internally at both Higher and Standard Levels.

Standard Level Assessment

Individual Oral		20%

Subject selection is made in consultation with the IB Coordinator, Student Futures, teaching staff, students and parents. All students are interviewed to help them plan a suitable course and to make appropriate selections of Standard and Higher Level subjects.

English A: Literature

Entry Guidelines

15 credits at NCEA Level 1 English.

Introduction

The English A: Literature course involves the study of literature from a variety of cultural backgrounds over a broad period of time.

Texts are selected from a range of genre and, through an emphasis on cultural awareness, students gain an appreciation of people and issues outside of their immediate experience. The English A: Literature course requires students to dedicate time to reading literature and responding to it verbally and in writing. The skills of analysis are practised to enable students to show their appreciation of previously unseen texts as well as their knowledge and understanding of texts studied in class.

There is an emphasis on discussion and verbal commentaries in order to equip students for assessment in formal oral situations.

Course Outline

Higher Level students study 13 texts. Standard Level students study 9 texts. Works include texts in translation, such as novels and plays. Poetry, autobiography and short stories including New Zealand texts are also included in the course. Concepts covered in the syllabus include: identity, culture, creativity, communication, perspective, transformation and representation.

ASSESSMENT

Students will be assessed externally and internally at both Higher and Standard Levels.

Standard Level Assessment		
External Assessm	nent	70%
Written Paper 1	Guided Literary Analysis	35%
Written Paper 2	Comparative Essay	35%
Internal Assessment		30%
Individual Oral		30%

Higher Level Assessment		
External Assessment		80%
Written Paper 1	Guided Literary Analysis	35%
Written Paper 2	Comparative Essay	25%
Higher Level Essay		20%
Internal Assessment		20%
Individual Oral		20%

Subject selection is made in consultation with the IB Coordinator, Student Futures, teaching staff, students and parents. All students are interviewed to help them plan a suitable course and to make appropriate selections of Standard and Higher Level subjects.

GROUP 2 (LANGUAGE ACQUISITION)

At Saint Kentigern College, Chinese, French, Japanese and Spanish are offered in Group 2. For those students who have not previously studied a language, or who may have previously studied a language but not met the entry requirements for other learned languages in Group 2, Spanish is offered in 'ab initio' (Latin phrase meaning: "from the beginning").

Please note the IBO has strict rules regarding Language levels (either Standard or Higher). In accordance with those rules, Language teachers will assess each student's capabilties and assign a Standard or Higher course to each student.

Chinese B Contact: Ms T Yan

Entry Guidelines

15 credits or more in NCEA Level 1 Chinese and achieved at least one Excellence grade in each of the Internal and External Achievement Standards at Level 1.

If Chinese is the student's heritage language, it is restricted to students who have not undergone a significant, formal course of study in, or of Chinese.

Students must have completed the last three years of study in a school where Chinese was not the first language. This would include all students who have attended Saint Kentigern College since the beginning of Year 9.

Students may have studied or been taught in a different dialect of Chinese.

Entry to the Chinese B course is at the discretion of the Teacher in Charge of Chinese.

Introduction

Chinese is the most widely spoken language in the world. Because of the large, prosperous economy and the developing trading relationship with New Zealand, it is currently an important and very popular foreign language to learn. This Chinese course aims to give students an advantage in the increasingly competitive business world incorporating the skills of reading, writing and speaking, with the receptive skill of listening. It develops the student's understanding of Chinese culture and lifestyle in the 21st century.

Course Outline

Standard and High Level Chinese consist of a combination of internally assessed speaking, and externally assessed Reading, Writing and Listening.

The themes for study include:

- Identities
- Social Organisation
- Experiences
- · Sharing the Planet
- · Human Ingenuity

Standard Level and High Level Assessment			
External Assessment		75%	
Written Paper 1	Writing	25%	
Written Paper 2	Listening and Reading	50%	
Internal Assessment		25%	
Individual Oral		25%	

Subject selection is made in consultation with the IB Coordinator, Student Futures, teaching staff, students and parents. All students are interviewed to help them plan a suitable course and to make appropriate selections of Standard and Higher Level subjects.

French B Contact: HoD French

Entry Guidelines

15 credits or more in NCEA Level 1 French.

This course is especially suitable for students with an 'M' endorsement or higher, at Level 1.

Introduction

French is spoken widely in the world and while already a popular subject for New Zealand students, it continues to be an increasingly important and relevant foreign language to learn. This French course incorporates the skills of reading, writing and speaking with the passive skill of listening. It aims to give students a sound understanding of French culture and lifestyle in the 21st century.

Course Outline

The Standard Level course (Higher Level will only be offered at the discretion of the Teacher in Charge) consists of a combination of internally assessed Speaking, and externally assessed Reading, Writing and Listening The themes for study include:

- Identities
- Social Organisation
- Experiences
- · Sharing the Planet
- · Human Ingenuity

ASSESSMENT

Standard Level and High Level Assessment		
External Assessment		75%
Written Paper 1	Writing	25%
Written Paper 2	Listening and Reading	50%
Internal Assessment		25%
Individual Oral		25%

Japanese B Contact: Ms K Takeda

Entry Guidelines

15 credits in NCEA Level 1 Japanese. Students must also have achieved an Excellence grade in ONE of the External Achievement Standards and ONE of the Internal Achievement Standards at Level 1.

Introduction

Japanese remains an important economic power in the world today – a leader in technology as well as being a major trading partner for New Zealand therefore is currently an important and popular foreign language to learn. This Japanese course incorporates the skills of reading, writing and speaking with the passive skill of listening. It aims to give students a sound understanding of Japanese culture and lifestyle in the 21st century.

Course Outline

Standard Level Japanese (Higher Level will not be offered). Assessment consists of a combination of internally assessed Speaking, and externally assessed Reading, Writing and Listening (with a specific emphasis on kanji).

