## From the Chairman of the Trust Board

### A Good Year, and an Important One for Continuing to Build the Saint Kentigern Community

Every December, one of the happiest times of our school year comes around with prizegivings. They are a terrific showcase for the energy, commitment and achievements of our students - and I mean all of them, not only those who have won prizes. They also reflect the commitment of parents, caregivers and teachers and everyone who, each year, bring to life the values of the Saint Kentigern community.

In taking those values forward, 2017 has been a good year, and an important one. Our schools are in excellent heart and well-placed for continued educational gains into the future.

We strengthened our governance and leadership teams, and defined our strategy for educational excellence. We also presented a proposed Master Plan for facilities development, which is now going through a stakeholder engagement process.

The proposed Master Plan is committed to the Saint Kentigern ethos and maintaining single-gender primary education. The engagement process reflects the Board's recommitment to listening ever more closely to you, the Saint Kentigern community.

As the Board, we rewrote key aspects of governance and advanced a succession plan to ensure the Saint Kentigern vision continues to flourish for generations to come. We welcomed three new members onto the Board, Rev Martin Baker, Mr Andrew Morgan and Mrs Kelly Smith, who bring an expanded breadth of knowledge and astute skills. We expect further appointments soon.

Earlier in the year, we were delighted to appoint Mr David Hodge as Head of Saint Kentigern, with oversight of the four schools and the Preschool. He brings an outstanding reputation as an internationally-recognised leader in education and under his leadership, we have produced our first Statement of Intent for Educational Excellence: defining both

goals and how success will be measured. We look forward to achieving our goal of Saint Kentigern being firmly recognised as an international leader for the quality of its education.

During the year, we restructured the Pakuranga campus into a Middle College and Senior College to address the needs of each age group, with each College now having its own Principal and Senior Management Teams. We also introduced two new Houses on the College campus, reducing the ratios of students and enhancing our Pastoral Care.

The proposed Master Plan we presented in November sets out a vision for world class educational facilities, and we have posted a full backgrounder on this on our website, which I would urge you to read, along with a feedback form seeking your input and comment.

Currently, the focus is mostly on the Shore Road campus, with proposed master planning for significant reinvestment still being progressed for Pakuranga. At Shore Road, we have been targetting benefits for both our Primary Schools and Preschool, and are proposing to achieve these by relocating the Girls' School from Remuera Road to a purpose-built, separate new facility on the north eastern side of the Shore Road campus.

This would allow for significant reinvestment and the construction of a new Preschool. Importantly, however, it is also based on a commitment to the separate and single-gender ethos of the Boys' and Girls' Schools. Each of the two primary schools would have its own distinct part of the campus; and separate classrooms, Principals, teachers and administration, with separate and timetabled access to new specialist or shared facilities.

We look forward to everyone's input on the proposed Master Plan, and to feedback from stakeholder reference groups at each school. We know all views will be grounded in a shared commitment to what makes Saint Kentigern special. This is what unites us all - and what we all look forward to continuing to see for a long time to come.

Fides Servanda Est

**Dr John Kernohan**  
Chairman of Saint Kentigern Trust Board

# We welcome three new members to the Saint Kentigern Trust Board

During the year we were delighted to welcome three new members to the Saint Kentigern Trust Board, who bring a breadth of knowledge and astute skills to help lead Saint Kentigern into a strong future.

## Andrew Morgan

Mr Andrew Morgan, along with his two brothers, is an Old Collegian of the College and has just concluded a nine year term as President of the Saint Kentigern Old Collegians Association. During this time, he has developed a large personal network within the Old Collegians membership both in New Zealand and overseas. The Trust Board noted that Andrew has been a tireless, loyal supporter of Saint Kentigern ever since his graduation.

Andrew attended Lincoln University and has been in the banking and finance industry for over 30 years and is currently the Managing Director - NZ of Australian finance company, Balmain Commercial Mortgages Ltd, which specialises in financing commercial property transactions, being a position he has held for 13 years. The Trust Board believes Andrew will continue to add great value to Saint Kentigern as a Trust Board member.

## Kelly Smith

Mrs Kelly Smith, currently a Year 9 parent, has had a very long association with Saint Kentigern. Her four children have attended Saint Kentigern with three having graduated and one still attending the College. She has been a very active parent and strong supporter of our values. Robert, her husband is an Old Collegian.

With a background in sales and marketing management at two large food manufacturers in Australasia, Kelly has more recently established her own consulting and training business which specialises in sales and marketing, leadership training, mergers and acquisitions, planning and strategy development. Many of her clients are overseas. Her involvement in training has led her to an interest in education, particularly in aspects of information technology. Kelly is very enthusiastic about joining the Trust Board and we look forward to her contribution.

