

Opening 2023

SAINT KENTIGERN  
PRESCHOOL

# to a new future

# A glimpse into your new Preschool

There is plenty of covered space around the inside edge of the circular outdoor area, and in the centre there will be a fun grassy play area with trees, a natural water feature, a large sandpit and some secret paths hidden in the beautiful gardens.

The new Saint Kentigern Preschool will be located on the western side of our Shore Road Campus and will sit nestled amongst trees and bush, with beautiful viewshafts of Hobson Bay and the Hauraki Gulf.

“Being able to design and build a brand-new Preschool for the Saint Kentigern families is an exciting project to be part of and I am delighted that we will be offering the children a world class facility.”

**Nikki Joyce**, Preschool Principal

The circular building design by CASA architects is strikingly innovative. Throughout the building, there will be separate light filled spaces tailored for the learning of Saint Kentigern’s youngest students.

Our target is to be teaching in our new world class preschool in the heart of Remuera in Term 1 2023.