The themes for study include:

- Identities
- Social Organisation
- Experiences
- · Sharing the Planet
- Human Ingenuity

Standard Level and High Level Assessment		
External Assessment		75%
Written Paper 1	Writing	25%
Written Paper 2	Listening and Reading	50%
Internal Assessment		25%
Individual Oral		25%

Subject selection is made in consultation with the IB Coordinator, Student Futures, teaching staff, students and parents. All students are interviewed to help them plan a suitable course and to make appropriate selections of Standard and Higher Level subjects.

Spanish B Contact: Mrs M Martinez

Entry Guidelines

15 credits or more in NCEA Level 1 Spanish. This course is especially suitable for students with an 'M' endorsement or higher at Level 1.

Introduction

Spain and South America are becoming major trading partners for New Zealand and therefore Spanish is increasingly an important and popular foreign language to learn. This Spanish course incorporates the skills of reading, writing, speaking and listening. It aims to give students a sound understanding of Spanish culture and lifestyle in the 21st century.

Course Outline

The Standard Level course (Higher Level will only be offered at the discretion of the Teacher in Charge) consists of a combination of internally assessed Speaking, and externally assessed Reading, Writing and Listening. The themes for study include:

- Identities
- Social Organisation
- Experiences
- · Sharing the Planet
- · Human Ingenuity

ASSESSMENT

Standard Level and High Level Assessment		
External Assessment		75%
Written Paper 1	Writing	25%
Written Paper 2	Listening and Reading	50%
Internal Assessment Internally Assessed by the teacher and externally moderated by the IB		25%
Individual Oral		25%

Contact: Mrs M Martinez

Spanish B (ab-initio)

Entry Guidelines

None.

This course is for those students who have not previously studied a language, or who may have previously studied a language but not met the entry criteria for the other Group 2 languages. "Ab-initio" means 'from the beginning' (Latin).

Introduction

Spain and South America are becoming major trading partners for New Zealand and therefore Spanish is increasingly an important and popular foreign language to learn. This Spanish course incorporates the skills of reading, writing, speaking and listening. It aims to give students a sound understanding of Spanish culture and lifestyle in the 21st century.

Course Outline

While this is a beginners course in Spanish, students will be expected to reach a standard equivalent to Year 12 NCEA level, by the end of their second year. An extended vocabulary list required for the reading and listening assessments will be issued at the beginning of the course.

Themes:

- Identities
- Experiences
- Human Ingenuity
- Social Organisation
- Sharing the Planet

ab-Initio Assessment		
External Assessm	nent	75%
Written Paper 1	Writing	25%
Written Paper 2	Receptive Skills – listening and reading	50%
Internal		25%
Individual Oral		25%

Subject selection is made in consultation with the IB Coordinator, Student Futures, teaching staff, students and parents. All students are interviewed to help them plan a suitable course and to make appropriate selections of Standard and Higher Level subjects.

GROUP 3 (INDIVIDUALS & SOCIETIES)

Subject choices in Group 3 are Business Management, Economics, Geography, History and Psychology.

Business Management

Contact: Mrs T Ramakers

Entry Guidelines

A minimum of 10 credits from NCEA Level 1 Achievement Standards in Commerce (Accounting, Business or Economics).

Introduction

Business Management is a rigorous and dynamic discipline that examines business functions, management processes and decision making in contemporary business contexts. It also considers business decisions that are influenced by internal and external factors and how these decisions impact upon its stakeholders.

Course Outline

The aim is to help students understand the implications of business activity in a global market.

It is designed to give students an international perspective of business and to promote their appreciation of cultural diversity through the study of the topics; Business Organisation and their environment, Marketing, Human Resource Management, Finance and Accounts and Operations Management. Each unit in the course begins with conceptual understanding statements. These statements include the key concepts and summarise important ideas and core processes that are central to each unit. The four interdisciplinary concepts are creativity, change ethics and sustainability. Students are empowered through the exploration of the key concepts from a business perspective.

Overall, the Business Management course will contribute to students' development as critical and effective participants in local and world affairs and develop skills that are relevant to today's students.

ASSESSMENT

Students will sit two external examinations and write one internal assessment for both Standard Level and Higher Level courses.

Standard Level Assessment		
External Assessment		70%
Written Paper 1	Based on a pre-released statement that specifies the context and background for the unseen case study.	35%
Written Paper 2	Based on unseen stimulus material with a quantitative focus.	35%
Internal Assessment – A written commentary based on three to five supporting documents about a real issue or problem facing aparticular organisation. 30%		

Higher Level Assessment		
External Assessment		75%
Written Paper 1	Based on a pre-released statement that specifies the context and background for the unseen case study.	25%
Written Paper 2	Based on an unseen stimulus material with a quantitative focus.	25%
Written Paper 3	Based on unseen stimulus material about a social enterprise	25%
Internal Assessment – A research project that enables students to demonstrate the application of their skills and knowledge in business management to real organisation issues or decision-making.		

Subject selection is made in consultation with the IB Coordinator, Student Futures, teaching staff, students and parents. All students are interviewed to help them plan a suitable course and to make appropriate selections of Standard and Higher Level subjects.

Economics Contact: Mr E Aldiss

Entry Guidelines

A minimum of 10 credits from the NCEA Level 1 Achievement Standards in Commerce.

For those students who have not previously studied Economics but who wish to enter IB Diploma Economics, credits obtained in English and Mathematics will be used as the basis for entry.

Introduction

Economics is a dynamic social science, forming part of Group 3 – individuals and societies. The study of economics is about dealing with scarcity, resource allocation and the methods and processes by which choices are made in the satisfaction of human wants.

The economics course encourages students to consider ethical dimensions and perspectives, foster a concern for global issues and raise awareness of their own responsibilities at a local, national, and international level.

The course also seeks to develop values and attitudes that will enable students to achieve a degree of personal commitment in trying to resolve these issues, appreciating our shared responsibility as citizens of an increasingly interdependent world.