## Rev Martin Baker

Rev Martin Baker has been a Saint Kentigern parent and is an appointee of the Northern Presbytery of the Presbyterian Church of Aotearoa New Zealand. Currently the minister of Clevedon Presbyterian Church, which offers an ambitious daily family programme, Martin was previously the national executive officer of the Presbyterian Church based in Wellington with a team of 27. In that role, he provided strategic, management and administrative leadership for the church. Prior to that, he served the church in parishes in Dunedin, Wellington and St Heliers. He has wide interests including environmental concerns.

Martin is a strong supporter of Presbyterian Schools and their connection to the church, and we look forward to his contribution to an important area of our organisation's life.

# From the Head of Saint Kentigern

## 'One of the Best Educational Communities in the World'

Saint Kentigern's recently published Statement of Intent sets out a goal for our family of schools to be recognised as 'one of the best educational communities in the world.' This is a big aspirational goal but one that the Board and the senior leadership team are all totally committed to. And while it is aspirational, we believe that it is achievable.

I believe that Saint Kentigern has all the right foundations upon which we can build. Furthermore, we have all the right ingredients, which will motivate our students to be the very best that they can be. In this article I want to concentrate primarily on how students will gain success 'in the classroom'. It should not in any way be interpreted as not valuing or staying true to the broader and holistic aspects of school life. These are, and will remain, an essential and vitally important aspect of a Saint Kentigern Education.

### Building on Tradition

Our Mission Statement states: *'The Mission of the Saint Kentigern Trust is to provide education which inspires students to strive for excellence in all areas of life for the glory of God and the service of others.'* This has been the steadfast foundation of Saint Kentigern for over 65 years. It, in turn, is built on a wonderful tradition of Presbyterian Education that goes right back to John Knox - who set out to provide a 'virtuous education and godly upbringing of the youth of this realm.' Our students have an advantage in being connected to this history of scholarship and personal development.

### Inspiring Students through Purpose

In asking young people to strive and work hard to fulfil their potential, they need to feel a purpose that is greater than just their own personal advantage. Education at Saint Kentigern is driven by its importance in making a difference to our family and to the lives of our community. It is for the 'the glory of God and the

service of others'. This sense of purpose - explicit in Chapel, and implicit in everything else - gives our students the essential and additional reasons to do their very best. This deeper purpose also makes our students more resilient when the going gets tough. It gives them a fulfilling reason for putting in all the effort needed to achieve excellence. As the famous psychiatrist and holocaust survivor Dr Viktor Frankl once wrote, 'He who has a why, can bear any how.'

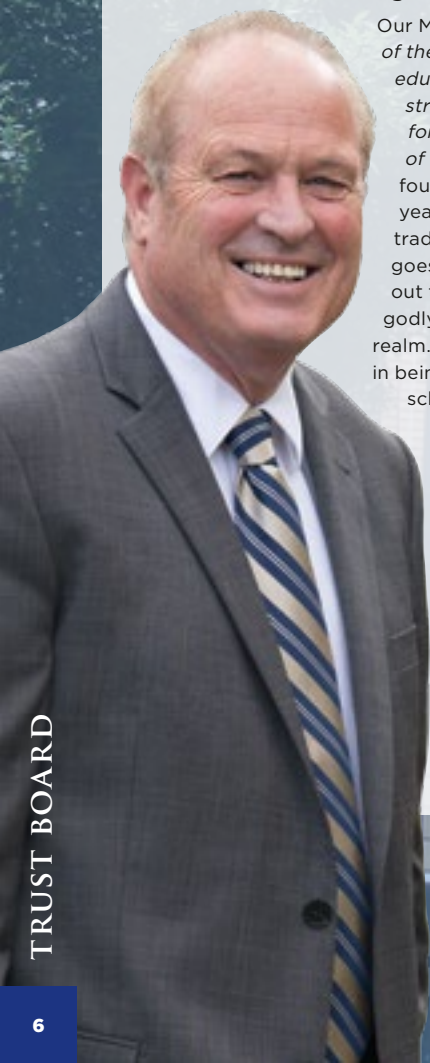

### Building on Proven Advantages

Saint Kentigern has the advantage of being able to offer the optimal connected pathway for our students. We offer the very best Preschool education so that our students arrive at the door of the school classroom totally prepared and ahead at the start. Our commitment to totally single gender education from Years 1 to 8 means that our students are given a tailored curriculum, and their gender specific learning and behavior needs are more easily met. Students can be themselves in their own learning environment. They, and their teachers do not have to contend with another level of differentiation and so have more time to meet individual needs. Our students in Years 9-10 continue to be taught in single gender classrooms for all core subjects, gradually integrating in some option subjects, before moving to full integration in Years 11, 12 and 13. This means that students transfer into a mixed gender environment gradually and at the right time in their maturity.