Course Outline

Introduction to Economics

- Micro-economics
- Macro-economics
- International Economics
- Development Economics

Standard Level Assessment		
External Assessm	ent	70%
Written Paper 1	Two extended response questions	30%
Written Paper 2	Two data response questions	40%
Internal Assessment		30%

Higher Level Assessment			
External Assessm	ent	80%	
Written Paper 1	Two extended response questions	20%	
Written Paper 2	Two data response questions	30%	
Written Paper 3	Two quantitative method questions	30%	
Internal Assessment		20%	

Subject selection is made in consultation with the IB Coordinator, Student Futures, teaching staff, students and parents. All students are interviewed to help them plan a suitable course and to make appropriate selections of Standard and Higher Level subjects.

Geography Contact: Mr J Mather

Entry Guidelines

There is no specific entry requirement for IB Geography as skills needed are developed within the course however it is preferable and advantageous for students to have some understanding of Geography from Level 1 and an awareness of current global issues.

Introduction

The topics covered in Geography are related to real-world current issues that are relevant to present day and future societies, and that consider the interactions between people and the physical environment.

Geography looks at ways people in different cultures have brought about changes through their interaction with the natural world and how our growth as a species is creating some significant global issues. It also investigates the way people adapt and respond to change and evaluates management strategies associated with such change through a range of international and local case studies.

The Diploma Programme Geography course integrates both physical and human geography and ensures students acquire elements of both scientific and socio-economic methodologies. The course starts at Year 12, includes one internal assessment, and ends with the examinations at the end of Year 13. Geography can be continued as a Humanity or Science subject at University.

Additional Course Costs & Special Requirements

Field trips are part of the Geography course. There are additional costs associated with these.

Course Outline

Higher and Standard Level Geography course common themes.

Part 1 - Geographic Themes

There are seven options. Options may vary from year to year, but are selected from:

- Freshwater drainage basins
- Oceans and coastal margins
- Extreme environments
- Geophysical hazards
- Leisure, tourism and sport
- Food and Health
- Urban environments

Two options are studied at Standard Level.

Three options are studied at Higher Level.

Part 2 - Core

The focus of the Core syllabus is 'Geographic Perspectives and Global Change'. Topics studied include:

- Population distribution changing population.
- Global climate vulnerability and resilience.
- Global resource consumption and security.

Part 2 - Higher Level Core Extension

The focus of the Higher Level Core Extension is 'Global Interactions'. Topics include:

- Power, places and networks.
- Human development and diversity.
- Global risks and resilience.

Subject selection is made in consultation with the IB Coordinator, Student Futures, teaching staff, students and parents. All students are interviewed to help them plan a suitable course and to make appropriate selections of Standard and Higher Level subjects.

Standard Level Assessr	nent	
External Assessment		75%
Written Paper 1 (Geographic Themes)	Each option has one structured question and one extended answer question from a choice of two. Total of 40 marks	35%
Written Paper 2 (Core)	Section A: Three structured questions (30 marks) Section B: Infographic or visual stimulus with structured questions (10 marks) Section C: One extended answer from a choice of two (10 marks) Total 50 marks	40%
Internal Assessment		25%

Higher Level Assessme	nt	
External Assessment		80%
Written Paper 1 (Geographic Themes)	Each option has one structured question and one extended answer question from a choice of two. Total of 60 marks	35%
Written Paper 2 (Core)	Section A: Three structured questions (30 marks) Section B: Infographic or visual stimulus with structured questions (10 marks) Section C: One extended answer from a choice of two questions (10 marks) Total 50 marks	25%
Written Paper 3 (Higher Level Core Extension)	Students answer one extended answer questions from a choice of three. Total 28 marks	20%
Internal Assessment		20%

Subject selection is made in consultation with the IB Coordinator, Student Futures, teaching staff, students and parents. All students are interviewed to help them plan a suitable course and to make appropriate selections of Standard and Higher Level subjects.

History Contact: Ms M Ward

Entry Guidelines

15 credits in NCEA Level 1 History.

For those students who have not previously studied History but who wish to enter IB Diploma History, credits obtained in another Social Science subject, or English will be used as the basis for entry.

Introduction

IB Diploma History is concerned with individuals and societies in the widest context: political, social, economic, religious, technological and cultural. It contributes to students' understanding of their culture, heritage and identity in a global and international context. The course seeks to enable our students to understand the world around them from an international perspective. In understanding the past, our students can have a better understanding of the future and how that may be shaped by good global citizens.

Course Outline

Higher and Standard Level History Course Common Themes Paper 1

 The Move to Global War: Japanese, German and Italian Expansion 1931 – 41

Paper 2

- Causes and Effects of 20th Century Wars
- Authoritarian States (20th century)

Higher Level History Course only Paper 3

- History of Europe; includes
 - Europe and the First World War (1871-1918)
 - Inter-war domestic developments in European states (1918-1939)
 - Diplomacy in Europe (1919-1945)

ASSESSMENT

Students will be assessed externally and internally at both Higher and Standard Levels.

Standard Level Assessment		
External Assessm	nent	75%
Written Paper 1	A document based paper on a prescribed subject	30%
Written Paper 2	An essay paper based on 20th century world history topics	45%
Internal Assessment		25%

Higher Level Assessment		
External Assessm	ent	80%
Written Paper 1	A document based paper on a prescribed subject	20%
Written Paper 2	An essay paper based on 20th century world history topics	25%
Written Paper 3	An essay paper based on regional options	35%
Internal Assessment		20%

Subject selection is made in consultation with the IB Coordinator, Student Futures, teaching staff, students and parents. All students are interviewed to help them plan a suitable course and to make appropriate selections of Standard and Higher Level subjects.

Psychology Contact: Ms S Tornquist

Entry Guidelines

There are no entry requirements for this subject.

Introduction

Psychology a social science forming part of Group 3. It is the rigorous and systematic study of mental processes and behaviour. It is a complex subject which draws on concepts, methods and understandings from a number of different disciplines.

The course looks at the study of behaviour and mental processes requiring a multidisciplinary approach and the use of a variety of research techniques.

Course Outline

At the core of the DP psychology course is an introduction to three different approaches to understanding behaviour:

- Biological approach to understanding behaviour
- · Cognitive approach to understanding behaviour
- Sociocultural approach to understanding behaviour

There is a choice of options in the course. The focus will be on areas of applied psychology:

- Abnormal psychology
- Psychology of relationships

Standard Level Assessment		
External Assessment		75%
Written Paper 1	Section A: Three short- answer questions on the core approaches to psychology Section B: One essay from a choice of three on the biological, cognitive and sociocultural approaches to behaviour	50%
Written Paper 2	One question from a choice of three on one option	25%
Internal Assessment		25%

Higher Level Assessment		
External Assessment		80%
Written Paper 1	Section A: Three short- answer questions on the core approaches to psychology Section B: One essay from a choice of three on the biological, cognitive and sociocultural approaches to behaviour	40%
Written Paper 2	Two question from a choice of three on two options	20%
Written Paper 3	Three short-answer questions	20%
Internal Assessment 20%		20%

Subject selection is made in consultation with the IB Coordinator, Student Futures, teaching staff, students and parents. All students are interviewed to help them plan a suitable course and to make appropriate selections of Standard and Higher Level subjects.

GROUP 4 (EXPERIMENTAL SCIENCES)

Subject choices in Group 4 are Biology, Chemistry and Physics.

Biology Contact: Ms S Tornquist

Entry Guidelines

A minimum of 15 credits in NCEA Level 1 Science and would benefit from Year 11 Specialist Chemistry – Biology.

Introduction

The IB Biology course will enable students to develop a greater understanding of biological facts together with an appreciation of their significance in new and changing situations. They will develop greater expertise in the area of practical work and the link between theory and experimental work.

Students can continue to enjoy and further develop a personal interest in living organisms as well as learn to recognise the responsible use of biology and biotechnology within international scientific organisations.

The course encourages the use of ICT to develop information and communication technology skills in the study of Biology.

Course Outline

The two year course comprises of:

- Ecology
- Genetics
- Molecular Biology
- Plant Science (Higher Level only)
- Animal Physiology (Higher Level only)
- Cell Biology
- Evolution and Biodiversity
- Human Physiology
- Energy in Cells (Higher Level only)
- Plus an additional option topic

ASSESSMENT

Students will be assessed externally and internally at both Higher and Standard Levels.

Standard Level Assessment			
External Assessment		80%	
Written Paper 1	30 multiple choice questions on core content	20%	
Written Paper 2	Data based questions, short answer and extended response questions	40%	
Written Paper 3	Short answers based on one option studied and experimental skills and techniques.	20%	
Internal Assessment		20%	

Higher Level Assessment			
External Assessment		80%	
Written Paper 1	40 multiple choice questions on core content	20%	
Written Paper 2	Data based questions, short answer and extended response questions	36%	
Written Paper 3	Short answers based on one option studied and experimental skills and techniques.	24%	
Internal Assessment		20%	

Subject selection is made in consultation with the IB Coordinator, Student Futures, teaching staff, students and parents. All students are interviewed to help them plan a suitable course and to make appropriate selections of Standard and Higher Level subjects.

Chemistry Contact: Mrs S Mellsop

Recommendation for successful outcomes:

A minimum of 15 credits in NCEA Level 1 Science and would benefit from Year 11 Specialist Chemistry – Biology or Chemistry – Physics.

Introduction

IB Chemistry is the study of the composition, properties, and reactions of matter, particularly at the level of atoms and molecules. It is the branch of science concerned with the investigation of the properties and reactions of substances, and the use of such reactions to form new compounds. In the process of studying such reactions and properties, the IB chemistry course serves to make links between both Physics and Biology. Students, as always, need to have inquiring minds, be able to face challenges, acknowledge and build upon achievements of others, be innovative and be prepared to take calculated risks in their problem solving.

Course Outline

The two year course comprises of:

- Models of the particulate nature of matter
- Models of bonding and structure
- · Classification of matter
- What drives chemical reactions?
- · How much, how fast and how far?
- What are the mechanisms of chemical change?
- Practical work
- Collaborative sciences project
- Scientific investigation

ASSESSMENT

Internal Assessment is an integral part of the course and is compulsory for both HL and SL students. Each student will carry out an individual investigation enabling them to demonstrate the application of their skills and knowledge and to pursue their personal interests.

Standard Level Assessment		
External Assessment		80%
Written Paper 1 (55 marks) Paper 1A Paper 1B	Multiple choice questions Data based questions	36%
Written Paper 2 (50 marks)	Short-answer questions and extended response to questions	44%
Internal Assessment		20%

Higher Level Assessment		
External Assessm	ent	80%
Written Paper 1 (75 marks) Paper 1A Paper 1B Written Paper 2	Multiple choice questions Data based questions Short-answer and extended	36%
(90 marks)	response to questions on the core and AHL material	1170
Internal Assessment		20%

Subject selection is made in consultation with the IB Coordinator, Student Futures, teaching staff, students and parents. All students are interviewed to help them plan a suitable course and to make appropriate selections of Standard and Higher Level subjects.

Physics Contact: Mr J Naude

Entry Guidelines

A minimum of 15 credits in NCEA Level 1 Science and would benefit from Year 11 Specialist Chemistry – Physics.

Introduction

IB Physics is offered at Standard Level (SL) and Higher Level (HL) and therefore accommodates students who wish to study Physics as their major subject in higher education along with those who have a strong interest in Physics.

Physics is the most fundamental of the experimental sciences, as it seeks to explain the universe itself from the very smallest particles, currently accepted as quarks, which may be truly fundamental to the vast distances between galaxies.

Through studying this course, not only will students expand their existing Physics knowledge, they will also develop and apply problem solving techniques, investigative skills as well as collaborative and communication skills.