Saint Kentigern can offer the advantage of a seamless schooling system - from aged 3 to 18. In a world where so much is changing so rapidly, giving students structure and consistency is extremely important. This starts with the values that are at the heart of all we do. These values of Respect, Integrity, Service, Excellence and Love underpin everything. Having these values explicitly taught and demonstrated give our students a coherent set of standards for behaviour which will hold them strong throughout their life.

### A Smooth Transition

In standard education systems, the transition from one school to another can be problematic. As a recent Education Review Office Report states: 'Students need to make positive adjustments to their new school and classes so that their wellbeing is maintained, and their learning is coherent and continuous. Our family of schools, and the ability for us to be connected, means that Saint Kentigern students will have a smooth transition and there will be no pressure on them socially or gaps in their learning.'

I am excited to be part of the Saint Kentigern journey towards even greater excellence that each of our students deserves. The Saint Kentigern community is extraordinarily talented, creative and knowledgeable. It has the capacity for hard work. It can compete and cooperate with the best. We draw on a proud 65-year legacy. In continuing to serve our students and future generations, we are confidently targeting new and greater gains.

Saint Kentigern will be 'one of the best educational communities in the world.'

#### **Recognising the Special Character and Customs of each school**

We have made a commitment to allow our schools to develop their own ways of achieving excellence in academic outcomes for their students. Beyond the overriding ethos and values of Saint Kentigern, each school will meet the needs of their students in their own way and continue to develop their own special character and customs.

While recognising and encouraging difference in the character of our schools, we will use our capacity as 'one organisation' to ensure that our curriculum is unified and our students' progress is carefully monitored so that all we do contributes to the success of our students when they reach the Senior College and beyond. We will ensure that that each stage of a student's learning builds on what has gone before.

#### **'Common to All' Assessments**

The Statement of Intent spells out 'common to all' assessments in English, Mathematics, Science and Information Technology across the Primary Schools and Middle College. This is about ensuring good student outcomes and having rigour in the curriculum. While this provides an assurance in the core subjects, the options are not forgotten. We are equally focused on languages, the arts, technology and health and physical education. In addition, we have just had a full review (with external experts) of the Christian Education programme and we are assured that the content is developmental, challenging and appropriate to each level. We are in the process of creating a comprehensive, age specific E-Learning curriculum which will ensure all Saint Kentigern students have the values and skills to be high performing digital citizens.

#### **A Culture of Learning**

Great schools are built on a culture of learning and this starts with the adults in the organisation. We know that if students see adults learning and growing then they will follow this example. Saint Kentigern has a wonderful capacity to ensure that we all learn from each other and that best practice is shared. Our organisation has a wide range of extremely talented educators and administrators and we will fully utilise the range of skills available, so we get the best for everyone from everyone. Ensuring that all our staff are growing their expertise for the benefit of our students is an important commitment we have made. In a time of chronic shortage of teachers in New Zealand and worldwide, Saint Kentigern is fully staffed with very high levels of expertise.

#### **Planning for and Measuring Success**

The goal of being 'recognised as one of the best educational communities in the world' requires us to benchmark student achievement across our schools and to look outward to other top schools in New Zealand and the world. We know that to be truly world class is a huge challenge given recent trends in the international benchmarking of New Zealand's student achievement. Back in 2006, when I first started marketing for international students to come and study in New Zealand, I could argue that the nation's students were ranked inside the top 5 in the world in Reading, Mathematics and Science. New Zealand has been rapidly slipping down the rankings ever since. The 2015 OECD PISA (Project for International Assessment) saw New Zealand drop to 10th in Reading, 12th in Science and 21st in Mathematics. The recent U.S. based TIMSS (Trends in Maths and Science Study) saw similar decline - especially at Year 5 level. The 2017 PIRLS (Progress in International Reading Literacy study) saw us ranked 32nd of 50 countries. Where once the world came to New Zealand to learn how to achieve educational excellence - we now must learn from other countries. If there is any consolation in the rapid international decline in our education competitiveness, it is that the best students in New Zealand are still on a par with the best students anywhere. Therefore, our first challenge is to ensure that our Saint Kentigern students are 'top of the New Zealand class.' Once there, we will look to benchmark ourselves against a selection of top performing schools internationally. We will also provide multiple opportunities for our students to work with top students across the globe.

I am excited to be part of the Saint Kentigern journey towards even greater excellence that each of our students deserves. The Saint Kentigern community is extraordinarily talented, creative and knowledgeable. It has the capacity for hard work. It can compete and cooperate with the best. We draw on a proud 65-year legacy. In continuing to serve our students and future generations, we are confidently targeting new and greater gains.

Saint Kentigern will be 'one of the best educational communities in the world.'

## Scholarship Applications For 2019

A number of Scholarships are available at the following Saint Kentigern schools:

- **Girls' School:** For students currently in Year 6 at a New Zealand school, entering Year 7 in 2019
- **Boys' School:** For students currently in Year 6 at a New Zealand school, entering Year 7 in 2019
- **Middle College:** For girls and boys who are currently in Year 8 at a New Zealand school, entering Year 9 in 2019

To be considered for a Scholarship, applicants must be New Zealand citizens or hold New Zealand residency. All students applying for a Scholarship, regardless of the category, sit an academic entrance exam. For more information please visit [saintkentigern.com](http://saintkentigern.com)

In addition, the Saint Kentigern Old Collegians' Association funds scholarships to each campus which will be awarded to a recipient who is a child of an Old Collegian or has a family connection to an Old Collegian. Sons and daughters of Ministers of the Presbyterian Church of Aotearoa New Zealand are admitted on special terms.

Bursaries are also available to secondary school students whose circumstances would otherwise not enable them to attend the College.

### Scholarships to Saint Kentigern Boys' School and Saint Kentigern Girls' School

Scholarships cover a portion of the tuition fees for two years and are reviewed annually.

#### Boys' School

Applications close on **Friday 16 March 2018**.

All applicants must sit a test at the Boys' School on **Monday 26 March 2018**.

#### Girls' School

Applications close on **Wednesday 28 March 2018**.

All applicants must sit a test at the Girls' School on **Wednesday 11 April 2018**.

### Scholarships and Bursaries to Saint Kentigern Middle College

Academic and Performing Arts Scholarships to Saint Kentigern Middle College are available for girls and boys who are currently in Year 8 at a New Zealand school, entering Year 9 in 2019. Scholarships cover a portion of the fees and are normally for five years, reviewed annually.

Applications for Academic and Performing Arts Scholarships and Bursaries close on **Friday 30 March 2018**. All applicants must sit a test at the College on **Friday 13 April 2018**.

Sports Scholarships are awarded on merit. There is no formal application timeline.

# Update on Engagement Process for Proposed Master Plan

In response to requests from the Saint Kentigern community, the Trust Board launched a stakeholder engagement process in November seeking feedback on the proposed Master Plan for development across all campuses.

The Board welcomes this process as an opportunity to draw on the collective wisdom of our community and has posted more information about the proposed Master Plan and engagement process on our website. We encourage all members of the Saint Kentigern community to provide feedback.

The proposed Master Plan aims to support the Saint Kentigern vision for educational excellence, make the best use of resources and support significant investment in facilities. The Board has made core commitments to:

- First class education at every level
- Single-gender education at the Primary Schools
- The construction of a new Girls' School (at the best site for this)
- New facilities for the Boys' School
- A new Preschool
- Investment in our Colleges.

## Initial focus on Shore Road

We welcome comment on all aspects of the plan, although expect most feedback at this stage to be about the Shore Road campus as master planning for proposed developments at the Pakuranga campus are at an earlier stage.

## How to engage with this process

As noted, we have set up a dedicated portal [www.saintkentigern.com/engagement](http://www.saintkentigern.com/engagement) with more information about the proposed Master Plan, the engagement process and a feedback form.

## Stakeholder reference groups

We have also established representative stakeholder reference groups to provide additional input and are delighted that the following members of our community have agreed to chair each of the following groups:

- Boys' School: Mr Greg Horton
- Girls' School: Mrs Rebecca Scoones
- Preschool: Mr James Smith
- Pakuranga Campus: Mrs Desiree Thompson

As always, you can also talk with one of our Principals, email comments to [buildingfutures@saintkentigern.com](mailto:buildingfutures@saintkentigern.com), or write to us at:

Stakeholder Engagement  
Saint Kentigern Trust Board  
P.O. Box 51060  
Pakuranga 2140  
Auckland

## Next steps

We are inviting submissions until March 2018. All feedback will be collated and reviewed closely. The Trust Board expects to confirm a final decision in April 2018.