Course Outline

The two year course comprises of:

- Mechanics
- Waves
- Atomic and Nuclear Physics
- Energy Production
- Thermal Physics
- Electricity and Electromagnetism
- Quantum Physics

Additional Course Costs & Special Requirements

Write-on notes

ASSESSMENT

Students will be assessed externally and internally at both Higher and Standard Levels.

Standard Level Assessment		
External Assessm	nent	80%
Written Paper 1	Multiple-choice and data based questions based on the core topics	36%
Written Paper 2	Short answer and extended- response questions on the core topics	44%
Internal Assessment		20%

Higher Level Assessment		
External Assessment		80%
Written Paper 1	Multiple-choice questions based on the core and AHL topics	36%
Written Paper 2	Extended-response questions on the core and the AHL topics	44%
Internal Assessment		20%

Subject selection is made in consultation with the IB Coordinator, Student Futures, teaching staff, students and parents. All students are interviewed to help them plan a suitable course and to make appropriate selections of Standard and Higher Level subjects.

Sport, Exercise & Health Science

Entry Guidelines

15 credits in Level 1 Science.

Introduction

Sports, Exercise and Health Science (SEHS) is an experimental science that combines academic study with the acquisition of practical and investigative skills.

Aspects of biological and physical science is studied in the specific context of sports, exercise and health. The course incorporates the traditional disciplines of anatomy and physiology, biomechanics, psychology and nutrition.

Course Outline

The two year course covers;

Standard Level

- Anatomy
- Exercise physiology
- Energy systems
- Movement analysis
- Skill in sports
- Measurement and evaluation of human performance

Higher Level

- Further anatomy
- The endocrine System
- Fatigue
- Friction and drag
- Skill acquisition and analysis
- Genetics and athletic performance
- Exercise and immunity

ASSESSMENT

Students will be assessed externally and internally at both Higher and Standard Levels.

Standard Level Assessment		
External Assessment		80%
Written Paper 1	30 Multiple choice questions on core connect	20%
Written Paper 2	Section A: One data- based question and several short-answer questions on standard level content.	35%
Written Paper 3	Several short-answer questions in each of the options studied	25%
Internal Assessment		20%
Individual investigation into a research topic of their choosing		20%

Higher Level Assessment		
External Assessment		80%
Written Paper 1	30 Multiple choice questions on core connect	20%
Written Paper 2	Section A: One data- based question and several short-answer questions on standard and higher level content.	35%
Written Paper 3	Several short-answer questions in each of the options studied	25%
Internal Assessment		20%
Individual investigation into a research topic of their choosing		20%

Subject selection is made in consultation with the IB Coordinator, Student Futures, teaching staff, students and parents. All students are interviewed to help them plan a suitable course and to make appropriate selections of Standard and Higher Level subjects.

GROUP 5 (MATHEMATICS)

To cater for all abilities, Group 5 offers two Mathematics courses: Analysis and Approaches (SL & HL); Applications and Interpretation (SL & HL).

Mathematics: Analysis & Approaches (SL & HL)

Contact: Dr J Sneddon

Entry Guidelines

Students who have successfully completed Level 1 Mathematics endorsed with Merit or higher. Students who have successfully completed Level 2 Mathematics would be suitable to study this at Higher Level.

Introduction

This course caters for students with a very strong background in Mathematics who are competent in a range of analytical and technical skills.

- Emphasis on algebraic methods
- Develop strong skills in mathematical thinking
- Real and abstract mathematical problem solving
- For students interested in mathematics, engineering, physical sciences and some economics

Course Outline

Topics covered are:

- · Quadratic functions and equations
- Probability
- Exponential and log functions
- Rational functions
- Patterns
- Sequences
- · Limits and derivations
- Descriptive Statistics
- Integration
- Bi-variate analysis
- Trigonometry
- Vectors
- Circular functions
- Calculus with Trigonometry functions
- Probability distributions

Standard Level Assessment		
External Assessment		80%
Written Paper 1 1.5 hours	No calculator allowed Section A – Compulsory short-response questions based on the syllabus Section B – Compulsory extended-response questions based on the whole syllabus	40%
Written Paper 2 1.5 hourrs	Graphic display calculator required Section A – Compulsory short-response questions based on the whole syllabus Section B – Compulsory extended-response questions based on the whole syllabus	40%
Internal Assessment		20%

Higher Level Assessment		
External Assessment		80%
Written Paper 1 2 hours	No calculator allowed Section A – Compulsory short-response questions based on the syllabus Section B – Compulsory extended-response questions based on the whole syllabus	30%
Written Paper 2 2 hours	Graphic display calculator required Section A – Compulsory short-response questions based on the syllabus Section B – Compulsory extended-response questions based on the whole syllabus	30%
Written Paper 3 1 hour	Extended response problem solving questions based on the syllabus	20%
Internal Assessment		20%

Subject selection is made in consultation with the IB Coordinator, Student Futures, teaching staff, students and parents. All students are interviewed to help them plan a suitable course and to make appropriate selections of Standard and Higher Level subjects.

Entry Guidelines

Students who have successfully completed Level 1 Mathematics with at least an Achieved grade. Students who have a Merit Endorsement in Level 1 Mathematics would be suitable to study this at Higher Level.

Introduction

This course caters for students who enjoy problem solving and real world applications of Mathematics.

- Emphasis on modelling and statistics
- Develop strong skills in applying mathematics to the real-world
- Real mathematical problem solving using technology
- For students interested in social sciences, natural sciences, medicine, statistics, business, psychology and design

Standard Level Assessment		
External Assessment		80%
Written Paper 1 1.5 hours	Graphic display calculator required Compulsory short-response questions based on the whole syllabus	40%
Written Paper 2 1.5 hours	Graphic display calculator required Compulsory extended-response questions based on the whole syllabus	40%
Internal Assessment		20%

Higher Level Assessment		
External Assessment		80%
Written Paper 1 2 hours	Graphic display calculator required Compulsory short-response questions based on the whole syllabus	30%
Written Paper 2 2 hours	Graphic display calculator required Compulsory extended-response questions based on the whole syllabus	30%
Written Paper 3 1 hour	Compulsory extended- response problem-solving questions	20%
Internal Assessment 20%		

Subject selection is made in consultation with the IB Coordinator, Student Futures, teaching staff, students and parents. All students are interviewed to help them plan a suitable course and to make appropriate selections of Standard and Higher Level subjects.

GROUP 6 (THE ARTS)

Subject choices in Group 6 are Visual Art, Film Studies, Music and Theatre Studies

Film Studies Contact: Mr L Oliver

Entry Guidelines

10 credits in NCEA Level 1 Media in Society or 15 credits in NCEA Level 1 English.

Introduction

The Film Studies course at Standard and Higher Level aims to develop in students the skills necessary to achieve create and critical independence in their knowledge, experience and enjoyment of film.

The aims are to promote:

- An appreciation and understanding of film as a complex art form
- An ability to formulate stories and ideas in film terms
- The practical and technical skills of production
- Critical evaluation of film production by the student and by others
- A knowledge of film-making traditions in more than one country

Course Outline

IB Film Studies is both a powerful communication medium and an art form. The Film Studies course aims to develop students'

skills so they become adept in both interpreting and making film texts.

Through the study and analysis of film texts and exercises in film-making, the course explores film history, theory and socio-economic background. The course develops students' critical abilities, enabling them to appreciate the multiplicity of cultural and historical perspectives in film. To achieve an international understanding within the world of film, students are taught to consider film texts, theories and ideas from the point of view of different individuals, nations and cultures.

There is an expectation that students join the Film Society and 48 Hour Film Challenge in both years of the course.

Textual analysis: The study of films and film-making traditions for more than one country.

Creative process: Techniques and organisation of production. The development of creative, analytical and production skills within film-making.

Additional Course Costs

8GB SD Card

Standard Level Assessment		
External Assessment		60%
Textual Analysis	Textual analysis (max 1,750 words) of a prescribed film text based on a chosen extract (max 5 mins), and list of sources.	30%
Comparative Study	Recorded multimedia comparative study (max 10 mins), and list of sources.	30%
Internal Assessment		40%
Film Portfolio	Portfolio pages (max 9 pages: 3 pages per production role) and list of sources. A film reel (max 9 mins: 3 mins per production role, including 1 completed film).	40%

Higher Level Assessment		
External Assessment		40%
Textual Analysis	Textual analysis (max 1,750 words) of a prescribed film text based on a chosen extract (max 5 mins), and list of sources.	20%
Comparative Study	Recorded multimedia comparative study (max 10 mins), and list of sources.	20%
Internal Assessment		60%
Ed. D. (C.)		
Film Portfolio	Portfolio pages (max 9 pages: 3 pages per production role) and list of sources. A film reel (max 9 mins: 3 mins per production role, including 1 completed film).	25%

Subject selection is made in consultation with the IB Coordinator, Student Futures, teaching staff, students and parents. All students are interviewed to help them plan a suitable course and to make appropriate selections of Standard and Higher Level subjects.

Music Contact: Ms M Lin

Entry Guidelines

15 credits in NCEA Level 1 Music or at the discretion of the Head of Music if the student has sufficient practical skills and music literacy.

Introduction

This is a very practical course that allows students to explore, experiment, present and collaborate in a wide range of styles and genres in different roles – researcher, composer/songwriting, and performer.

Course Outline

Students will be taught a diverse range of works – from the traditional to the classics, the modern to the film and electronica, with strategies to implement these as part of their portfolios.

The research and creative components will be completed in class, with industry workshops at various times during the term. There are no written or practical external examination at the end of the year. The college co-curricular music group performances can be part of the portfolio alongside other solo and ensemble performances.

Standard Level students will complete 3 portfolios

- Explore Music in Context researching a diverse range of works with short snippets of creative and performance adaptation
- Experimenting with Music transform existing musical stimulus to new styles and genres as short performance, arrangement, remix or composition
- Presenting Music recording of compositions and performances followed by a short programme note

Higher Level students will complete an additional portfolio

• Contemporary Music Maker – a 15 minute multimedia presentation similar to an event management project, where students collaborate with other music or arts (dance, drama, art, media studies) students to combine research, create (original or arrangement) and performance (can be solo, group, DJ or conducting) for an existing or new event

Standard Level Assessment	
External Assessment	70%
Explore Music in Context	30%
Present Music	40%
Internal Assessment	30%
Experiment with Music	30%

Higher Level Assessment	
External Assessment	50%
Explore Music in Context	20%
Present Music	30%
Internal Assessment	50%
Collaborative Contemporary Music Maker	30%
Experiment with Music	20%

Subject selection is made in consultation with the IB Coordinator, Student Futures, teaching staff, students and parents. All students are interviewed to help them plan a suitable course and to make appropriate selections of Standard and Higher Level subjects.

Theatre Arts Contact: Mr D Sheehar

Entry Guidelines

There are no prerequisites for entry to the Theatre Arts course.

Introduction

IB Theatre Arts is an exciting course where students learn, through experience, all areas of theatre. Students will gain skills as creators, designers, directors, and performers.

Theatre is a dynamic, collaborative and live art form. It is a practical subject that encourages discovery through inquiry, experimentation, risk taking and the presentation of ideas to others. Through the study of theatre, students strengthen their awareness of their own personal and cultural perspectives, developing an appreciation of the diversity of theatre practices, their processes, and their modes of presentation. The creative collaboration experienced by students in the course will transfer to all areas of their Diploma.

Course Outline

At Higher Level the core syllabus consists of four inter-related areas. Students will explore these areas from the perspective of dramaturg, director, performer, group ensemble, production team and spectator.

Standard Level Assessment				
External Assessment	65%			
Director's Notebook	35%			
Research Presentation	30%			
Internal Assessment	35%			
Collaborative Project	35%			

- Staging play texts Students will learn how to transform a play from page to stage. Students will use this opportunity to formulate their own creative vision for a significant play and critically explore ways to stage this for an audience
- Exploring world theatre traditions Students inquire into and physically explore world theatre traditions, performance conventions and performance material from those traditions in order to acquire a deeper understanding and appreciation of the traditions through the body and/or voice. This project will broaden students understanding of the world and help them become more globally minded
- Collaboratively creating original theatre Students
 will collaborate with their peers to create a fully realised
 production for an audience. Students will use their prior
 learning of staging plays and world theatre to create an
 original piece of theatre
- Performing theatre theory (HL only) Students will learn about an influential theatre theorist and create a solo piece of work based on their research. This allows students the opportunity to grow their performance skills whilst also supporting their understanding of professional stagecraft

Higher Level Assessment				
External Assessment	75%			
Solo Theatre Piece	35%			
Director's Notebook	20%			
Research Presentation	20%			
Internal Assessment	25%			
Collaborative Project	25%			

Subject selection is made in consultation with the IB Coordinator, Student Futures, teaching staff, students and parents. All students are interviewed to help them plan a suitable course and to make appropriate selections of Standard and Higher Level subjects.

Visual Art Contact: Mr R Strattor

Entry Guidelines

Ideally you have completed Year 11 Art but it is not essential. Year 11 DVC is also a good pathway towards this course. Please see Mr Stratton if you have questions regarding your suitability.

The aims of the course are:

- To investigate a range of materials, processes and techniques in a practical Art context. Students will also develop contextual and content knowledge of Visual Art across time, place and cultures and develop perceptual and analytical skills. This course encourages creative and divergent thinking and develops an ability to express ideas with confidence and competence
- Become an informed, reflective and critical practitioner and observer of visual culture and media. Students will make personal and culturally relevant artworks
- Develop a range of art making skills and techniques

Course Outline

Year 1 topics

- Practical workshops taking into account core elements of Visual Art and Design
- Series of class briefs individually interpreted to produce visual outcomes in a range of genre's and approaches
- Comparative Study research and analysis of a range of art works with regard to the concepts and production of student's own work

Year 2 Topics

- Individually proposed inquiry based projects that demonstrate understanding and practical skills, creative invention and knowledge of traditional and contemporary art making processes
- Individual and group exhibition, critiques of visited exhibitions, analysis of curatorial practice

Additional Course Costs

- A pack of Art materials must be purchased at the start
 of the course. These are sold at a discounted rate
 through the Art department for students to complete
 work outside of lesson.
- SD Card for Photographs

ASSESSMENT

Formative assessment/progress meetings through the school year will comprise of an evaluative and critical examination of student's progress with reference to the Diploma Assessment Schedule.

Standard & Higher Level Assessment				
External Assessment	60%			
Comparative Study	20%			
Process portfolio	40%			
Internal Assessment	40%			
Exhibition	40%			

Tertiary Pathways

Please note:

- For entry into any university degree (Bachelors) course, University Entrance is required.
 (14 credits in each of a minimum of 3 NZQA approved subjects. Currently, the only non-UE approved subjects offered by Saint Kentigern College are Financial Literacy and Travel & Tourism) OR 24 points in the International Baccalaureate Diploma.
- If you want to study at an Overseas University, it is highly recommended that you meet with one of the Student Futures team. Entry criteria are more specific and there is variation between, and within, countries.
- You may want to talk to a Student Futures Advisor as early as Year 10, if you are considering study overseas after College.
- 4. In addition to attaining University Entrance, universities also operate a points system/rank score calculated from the best 80 credits earned at Level 3. The score or points varies between establishments.

 Where no location is given, it indicates that this degree is common across New Zealand's tertiary institutions (Universities, Institutes of Technology, Polytechnics, Wānanga and Private Training Establishments).

CAREER FIELD	QUALIFICATION TYPE	WHERE	MINIMUM ENTRY (IF DIFFERENT TO UE)	RECOMMENDED NCEA SUBJECTS
Agriculture/ Farming	Diploma		Minimum of 48 NCEA Level 2 credits in 4 subjects	Level 2 Biology, English, Maths, Chemistry or Physics
	Degree			Level 3 Biology, Maths & Chemistry
Apprenticeships e.g. builder, electrician, plumber	Certificate and Diploma		Specific to the course provider (ITO)	Level 1 English, Maths & Technology
Aviation [i] Air Force	Air Force Officer		90 Credits Level 3 English, Maths, Physics preferred	Level 3 Calculus, Physics & English
	Pilot/Navigator		Physics, 18 credits Level 2 Maths, English, Science preferred	Physics, Chemistry or Computer Studies & English
[ii] Flying Schools			Pre-selection process, 18 years of age	Level 2 Maths & Physics
[iii] Tertiary Education	Bachelor of Aviation	Massey	Pre-selection exam & high standard of English	Level 3 Physics, Calculus & English
Architecture	Degree	Auckland	Portfolio from a design subject	Calculus, Statistics, Physics English, Tech, Art, Design & DVC
		Unitec	Portfolio from a design subject	
		AUT	Portfolio from a design subject	
		Victoria	No portfolio needed to enter 1st year but portfolio required for competitive entry in 2nd year	
Architectural Technology	Diploma	WELTEC	50 credits at NCEA Level 2 or above, with 12 credits in each of the following: Maths, English and Science subjects, or achieved a level 3 or 4 qualification in a related field	Maths, English & Science

CAREER FIELD	QUALIFICATION TYPE	WHERE	MINIMUM ENTRY (IF DIFFERENT TO UE)	RECOMMENDED NCEA SUBJECTS
Architectural Studies (Architectural Technologist or Interior Architect)	Degree	Otago Polytechnic	Portfolio from a design subject	Calculus, Statistics, Physics English, Tech, Art, Design & DVC
Business Management	Degree			Maths Statistics
Commerce	Diploma		48 NCEA Level 2 Credits or	English & Maths
	Degree		better	Maths, English, Accounting and Economics. Calculus if majoring in Economics or Finance
Communication	Degree			Drama, English, Art & History
Computer Science	Degree			Computer Science, Maths & Physics
Construction	Degree	ARA, Massey, Victoria & UNITEC		Maths (required to at least NCEA Level 2), DVC, Product Design & Science
Dentistry	Degree	Otago	Must start with 'Health Sciences First Year' The competitive entry into 2nd year	
Design	Degree			Visual Art – Design or DVC is essential Useful Art History, Classics English, History, Maths, Physics, & Computer Studies
Early Childhood	Certificate		NCEA Level 2	Art History, Classical Studies, English, Geography, History, Maths, Media Studies & other languages
Education	Diploma Degree			
Engineering	Diploma	MIT, NZMIT, WELTEC & UCOL	48 credits at NCEA Level 2 in four subjects – including at least 12 credits in maths (preferably credits in algebra, calculus or trigonometry)	
	Degree	AUT, Auckland, Canterbury, Waikato		Level 3 Calculus & Physics essential. Chemistry highly recommended. Chemistry required for Canterbury
	Degree	Massey	Level 3 Calculus and Physics	
Environmental Sciences	Degree			Chemistry, Biology, Maths Statistics, Geography
Fine Arts	Diploma		Portfolio required Level 2 in English & Art	Art, Art History & English
	Degree		Portfolios required at all institutions Canterbury: Good passes in 2 Art Level 3 subjects & portfolio, or 2 portfolios Auckland: Portfolio and written application required. Massey: Competitive entry, portfolio	Art, Art History & English
Food Science/ Human Nutrition	Degree	AUT, Auckland, Massey & Otago		Chemistry essential. Biology, Maths & Physics recommended
Food Technology	Degree	AUT, Massey		16 credits in each of Chemistry, Maths & Physics

CAREER FIELD	QUALIFICATION TYPE	WHERE	MINIMUM ENTRY (IF DIFFERENT TO UE)	RECOMMENDED NCEA SUBJECTS
Forestry	Degree	Canterbury, Massey		Biology, Chemistry & Statistics
Health Science (NOT entry for Medicine/Dentistry)	Degree	AUT Includes Case management, Counselling, Health management & Public and environmental health		Biology, Chemistry & Maths. A literacy rich subject is also recommended
		Otago		Biology, Chemistry & Maths. A literacy rich subject is also recommended
Horticulture	Diploma	Lincoln, Massey	Minimum 40 credits NCEA Level 2 plus UE literacy and numeracy	Biology, Chemistry & Maths
	Degree			Biology, Chemistry & Maths
Journalism	Degree			Literacy rich subjects
Languages	Degree			Recommend having studied the specific language at NCEA Level 3 or for it to be a first language
Law	Degree		Studied as a conjoint degree. Competitive entry into 2nd year for most programmes. Competitive entry into 1st year at Waikato but continue into the rest of the programme	Literacy rich subjects
Medicine	Degree	Auckland	Either 1st year Biomedical Science or 1st year Health Science followed by competitive entry into 2nd year	A Science and a Literacy rich subject recommended
		Otago	Health Science First year programme followed by competitive entry into 2nd year	Physics and Chemistry recommended
Medical Laboratory Science	Degree		For Otago Health Science First year programme followed by competitive entry into 2nd year	2 Sciences and a Maths recommended
Midwifery	Degree	ARA, AUT, Otago Polytechnic, Victoria & WinTec		Biology & Chemistry
Music	Degree		NZSM – some papers require music theory and some require audition	Music, music production
Nursing	Degree			Must have 2 Sciences
Optometry	Degree	Auckland only	Must complete 1st year Biomedical Science or Otago's Health Science First year programme	A Science and a Literacy rich subject recommended
Paramedicine	Degree	AUT Whitireia	Must have a Driver's Licence and be over 18 years old at the start of the programme	Biology, Chemistry and Maths recommended
Pharmacy	Degree		Auckland: competitive. Direct entry and interview. Level 3 Biology & Chemistry essential Otago Health Science for first year	

CAREER FIELD	QUALIFICATION TYPE	WHERE	MINIMUM ENTRY (IF DIFFERENT TO UE)	RECOMMENDED NCEA SUBJECTS
Physical Education	Degree	Otago		English, Biology & P.E. at Level 2 and Level 3 recommended
Physiotherapy	Degree	AUT, Auckland & Otago		Biology, Chemistry and Maths recommended
Psychology	Degree		Offered as a Bachelor of Science and as a Bachelor of Arts	Literacy rich subjects
Quantity Surveying	Diploma	ARA, Massey, SIT & WELTEC	50 credits at NCEA Level 2 or above with at least 12 credits in each of English, Maths and Science, or gained NCEA Level 3	English, Maths & Science
	Degree	Massey & UNITEC		Accounting, Computer Science Economics, English, Maths & Product design
Sport and Recreation	Degree			Health, Physical education, Biology
Sciences	Degree			2 Science and a Maths (depends on specialism – typically recommend Chemistry with either Biology or Physics)
Speech and Language Therapy	Degree	Auckland, Canterbury, Massey & WinTec		Biology, Chemistry, English & Languages
Social Work	Degree		Competitive entry to second year	Literacy rich subjects
Surveying	Diploma		Minimum 35 Level 2 credits in best 3 subjects including Maths, 12 credits in Algebra & trigonometry	
	Degree			English, Calculus, Statistics, Computer Studies & Geography useful
Teaching	Degree		Primary: some required subjects	English & Maths. Will require a
			Secondary: 4 year degree or Post Graduate diploma	subject specialism
Technology	Degree			Physics & Calculus; Chemistry if major in degree
Veterinary Science	Degree	Massey only	A pre-selection phase (1 semester) open to anyone who meets the University Entrance criteria. Competitive entry into semester 2.	At least 14 NCEA Level 3 credits in Biology and Chemistry Recommended that Physics and Maths are taken to a minimum of Level 2.
